BLUE RIVER MINES.

The Oregon City Company Sends

Six Men to Prospect

and Survey.

Intend Erecting a Mill.

UNITED GUARD September 25.

This forenoon the following mem-

bers of the Oregon City Company, J. M.

Tracy, D. W. Kinnard, J. A. Moore, W.

L. Beckner, G. E. Kinney and H. C.

Green, left for their mine in the Blue

River Mining District, thirty-five

miles east of Eugene, in a four horse

stage owned by Eli Bangs. They go

to the Sparks place in this vehicle from

which point they pack into their claim,

three of four miles distant.

They have been working their claim,

which promises rich returns, for seven

or eight years.

The mine will at this time be sur-

veyed and title obtained from the gov-

ernment, besides they will continue

the prospecting work for a few weeks.

We learn that it is their intention to

put a good-sized first class mill to

work on the ledge early in the spring.

We predict that Blue River will

prove a regular Klondike when it is

thoroughly worked. If the district

was located in frozen Alaska, Gold

Hill would be swarming with men.

BAD ACCIDENT AVERTED.

Mathews Bros Large Thresher Nar-

rowly Misses Going off Coast

Fork Bridge.

Word reached Eugene that Mathews

Bros new threshing machine, pur-

chased this summer and one of the

finest machines ever brought to the

valley, narrowly missed going over the

east approach of Coast Fork bridge,

seven miles east of here, yesterday

evening.

The machine, with its crew had been

working on the prairie below town

and was being taken to the Mathews

ranch on Pleasant Hill, for winter

quarters, when the mishap occurred.

The thresher was being hauled by a

mule team of six, and after getting

across the bridge and on the apron on

the opposite side the team became

frightened and plunged to one side

and the water wagon was thrown off,

falling about 15 feet, smashing it. The

front wheel of the separator went off

also, a bolt on the axle catching and

preventing the entire machine from

going. It was a close shave.

A FATAL ACCIDENT.

Peter Anderson Killed at Point Ter-

race on the Siuslaw

by a Blast.

Fell 80 Feet.

[The West, Sept 17.]

Word was brought to Florence yester-

day afternoon that a man named

Peter Anderson was instantly killed in

the quarry at Point Terrace yesterday

about 11 a m. He was employed as

powder man, it being part of his work

to attend to the blasting. It is not

known exactly how the accident oc-

curred. A short time before he had

been springing some holes preparing

to put in the larger blast and whether

in filling up the hole he tamped too

hard or whether the explosion was

caused in some way is not known.

The tamping iron struck the unfortun-

ate man under the jaw hurling him

from the rocks 80 feet in height.

Word was immediately sent to Flo-

rence the messenger meeting the Lil-

lian on her way up the river. The

Lillian turned back after Justice Wil-

son but he did not consider it

necessary to hold an inquest.

The unfortunate man had been on

the river but a few months. He came

here about June 1st and has worked in

the quarry for Wakefield & Jacobson

since that time. He was about 30

years old.
