

CAUSED BY DEMAND.

All of the sudden silver has advanced in price, from Saturday to Monday having risen 1 1/2 cents an ounce in New York, and three-fourths pence in London, says The Dalles Times-Mountaineer.

Here is an example of the effects demand have upon the price of silver. Simply the rumor that the Indian mints may be opened to the coinage of silver, whereby a demand will be created, has stimulated the markets so that the price has advanced almost two cents an ounce in New York.

ROBBERED OF THEIR FRUIT.

The Roseburg Review has some plain talk about the "commission" men who got away with a considerable portion of the Oregon fruit crop this season.

The parole law passed by the Missouri legislature went into effect lately. It provides that all persons under 25 years of age, who have been convicted of offenses against the law for the first time, may secure an arrest of judgment for two years, conditioned on good behavior.

Ex-County Treasurer Lockwood, of Pacific county, Wash, is one of the very few "defaulting" treasurers who is deserving of sympathy.

ROBBERY FRUSTRATED.

An Attempt Made to Enter F. E. Dunn's Store in the Wee Hours This Morning.

Daily Guard, September 23. About 1 o'clock this morning Night-watch Croner put to flight a man who was prowling around the rear of F. E. Dunn's store.

The whole burglar was probably 20 minutes walking around the window and in the alley, and his work was so slow that it is reasonable to believe he was waiting for a signal from some partner, which the appearance of Croner made unsafe.

Hops.—T. day's Oregonian: The serious shortage in the hop crop has caused quite a stiffening in prices, and growers who were so unfortunate as to lose half of their crop are now feeling more cheerful over the prospect for securing a much better price for what they did save.

AGRICULTURAL COLLEGE.—The Corvallis Times has the following concerning the Agricultural College enrollment: "Up to Tuesday noon 226 students had been enrolled, the number being about 100 greater than the usual enrollment on the first two days.

WHEAT MARKET.—The buyers were paying 73 cents per bushel for wheat today, a decline of one cent from yesterday. Yesterday while the Eugene Mill and Elevator Co. was paying 74 cents per bushel, at Junction and Harrisburg only 73 cents were offered.

A DONATION DEED.

From Charuel Mulligan and Wife to Lane County.

As considerable discussion has ensued concerning the deeds of donations to the county by Skinner and Mulligan, and by request of many subscribers, we print the Mulligan deed, in full, the Skinner deed being virtually the same, of course describing the north forty acres instead of the south.

This indenture made and entered into this, the 11th day of February in the year 1856, between Charuel Mulligan and Martha Mulligan, wife of said Mulligan, of the county of Lane, Territory of Oregon, of the first part, and James C. Robinson, James Munro and Thomas Kirkpatrick, the present board of county commissioners, within and for said county of Lane and their successors in office, of the second part.

WITNESSETH, That said party of the first part for and in consideration of \$1, to them in hand paid, the receipt whereof is hereby acknowledged, and for the further consideration that Eugene City, Seat of Justice for said county of Lane, has been located partly thereon, have bargained and sold, by these presents, do bargain and sell, and set over and convey unto the said party of the second part and their successors in office, all of that tract or parcel of land embraced within the south half of the original plat of said Eugene City, and generally known as Mulligan's donation to said county, containing 40 acres be the same more or less, and bounded as follows, to-wit:

Beginning at a point on the east line bounding the land of Elias Stewart at the most southerly in angle in said boundary line and running thence west one chain and 8 1/2 links; thence north 20 chains to a point on the south boundary line of the land claim of Eugene Skinner; thence east with said last mentioned boundary line 20 chains; thence south 20 chains; thence west 15 chains and 15 1/2 links to the place of beginning, it being a part of the east half of Sec 31, in Tp 17 S R 3 West, W. M.

TO HAVE AND TO HOLD

the premises aforesaid with all and singular the hereditaments and appurtenances thereunto belonging unto the said party of the second part and their successors in office, forever warranting and defending the title thereof against the lawful right, title, claim or demand of all and every person whatsoever.

