## NATIONAL ASSOCIATION

### The Educators Will Meet in Washington, D C July 7-12

### MAY VISIT OREGON NEXT YEAR

The National convention of teachers will be held at Washington D C, July 7-12. This association is the greatest of its kind in the world and is the leading factor in the advancement of public and special lines of education in the United States. The membership is very large, reaching from ten to fifteen thousand each year. A strong effort is being made to hold the meeting of the National Association at Portland next year, and, with this in view, arrangements will be made to organize an excursion party to visit Washington, leaving Portland about July 1st. It is expected that the lowest round-trip rates will be secured, and that all of the trans-continental railway lines will join in these lowest rates and in the work of securing the meeting for Portland.

All persons wishing to join this excursion will receive the benefit of the reduced rates and extended time and can have the advantage of visiting Washington, the Omaha Exposition, the great cities of the eastern states, etc.

City Supt Frank Rigler, of Portland, State Manager, and Prof E B McElroy, director of the H E A, for Oregon, are taking active steps to organize an attendance from this state this year, and to bring the association to Portland next year or the year following.

### In Charge Pro Tem

Salem Statesman: Mrs C F Martin is at present in charge of the office and desk of her father, T W Davenport state lieu-land agent, who is confined to his State street home by a passing illness, from which he was reported as improving perceptibly yesterday. Mrs Martin says applications for the purchase of land are pouring in and that the bases are being rapidly exhausted.

This confirms the recent statement made by Mr Davenport himself, to the effect that the office would in all probability, have fulfilled the purpose of the legislature in creating it, by January 1, 1899.

INCORPORATED—The following articles of incorporation were filed with the Secretary of State at Salem yesterday: Booth-Kelley Lumber Company, Saguinaw, Lane county; \$50,000; R A Booth, George H Kelly and John F Kelly.

### THE MONITOR TERROR.

The Terror is one of the modern double turreted monitors, although her keel was laid as long ago as 1874. She mounts four 10 inch guns, two forward and two aft, and these, with her exceedingly low freeboard, give her a singularly formidable appearance which is by no means misleading.

### From Ministry to War

Albany Democrat  
In his toast at the banquet of the alumni of the Albany college last evening Rev H L Reed told a Dewey incident that is worth repeating. Just before coming to Albany last year Rev Reed was the guest of Rev Geo Spaulding in Syracuse, N Y, and from him he learned how close he came to exchanging places with Dewey.

Spaulding and Dewey were boys together in Vermont. Both decided when young men to go into the navy and were examined at the same time in competition for the place. Spaulding passed the higher examination and was ready to go but his parents objected so strenuously that he gave it up and turned his attention to the ministry. In the meantime after his defeat Dewey had decided to study for the ministry, but when Spaulding backed out he was able to secure the place and so entered Annapolis and has developed into the hero of Manila, with the eyes of the whole world upon him, while Spaulding is preaching in Syracuse with only local fame.

### Junction City Hop Sale.

Junction City, Or June 17.—Kela Neiss, of Salem, bought 17 bales of hops from J R Crow, of this place—today and shipped them to London.

Democrat. An Albany lady has received a letter from a friend in Paris, which tells in an interesting way of the feeling towards the United States. The sentiment is all Spanish and it is hardly safe for a resident of the United States to do anything but side in with Spain, so strong is the anti-United States spirit, and this in the land of Lafayette.

Medford Mail: Miss Adele Pickel left Sunday evening for a few week's visit with friends in Eugene. Miss Pickel has been one of Medford's most efficient high school instructors for the past several years. She is taking a rest from teaching this year and will we understand, take a course of study in Stanford's university.

Junction City will celebrate the coming Fourth of July.

### Prof Glen from \$900 to \$1,100.

Prof Burden from \$800 to \$900.

Prof Lilly from \$1,500 to \$1,650.

The sum of \$250 per annum was appropriated for the musical department.

Miss Ida B Roe was appointed as assistant in the English department at a salary of \$500 per annum.

A special committee was appointed to procure an assistant in the Latin department, if necessary, at a salary not to exceed \$1000 per annum.

### TOTAL RECEIPTS, ETC.

The total receipts of the University from all sources is placed at \$45,941.44; estimated expenditures for the next year \$45,341.44.

### AN IDEAL TOWN.

That is What Editor Irvine Calls Eugene.

Corvallis Times: "One of Oregon's finest towns is Eugene. The place nestles on the bank of the Willamette in the center of one of the most beautiful portions of the Willamette valley. It is the distributing point for a vast area, that maintains a thrifty agricultural population, and its thriving and enterprising business men carry on traffic of immense volume. It has most substantial and modern business buildings, and its residences all well appointed and well-kept are a delight to the eye of the visitor. Its people are progressive and hospitable. As a seat of the state university with its tremendous influence in an educational way, Eugene is an ideal town, and its people ought to be, and doubtless are, well satisfied with their environments. Corvallis and Eugene have much in common, which is the secret of the strong bond of friendship between the two towns."

Salem Journal; Mr C M January of Eugene, notifies the world that his wife has left his bed and board, etc. Was it a case of January wed to May?
