REPUBLICAN TO DEMOCRAT.

Stephen A Douglas, Son of his Father,
Changes His Politics.

Chicago, Aug 9.—Stephen A Douglas has renounced republicanism and formally joined the democratic party.

Although the son of a man who was looked up to as the leader of democracy in the days when men of this time were boys, and who was the democratic candidate for president in 1860 against Lincoln, Stephen A the Second has always been a republican. He went to democratic headquarters and made public confession of his new faith in this statement:

For years I have been considered by republicans as doctrinally un-sound because I really believe that this should be a government of the people, by the people and strictly for the people. This was the reason without doubt, why I was not permitted by the machine to make a single speech in the state of Illinois during the campaign in 1896, though this year, under date of July 28, the republican state central committee honored me with a request to take the stump for them.

Of late years the tendency of the republican party has been to fasten this government under the control of trusts and monopolies. The tendency of the democratic party has been to curtail the power of money and places the government in the hands of the mass of the people. I not only believe that this should be so, but I also firmly believe that the only thing that can prevent this country from being wealth-ridden on the one hand or mob-ridden on the other, is that the government shall be in the hands of the plain people.

All my life my sympathies have been with the people, having been taught this by the two men I honor above all others—my father and Abraham Lincoln. Therefore today I believe my proper place is in the democratic party, and there I shall abide.

rich to become profitable to those mining it.

The quartz is the free milling kind and the pieces exhibited in Salem by Mr Winkler show up splendidly in wealth.

What is known there as the Musik group is owned by a Mr J W Cook, who seems to have implicit faith in the future of the district, having upwards of one hundred men in his employ, and, in course of construction, an addition to his present mill. The main structure is 36x36 feet in dimensions with an engine room 30x33 feet, and a concentrates storage room 36x44; the walls are 38 feet high. He has five stamps in operation at present and is preparing to add ten more, the same being now en route from Chicago. His "veins" face 8x13. He has bonded a couple of his claims to parties from Montana and they are now actively engaged in developing their prospect.

EDITORS TO MEET.

The editors of Oregon, Washington and Idaho will hold a joint convention of their several state editorial associations at Spokane this month, August 25, 26 and 27 have been selected.

These dates have been already selected for the annual meeting of the editorial association, which has laid dormant for two years, will also meet at Spokane on these dates and reorganize.

It is expected that upwards of 500 newspaper men will assemble, and though they probably will "talk shop" to a great extent, they will manage to make things warm for Spokane. Many interesting papers will be read.

While at Spokane, the editors take an excursion on Lake Coeur d'Alene, and partake of a banquet while on the steamers. They will be tendered a reception and the women visitors given a musicale.

The opposition to the republican party in Ohio this year does not argue of free silver nor paper money, but instead argues for the submission to the people of whether they want a free silver law or not—whether they want a greenback law or not. Then our candidates will make the law if the majority of the people vote for it and not make the law of the majority vote against it. Let the majority vote by a direct vote on the most important laws, and let the people and not the officers say what laws are most important.

THE BOHEMIA MINES.

Salem Statesman: Among the recent arrivals in this city is Charles Winkler, who spent about three months in the Bohemia mining district, which is located in the northeastern portion of Douglas county.

He speaks very highly of that mining section and thinks that it is not talked about to the extent that it should be.

Every month of work done upon the claim there is productive of rich developments and capital is bound to be attracted there sooner or later. Mr Winkler thinks the Bohemia is destined to be one of the richest camps on the Pacific coast. It covers a range of fifteen miles wide and about sixty long, and already about fifty claims are in operation. The ore is not of a high grade, but is sufficiently

The printers are at work on the job. Hag is still being shipped to California. Southern Oregon watermelons in the market. Fresno, California, had a \$100,000 fire yesterday. The plate glass for the new National Bank building has arrived. W R McCormack cut over 150 tons of hay on his Shuslaw ranch this year. Attorney Woodcock says his wheat is yielding about 20 bushels per acre. Carpenters are placing the roof timbers on the new court house building. Hop checks printed at the board office promptly and at reasonable prices. Sunday's Oregonian has a splendid photo of Mr Emanuel H. Lauer and wife. The plasterers have commenced work on the new First National Bank building. The S P pay car passed north this morning, making glad the hearts of employees. Two boy musicians carrying a violin and harp, arrived in the city today. They have been here several times and play well. The Oregon recruits did not leave San Francisco for Manila today as originally intended, and it is doubtful if they go at all. Baker City Republican: After enjoying many years of close friendship with Mr Burr, we know that the death of such a man is a loss to Eugene, Lane county and to Oregon. Last evening while Campbell & Pletcher's stage was coming in from Florence a runaway occurred about 7 miles out of this city. Two passengers were thrown out and the stage was injured some.

