

AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

March 8, 1897.

Do Not Be Deceived.

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.

"The Kind You Have Always Bought" BEARS THE FAC-SIMILE SIGNATURE OF

Chas. H. Fletcher

Insist on Having The Kind That Never Failed You.

READ THE RECORD OF THE HON THOMAS TONGUE OF THE FIRST DISTRICT OF THIS STATE.

Misrepresentation of the Interests of the People of the First District.—Reasons why He Should Not be Re-elected.—Failure to Attend to His Duties.

An examination of the Record shows that up to the 16th of April there were 87 roll calls during the 55th Congress in the House of Representatives, out of which he was absent 26 times, failing to do his duty or dodging the responsibility.

He also voted January 11, 1898, to cut off debate and railroad through a bill under consideration involving \$21,562,425.66. See Cong Record, page 550.

He voted to make the producers and miners of gold in Oregon pay the cost of transportation to the Mints from the Assay Office thereby putting an additional burden on an important industry in the state. See page 584 Cong Record.

On January 21, 1898 [see page 900 of the Record] he voted again, insisting on the above exaction.

He voted in favor of an extravagant monument in the little town of Danville, Ill, involving a half million dollars of expense, at a time when the most rigid economy is necessary, and the burdens of the people are exceedingly great. There is no evidence in his record that he has attempted to do anything of like character for the people of his district or state. See page 590 of the Record.

On January 19, 1898, he voted in favor of a point of order which denied recognition to suffering Cuba, and that war existed. See page 816 of the Record. If your representative of the first district had done his duty in favor of the recognition of the belligerency of Cuba and by vote and speech used his influence in that direction it is possible that the destruction of our sailors in the harbor of Havana might have been avoided.

On January 20, 1898, [see Cong Record, page 864], he voted again to help defeat another resolution under consideration, recognizing the belligerence of the Cuban people.

On January 28, 1898, when the proposition to appropriate \$288,000 to the Methodist Book Agents was under consideration, he dodged the question by not voting. See Cong Record, page 1227.

He voted in favor of paying the U S bonds in gold, thus adding to the profits of the bondholder and increasing the burdens of those engaged in agricultural and every other producing interest. See Cong Record page 1372.

He voted to unseat T S Plowman, who had a plurality 2,305 votes, thus disfranchising 10,312 voters in the fourth congressional district of Alabama, when he held his own seat in Congress by the narrow margin of 59 votes.

He dodged voting when the bankruptcy bill was under consideration—a measure which would give relief to honest debtors in his state. See Cong Record, page 2170.

On March 3, 1898, he voted for a measure tending to injure and limit the circulation of country newspapers, thus affecting the interests of the great mass of people, and limiting their opportunities for cheap reading matter. See Cong Record, page 2738.

He voted to authorize the merging of street railways in the District of Columbia, thus giving corporations the right and opportunity to increase their capital, and still further water their stock. See Cong Record, page 2838.

On April 4, 1898, he voted to give the Pennsylvania railroad the largest railroad monopoly in the United States, control of the cab service in the entire District of Columbia, thus interfering with the rights of individuals already engaged in that work. See Cong Record, page 3909.

On April 5, 1898, he voted to make a gift of \$330,000 of the people's money to a shipbuilding firm, while the shipbuilders of his own state are neglected. See Cong Record, page 3955.

He again voted against the recognition of Cuba, and also against taking action on the disaster to the Maine. See Cong Record, page 4196.

On April 21, 1898, he voted to seat a gold democrat as a representative, and attempted to turn out of his seat the regular democrat who was elected by a clear majority. The scheme failed because a large number of republicans would not allow such injustice to be done. See Cong Record, page 4578.

On April 28, 1898, he voted to allow railroad companies in the Indian Territory, to merge, and to lease other lines, thus giving the railroad companies in that section an opportunity to increase and water their capital stock and add to the burdens of those who are compelled to use the railroads in making their agricultural products.

In fact, the record of this representative is unequalled by any in the United States, and the State of Oregon must do her duty on election day to prevent his return to the 56th Congress, if the interests of the people would be protected.

CERTIFIED FROM THE RECORD.

REGISTER MODESTY.

Says a Word for the Father.—Mr. Baughman The Object of Dark Insinuations.

