COURT HOUSE CASE.

Programme of Local Institute at Judge Williams Has a New Idea Concerning the Donation.

> Daily Guard Octobe 27. Hen Geo H Williams this morning presented a very able argument on the demurer to the plaintiff's complaint, in the "court house square case" interposed by the attorneys for the city of Eugene. He is a careful and powerful reasoner. In the court house case he says that it is a public square and not a court house square, and that the erection of the jail is against the wording of the donation and that the county cannot build a court house on the same if an objection is made by a citizen, nor can the county sell or lease it; that the square is virtually a park under the donation.

> If the courts hold this theory, which we doubt, and the square is fenced in and no county buildings are allowed upon the ground, it has been suggested that it be leased to Dr Driver for his premium bull.