SAD HOME COMING.

Says the Colliage Grove Messenger: Uncle Sammy Garrouite arrived home Monday from California and Texas, where he has been for the past four months. He was accompanied by his daughter, Mrs Price and grand-daughter Miss Price, of Oakland, California. It was quite a sorrowful home coming, for on the same train was the body of Mrs Price's son James, a young man 23 years of age, who was drowned in the Umpqua river at Roseburg while bathing on the 5th. The body was interred in the Odd Fellows' cemetery Monday afternoon. Mrs Price and daughter returned to California on Wednesday's overland. Uncle Sammy will remain for some time in what he declares to be, the best country on earth.

FOREST FIRES.—A J Johnson of Portland, says there are numerous and extensive fires through the woods in Southern Oregon and Northern California, where he has just been, making it very disagreeable to settlers and very destructive to timber. It is claimed that hunters after deer set most of these fires, but there are so many ways of fires getting out that it is impossible to tell how they are started. No one has been arrested, and there seems to be no one whose business it is to look after such matters. If the forests of Oregon, which are one of its greatest sources of wealth, are to be preserved, some legislation must be enacted very soon and stringently enforced.

A CHANGE.—Dr H F McCormick took charge of the postoffice this morning. Messrs E K Henderson and R E Bristow have conducted the office in a very creditable and satisfactory manner to the patrons of the office. The GUARD especially desires to extend its thanks to the gentlemen for many favors received. We understand that Mr Henderson will leave in a few days, on a vacation, and Mr Bristow will remain in the office until he returns. We are confident that the new postmaster will also serve the patrons of the office satisfactorily.

A CONTRACTOR.—Sunday's Salem Statesman: "L N Roney, the well known builder and contractor of Eugene, was in the city yesterday. He states that Eugene is enjoying a large share of prosperity at present. The new court house, which Mr Roney is building, is nearing completion, and several other important buildings, including the new bank building, are in course of construction. Fire insurance men say that Mr Roney is one of the most reliable men in Oregon to estimate building losses."

NEW WAGON TRAIN.—The Dalles T M: "Mr Chrisman is getting his steam wagon train in readiness for the road, having coupled the wagons to the traction engine, and in a few days will start his primitive railroad train steaming toward Silver Lake. If it proves a success, there will be no need of a railroad reaching south from the Dalles into the stock and wool producing sections of Crook and Lake counties."

COURT HOUSE ACCIDENTS.—This morning the first accidents to workmen on the court house occurred. O Callison had the tips of two fingers mashed by getting them caught in the wheels of the mortar and brick elevator. Geo Hodges who lends the horse that acts as motive power for the elevator had his left foot mashed by the horse stepping on it.

TO BE MARRIED.—Invitations have been issued by Mr and Mrs J B Harris to the marriage of their niece, Miss Lella A E Hayes to Robert A Copple, Wednesday evening, August 21, at 8:30 o'clock at their residence on West Fifth street, Eugene, Oregon.

TAX MONEY.—Sheriff Withers turned over to Treasurer Patterson today \$655.11, of 1897 taxes. The work of serving delinquent notices will soon begin after which the sale will be inaugurated.

A SURE THING.—S A Mullis advertised a cow for sale Saturday evening, and sold her before noon today and could have sold four more if he had possessed them. This shows it pays to advertise. Try it.

U OF O LIBRARY.—The U of O library will be open during the remainder of vacation on Tuesday of each week from 2 to 4 p m.

BOHN.—August 11, 1898, to Mr and Mrs Oscar Lyons of Walton, a 10 pound son.

Healthfulness
of the bath depends largely on cleanliness of the bath tub. Court health and skin sickness by using

Julie Goldsmith's

LONG DISTANCE.—J W Salord, manager of the Oregon Telephone and Telegraph Co, now has an advance camp located at Hansen's Tile factory, the other side of Oakland. The wire is strung as far south as Creswell, and the line will be completed into Roseburg by October 1st.

ALLOWED.—We are informed that Geo Miller of Creswell is one of the men in Lane county who have had a claim for Indian depredations allowed. A lot of stock owned by him was driven off by the Indians during their depredations in an early day. His claim was for \$13,000 and he was allowed \$8,000. Of this amount about \$3,000 will be used up in fees, etc, leaving about \$5,000 for Mr Miller.

SUIT FOR DIVORCE.—Lulu Pearl Bauer has sued Anton J Baler, in the Lane county circuit court for absolute divorce. The couple were married in Portland, March 4, 1897. The complaint charges desertion and wishes to assume her maiden name, Pearl.