When the reader is aware of the fact that H D Edwards, Republican nominee for County Commissioner, is the father of one of the proprietors of the Register the following from that paper will strike him as rather coarse political work: "Mr Edwards is known through the county as a careful, conservative, business farmer, who has made a success at his farming and who says but little, but thinks lots. He is a consistent and life long republican, belongs to one of the staunchest republican families in Oregon's history and is a man whom the

taxpayers can trust with the county funds.

"Mr Baughman's record is open to investigation to those who are not already familiar with it, and this is all we care to say concerning him. We are in no way afraid, the decision of the voters. They want a man whom they can trust."

Rather laudatory of the family representative, but deeply darkly mysterious as to the opposing candidate, Mr Baughman. The Register is invited to give Mr Baughman's "record." Insinuations are no honorable either in private or public affairs. They are as the midnight dagger of the assassin.

OREGONIAN "BASE MONEY."

The Oregonian editor is breaking down mentally by reason of the strain of the financial question. Witness this question and answer: "What is base money? Any of less value than gold money."

If the Oregonian has any money coined or issued by the United States, "base" or otherwise that it wishes to dispose of at a discount it can find a ready market for the same. The Oregonian calls silver "base" money and, according to its definition it should be of less value than gold. But silver money is of equal value with gold, and the Oregonian newspaper takes it daily in payment on the same terms as gold. That being the case it is surprising that the intelligent editor should fill his columns with such apparent nonsense.

Register: "James G Blaine stands for the maxim that a public office is a public trust."

Our contemporary is rather mixed. The lamented Grover is responsible for the epigrammatic saying. Yet even Grover, with his political muggumpury, held that view at naught whenever it ran counter to his prejudices and ambitions. It is not to be regretted that the masses of our political organizations do not take kindly to the 'charisma' that from street corners and official easy places proclaims its "better than thou" platitudes.

CATTLE DROWNED AT SIUSLAW

They Slid From a Scow While Being Towed up the River.

The Florence West, May 13. Tuesday afternoon the Mink started to tow two scowloads of cattle belonging to Wm Goodpasture, to the head of tide. When near Mr Stibbens' landing the engine was stopped to allow the boat to run up to the wharf slowly.

Captain Hurd informs us that some of the cattle on one scow slipped and crowded the others to one side so far that the water came on the deck. Their weight broke the railing and let them into the river. One of the lines was then cut and the steamer with both scows backed away from among the cattle.

Efforts were made to get them to swim to the shore but one bank is very steep and rocky and there is a boom stretched along near the other. Most of the large cattle passed through an opening in the boom and reached the bank in safety but two yearlings and ten calves were drowned. Captain Hurd says it was simply an accident caused by the cattle slipping as the engine was not running and the scow was clear of the wharf. There were about forty head in all on the scow and the owners consider themselves fortunate under the circumstances that they did not lose more.

A SPECIAL WAR CORRESPONDENT.

—Newton Green has been selected by the Boston Herald, as a special war correspondent and sketch artist, and left last Monday for Chickamauga park to begin his duties, accompanying the 11,000 troops of the Eastern division now mobilized there. Since leaving Eugene Mr Green has met unqualified success in newspaperdom and in being assigned to the position of special writer takes one of the most important and responsible details that a paper can give. The joy of his friends will be heightened in knowing that he secured the place over nine other capable aspirants.

FLORENCE NEWS.

Clipped From The West of May 13.

The schooner Del Norte was towed down to the mouth of the river Wednesday evening.

Born in Florence, Oregon, Friday, May 6th, 1898, to Mr and Mrs Wm Bernhardt, a ten pound boy.

The schooner Edith will sail for San Francisco in a few days. She will take out some salt salmon for our fishermen.

Girls school closes next week. James Furish is anxious for a rest from teaching, as he has had but two weeks vacation in the past 8 months.

Capt Gideon came down from Waldport Saturday after the schooner Edith which has been lying at the Glendens wharf since last fall. He beached the vessel above Florence and is putting her in condition to go to sea.

MERIAU PARK.

Liberal Offer to the Public For Use of the grounds and Driveways.

Many Eugene people are not aware of the possibilities of a magnificent natural park at their very door. Mr Meriau continues to improve the driveway and natural beauties of the tract of land he has dedicated to the use of the public and deserves substantial encouragement from the citizens of Eugene. We publish a proposition he makes and assure our readers that Mr Meriau on those terms will not receive more than enough to pay the expenses of keeping the park in order, saying nothing about interest on the investment.

