DEPEW AND INSERSOL.

Two great orators, Dr Depew and Col Bob Ingersol, gave their views on our future relations with the Philippine islands. Their views brief sentences. Depew says:

Daily developments are verifying the assertion that the mints of India are about to be re-opened to the free coinage of silver. This information is gall and wormwood to the goldbugs of America, who seek in every way to discredit it. The report of the British Indian currency commission is not quite ready for publication, but will be soon. It will recommend a return to bimetalism. The necessity is conceded by leading goldites of Great Britain. Immediate action is sure to follow, for India will not be able to survive much longer under the gold standard.