IN WITNESS WHEREOF, We the said party of the first part have hereunto set our hands and affixed our seals this day and year above written.

CHARUEL MULLIGAN. [SEAL] MARTHA JANE MULLIGAN. [SEAL]

Signed, sealed and delivered in the presence of D. C. Dade and A. A. Smith. The acknowledgement was made before S. D. Gager, Justice of the Peace, February 11, 1856.

The above deed was recorded March 28, 1856, Book "A," page 67, Lane County Deed Records.

What is Your Name?

Why should not every farmer have his name and address plainly printed on letterheads and envelopes? It would not cost more than \$2 or \$3 a year, and would be a great convenience to his correspondents, and an indication of good business methods on his part.

As an example, I have on my desk while writing this letter, two letters from different men, both of whose signatures are absolutely illegible. I have submitted these signatures to a number of good business men and no one has been able to decipher them.

Printed letterheads cost but little more than plain paper. When they are used, there can be no question about the name and address, and beside this, their use gives the impression that the farmer using them is more enterprising than his neighbors—a good impression to make.

MARRIAGE PERMITS.—Since our last report County Clerk Jennings has issued the following marriage permits: Oscar Cresco, 26 years, and Maud M. Thurman, 17 years. Consent of parents filed. J. A. Rollins, 28 years, and Ross Robertson, 17 years. Consent of her aunt, guardian, filed. Lately there has been a boom in this line of business in the clerk's office. Good prices for grain and hops is probably the cause.

PRINEVILLE PERSONALS.—Last Saturday's Prineville Review: "Mr and Mrs L. S. Logan left last Thursday for Eugene where they will spend the winter. They were accompanied by Mrs. Kate Lonsway, a sister of M. S. T. M. Baldwin, who will visit friends and relatives in Linn county a few weeks. S. J. Newsum and son Gail, left Tuesday for Eugene. Gail will remain and attend the University, but Mr. Newsum will return in a few weeks."

OUR EDIBLE MUSHROOMS.

Tons are Going to Waste Because People Don't Know What They Are.

Daily Guard September 23. We clip from the Salem Journal of yesterday the following, after having made a few corrections at the suggestion of Dr. Paine, who is in the city:

"Dr. D. A. Paine, superintendent of the Oregon Insane Asylum, is an enthusiastic over the Oregon mushrooms. He has made a scientific study of this peculiar vegetable growth and knows the varieties probably as well as anyone in Oregon. Speaking on the subject this morning he said:

"It is a pity that so few people know the edible mushrooms and appreciate their value as food. It is a well known scientific fact that a pound of mushrooms contains as much nutrition as a pound of beef. But on account of the reputation of a certain poisonous variety the great majority of people are afraid to eat them. At present tons and tons of the choicest variety are going to waste. I was out this morning and gathered a bushel and a half in a short time. There are in Oregon over a hundred varieties of edible mushrooms, and only one kind that is fatally poisonous. It can easily be distinguished by its root. It springs out of a socket at the bottom. All others have a tapering stem, or only a slight bulb at the bottom. There is a large, pure white variety very plentiful at present that is very fine eating. Of course, all know the common pink or cream meadow mushrooms are well known and appreciated by a great many people. There is a large mushroom, called the shaggy mane, on account of having a mane, that is very fine and not much used. All mushrooms are very delicate and should be cooked for the table as soon as picked. They soon spoil and become unfit to eat. Prepared in the right way the Oregon mushroom is as palatable as oysters and can be cooked in as many different ways. A very little study of the subject in an encyclopedia or text book on the question will enable any one to gather them and run no risk whatever in eating them."

FOOTBALL TEAM.—Word comes from Cottage Grove that a football team has been organized at that place. At the present time they have four or five men who have done good work on the gridiron field and a lot of good material to build up with. Henry Day is to be one of their promising candidates. Eugene should organize a team and help to make the fall and early winter interesting by a series of contests.