Many of our people who have private conveyances have never been on the grounds. If they will take a drive through the park we believe they would at once assist, to the small amount required, in the expense of keeping the park in order.

EUGENE Ore, May 12, 1908. TO THE PUBLIC: I make the following statement and proposition.

Having been to great expense in clearing and beautifying the grounds, putting up buildings stands, etc, with track and driveways, and not feeling financially able to furnish this free to the public, I would make the following proposition which I hope will meet with your approval:

FIRST—To keep tracks, drives, etc, in good condition for driving or riding, reserving 12 feet on inside of track for horse training, if needed, charging a fee for the season from May to November as follows:

Family use of all grounds as riding, driving or picnics, for the season.....\$3 For single month.....1 1/2 Single person, on wheel or riding horse—Season.....1 1/2 Month.....50 cts

SECONDLY—Family picnic per day 25 cents. Single person daily, 5 cents, season 50 cents.

Boats, per hour, 15 cents. For fishing and use of pavilion, see me at grounds.

THIRD—Keys will be furnished to all parties purchasing of the above privileges, said keys to be returned to me at the expiration of the privileged term.

PROVIDED: Any person who is found transferring his key to another person who does not own a privilege, shall forfeit his keys, privilege, and the amount he has already paid in.

FOURTH—This proposition would not hold good during a county fair, if one should be held at my grounds.

FIFTH—For keys or further particulars call on F M Wilkins. Season or monthly tickets held for privileges at the park, will entitle the holders of them to all entertainments that may be given at the park excepting of course, the use of the boats and pavilion.

Thinking the public for past favors and patronage and hoping for a continuance of the same, I am very truly,

S MERIAU.

HIS WILL FILED—Corvallis Times:

"The will of John W Lawrence has been filed for probate in the Benton county court, and W N Lawrence was appointed administrator with a bond fixed at \$2,500. The testator died at Monroe May 1, aged 90 years. The document was executed at Eugene, Oregon, July 15, 1886, and the witnesses were S C Lee, Charles Phillips and K M Mulholland of Junction. It is a bequeaths property valued at \$1,050. After paying funeral and administration expenses it devolves to his son, George H Lawrence, a certain note valued at \$440, payable in greenbacks; to another son, Alden Lawrence, the sum of \$5 and to his sons, Wesley N; B M; John H; Andrew J; Lemuel S; Manuel W; and to his daughter, Mrs E R Stansberry of Eugene, and to his grandson Jesse, each a one-eighth interest in the east one-half of the John and Hester Lawrence donation land claim."

Captain William Galtby, company G, of the Second regiment of Oregon volunteers, and who was a soldier for her Britannic Majesty for some years in India, and who was awarded a medal for valiant services, in the Afghan war, which is a distinction awarded to but few, is believed to be a cousin to our fellow townsman, S Haudsaker. The Captain's portrait is printed in the Daily Oregonian of the 13th inst.

Weak Lungs

If you have coughed and coughed until the lining membrane of your throat and lungs is inflamed,

Scott's Emulsion

of Cod-liver Oil will soothe, strengthen and probably cure. The cod-liver oil feeds and strengthens the weakened tissues. The glycerine soothes and heals them. The hypophosphites of lime and soda impart tone and vigor. Don't neglect these coughs. One bottle of the Emulsion may do more for you now than ten can do later on. Be sure you get SCOTT'S Emulsion.

FLORENCE SHIPBUILDING.

A Number of Men at Work on the New Schooner.

The West, May 13. About a dozen men are at work in town, getting lumber for the new vessel on the ground and making other preparations necessary before the work of construction proper can be commenced. The sawed timber is brought from the mill on scows and a donkey engine used to unload the scows and haul the timber up the bank.

Building this vessel will furnish employment for quite a number of men during the summer. The vessel also, after it is completed will be a great benefit to this river as it is the intention to keep her on the run between this place and San Francisco, thus giving us regular shipping connection with the outside markets.

We hope to see shipbuilding become a permanent industry here and believe that our fine forests furnish such opportunity to obtain the best timber at a low cost, that vessels can be built here as cheap as at any place on the coast.

NEW RESIDENCE.—Joseph Luckey will have a commodious residence constructed this summer to take the place of the old structure.
