WILL PULL FOR PORTLAND.—The day's Oregonian: A strong effort is being made to have the national association of teachers hold their convention in Portland in 1899.

The railroad officials have promised to do all in their power to assist in the enterprise by giving a low round trip rate to all going on the excursion trip to Washington. Should Portland be fortunate enough to secure the annual meeting next year it will mean the coming of fully 10,000 people interested in the educational advancement of growing youth, which, of itself, would be one of the greatest advertisements ever made of the state.

INSANE.—Josiah Scott, aged 66 years a farmer, was examined before Medical Examiners J W Harris and T W Harris this morning on a charge of insanity and was ordered committed to the asylum. He is a married man, and the cause is old age disease of the blood vessels. He threatens homicide and suicide. The unfortunate man was taken to Salem to the asylum on today's local train by Sheriff Johnson assisted by M J Powell, guard.

ROAD IMPROVED.—J C Porter, of Silver Lake, gave us a pleasant call today. He tells us that the Military road is in the best condition he ever seen it. Teams can now safely haul a large load from Eugene to Eastern Oregon. The work this year has been of great benefit, he says. Lane county proposes to keep this highway in good condition hereafter. Also the McKenzie.

HOP PROSPECTS.—Stephen Smeed, of Camp Creek precinct, was in the city today. He says he has the best prospects for years and that the hop lice are scarcer than he ever noticed them at this season of the year. He took home with him spraying material so that he would have it on hand if it was needed.

SPECIAL WORK.—J B Mulloy, of Portland, deputy U S collector of internal revenue, was in the city today. His special mission was to restamp the beer held here by the Cold Storage plant, as provided under the war revenue measure. The extra amount required is 85 cents per barrel.

A GENTLE HINT.—Eighth street near the Lane County Bank and the postoffice is in a filthy condition and should receive the attention of the street commissioner. Willamette street also needs his attention.

DON AND THE YANKEE.

(The Spaniards had said "If it comes to war, we will show the Yankees that we have not forgotten how to fight.") Set to the tune of Yankee-Doodle.

The Yankee tars were never whipped But now had something new, sir. -O' fight "Old Don" in Manila say. They moved out brave and true, sir.

The Dons could fight; had fought before, Without a cheer or a thanks, sir. But the reason why they were so brave, They had never fought with a Yankee.

The Yankee fleet went sailing in, Before the break of day, sir. By the moonlight beams, with lights all out, As though they knew the way, sir.

Chorus— Dons navy in the harbor bay, Torpedoes under water, While forts on land were booming forth From deadly gun and mortar.

Chorus— When daylight came Yank, opened up, Just so as to get his hand in, Then he stopped a little to take a rest, But he did not mean to abandon.

Chorus— The Dons made sure they had him whipped When he pulled out of range, sir. But he'd only stopped to take some grub, And to have little change, sir.

Chorus— So after grub he began again, And never stopped to dine, sir. The boys cried out, "Remember the Maine," And the fleet was all in line, sir.

Chorus— The old "Star Spangled Banner," Was played then by the band, sir. This sounded good as it floated out, And was echoed by the land, sir.

Chorus— The Yankees cried "round and round, And got on in a riddle, So, before the sun had went to bed, They played him Yankee-doodle."

Chorus— Then they sank his navy in the bay, And silenced all his forts, sir. Then planted "Old Glory" on the spot, Where Don had had his sport, sir.

Chorus— They finished up their work complete, Without either beer or cider, Then they gave "Old Glory" three rousing cheers.

And finished up with a "tiger." Written May 25, 1898, by J. T. C. Tria, Glenwood, Oregon.

Halsey Druggist Pleads Guilty. Caleb Gray, the pioneer druggist of Halsey, and a man about 60 years of age, Wednesday morning at Portland pleaded guilty to an indictment charging him with selling liquor without a license. The offense was committed some months ago, and Gray was arrested upon complaint of the internal revenue officials.

The judgment of the court, while not severe, is rather hard upon a man of Gray's age. The defendant was fined \$100, and sentenced to serve 30 days in the Linn county jail at Albany. The confinement will be a hard blow to Gray, as he is a man of high respectability, and prominent in church affairs.

Of Course it Will. A loyal Cove girl has sent the following to us, says the Oregon Scout: "Unto the war as a recruit I'll send my darling John. If he'll round up a substitute To sooth me while he's gone." We have no doubt that when John sees his martial order will cool off wonderfully.

A BICYCLE PATH. Eugene Wheelmen Are Discussing Such a Venture.

Since the building of a bicycle path between Albany and Corvallis and its satisfaction to those interested, local wheelmen are beginning to talk of a path in this vicinity.

One of the prettiest rides in the country, along which a path could be constructed reasonably, is from Eugene to Springfield, going on one side of the river and returning on the other.

Another short path would be to Merian's park, with the chance later of continuing to Junction along the river road.

All over the United States the question of cycling paths is receiving an unusual amount of attention, as the use of the silent steed becomes more universal, and in Oregon this year there will be built approximately nearly 80 miles of path. Its advantage is so apparent that if the cost is not too great, the bicyclists of Eugene and vicinity could not do a better thing than organizing for this one purpose.

DEADLY HESSIAN FLY

Warren Wheat Fields Begin to Show the Effect of the Parasite's Ravages

Pendleton Tribune: "T Wyrick, of Warren, and Frank Lockwood, of Sand hollow, both wheat farmers, were in Pendleton yesterday.

"They say the wheat fields in their locality are beginning to show effects of what is supposed to be the Hessian fly. The heads of wheat turn white and the grains wither away. These white heads can be seen in large numbers but so far there are not enough to greatly effect the yield. The fly is supposed to lay an egg in the joint of the stalk, which hatches into a worm that destroys the life of the plant.

"The insect has been known in the country for several years, but the injuries have not become great enough to cause much attention, and no one has made an exact study of the parasite."
