PANIC IN SANTIAGO.

Santiago de Caba, Aug. 1.-A panicky feeling prevails in business circles here, owing to a fear that the Americans will turn the city over to the Cubans for self-government No confidence exists, owing to the uncertainty of the future. This is the question uppermost in everybody's mind. Filipinos in Europe Ask Us Abandon Them.

London, Aug. 1 .- Natives of the Philippine islands and British subjects who have interests there are alarmed by the reports that the peace terms include the return of the islands to Spain. As a result they have held a meeting here, and after consultation with the Filipinos in France and Belgium, have cabled to President McKinley and to Senator Davis, chairman of the senate foreign relations committee. The message to President McKinley is as follows:

"The Filipinos resident in Europe oray you not to abandon the Philippine islands for the sake of peace with Spain. Our loyalty and trust in the honor of America entitle us to your consideration and support. To hand over our country again to Spain is contrary to the humanitarian proceedings of your noble nation, and the wish of all classes. Civilization, trade and all will be lost if Spanish authority is reestablished in any form."

The message to Senator Davis says: "A castiron agreement, binding Spain to form a government satisfactory to the inhabitants, is preposterons. To retain her sovereignty mean deception, oppression and bigotry. We place our rights in your hands, and pray you to induce the president and senate not to abandon in the hour of peace a people who, trusting in American honor, fought for their common

Shafter's Army Will Be Brought Back

Washington, July 80. - Secretary Alger is deeply concerned over the welfare of the gallant troops under Shafter's command, now encamped on the outskirts of Santiago. The health report shows a surprisingly large number of cases of sickness, but army surgeons authorize the statement that these figures are misleading in a certain sense, and that the situation may not be nearly so bad as they would seem to indicate. The slightest ailment of the most temporary nature suffices to place a soldier's name on the sick reports, which, in their present shape, would not distinguish between such a case and one of mortal illness. The inference is that many of these cases in Shafter's camp are of a trivial nature, but go to swell its grand total of sick and wound-

Notwithstanding this mitigating fact, Secretary Alger is going to remove the soldiers at the earliest opportunity to more healthful clime. The surgeongeneral, under the direction of the secretary, a few days ago, inspected a tract of land adjoining Montauk Point, Long Island, belonging to the Long Island Railroad Company, which has been offered to the government as suitabe for a large encampment. The tract is three miles square, contains an abundance of fresh water, a considerable lake, a hill 10 feet in height, and many other sanitary advantages, including salt water bathing.

The necessary orders to equip this as a camping ground will go forward immediately, and every advantage will be taken of the experience gained in the formation of the great camps at Chickamauga and Camp Alger, to make the conditions as comfortable as possible for the battle-scarred veterans in Shafter's army.

The time for their removal is left to General Shafter, the only limitation placed upon him being that he shall not delay the bomeward sailing of his troops beyond the moment when it shall be safe for them to leave Santiago, having regard to the fever condi-
