

# Eat in Haste

When your abused stomach can no longer cheerfully and speedily perform its duties, a few doses of Sarsaparilla are like fresh water to a parched plant. This medicine tones the stomach, restores digestive strength, cures a flatulent and with a little care in the patient is soon again in perfect health. Try it and you'll believe it.

# Wills' Sarsaparilla

Wills' Sarsaparilla is America's Greatest Medicine.

Wills' Sarsaparilla cures constipation. 25 cents.

# New French Microphone

A new microphone is being exhibited here the French Academy of Sciences, detects at a great distance the approach of a ship, whether an armored vessel or a torpedo boat, and gives its warning with great clearness. It is subjected to tests at Cherbouurg, one year ago Commander Banaro used an instrument which he called hydrophone and by which he was able to detect at a distance of a mile or a mile and a half vibrations produced by the screw of a torpedo boat, or the more regular beat of the screw of a large battleship. It consisted of a water-tight box, the vibratory plate being inside to prevent the pressure of the water from acting upon it too directly. The wires from the transmitter were carried to a float to make sure the transmitter would be continually immersed; on the float the wires were carried to receiver on a ship or on the shore. With two or three miles of wire becomes possible to receive warning of the approach of a vessel from four or five miles distant.

# Steel Sleepers in Switzerland

The St. Gothard Railway Company, Switzerland and Italy report very satisfactory results from the use of steel sleepers on their lines. In 1882, when the road was opened, it was laid with wood sleepers, but as these have to be replaced, it has been done with steel instead, and at the present time 70 per cent of the road is laid on steel ties. The sleepers weigh 163 lbs each, are 8.55 feet long. The ties, when new, with attachments, is 95, which, allowing for the value of old material and the cost of laying, reduced to \$1.62 per sleeper, which is a saving of 7 per cent over wood sleepers. The line is a heavy one, and trains are hauled at express speed. The engines weigh 100 tons each. The steel ties in the end is less than that of wood. In tunnels, wooden ties are preferred, as they are not liable to rot, but in other places the deterioration due to rust is absolutely insignificant.

# Cool-Looking Bits of Green

Plants and other delicate greens are used here and there on brackets and shelves to give a daintiness and coolness to any room more effective than the most elaborate of summer furnishings. These ferns and small pots of plants may be kept attractive all year by planting them in a tin purchased to fit a glass bowl. The tin should be well perforated before the plants are put into it, and the ferns should be kept moist to keep them in a thrifty condition, and fast drainage will be necessary to get rid of the surplus moisture and keep soil from souring. With an occasional watering the plants will be kept healthy and bright, and when placed in the glass bowl the tin will sparkle like silver. The glistening bowl and ferns are not only suitable for a dining table, where they are usual, but for ornamenting any room.

# Wills' Cure for Consumption

Wills' Cure for Consumption has been a popular medicine with us since 1853. J. R. Wills, 2509 42nd Ave., Chicago, Illinois.

# The production of what is known as worm gut for fishing lines is a new industry that has followed the line of silk culture in the vicinity of Murcia, Spain.

# TO MRS. PINKHAM

Dear Mrs. Pinkham, I think it is my duty to write to you and tell you what Lydia E. Pinkham's Vegetable Compound has done for me. I feel like another woman. I had such dreadful headaches through my temples and on top of my head, that I nearly went crazy; was also troubled with chills, was very weak; my left side from my shoulders to my waist pained terribly. I could not sleep for a day. Plasters would help for a while, but as soon as taken off, the pain would be just as bad as ever. Doctors prescribed medicine, but it gave me no relief.

Now I feel so well and strong, and no more headaches, and no pain in side, and it is all owing to your Compound. I cannot praise it enough. It is a wonderful medicine. Recommend it to every woman I know.

# DEWEY IS THEIR KING

Insurgents Have Great Confidence in the Admiral.

# MERRITT AND ANDERSON FEARED

Unwillingness to Disarm Caused by Fear of the Withdrawal of American Protection.

London, Aug. 25.—The Philippine junta in London received a dispatch from Manila yesterday announcing that matters there are rapidly quieting down, and that the friction between Aguinaldo and the Americans is disappearing.

According to the junta's advice, the insurgents for a time regarded General Merritt and General Anderson as Martinetts, and feared they would adopt harsh methods, like the Spaniards, toward the Filipinos; but the insurgents from the first have had the greatest confidence in Admiral Dewey, whom they regard as a sort of father and the most important American at Manila. The junta is satisfied that all the friction will soon disappear, and that there will be no trouble from the insurgents if the Americans decide to retain the Philippines.

# KILLED AND WOUNDED.

General Merritt's Report on the Victims of the Last Battle.

Washington, Aug. 25.—Corbin this afternoon received the following from Merritt, at Manila:

The list of killed, wounded and deaths in this command since August 1 follows:

August 2, killed, William H. Leary, private, First Nebraska; wounded, John F. Duncan, Lawrence P. Conn, George Hansen, William W. Wickham, Joseph S. Orvatt, Charles F. Peler and John P. McCauley, all privates from the First Nebraska.

August 5, killed, Robert McCann and Samuel F. Howell, privates, Fourteenth Infantry; Clements Lauer, Twenty-third Infantry; wounded, Claude F. Head, George Engelhorn, First Nebraska; Clinton Lambert, Lucius Snow, Daniel J. O'Connor, all of the Fourteenth Infantry; Henry W. Ballard, Twenty-third Infantry; William W. Sterling, First Colorado.

August 13, wounded, Fenton F. Newman, Joseph Smith, R. L. Turk, Twenty-third Infantry; Thomas Hayden, Astor battery; Mervin Carleton, Sergeant Henry E. Williams, Corporal Frank Craft, Charles Little, Thirteenth Minnesota; Robert F. McCann, C. A. Morgan, R. B. Parker, Peter Perge, Harry H. Ober, Twenty-third Infantry; Chas. Van Hall, Robert H. Silliman, B. Baker, Astor battery; Frank Smith, E. Brady, First Colorado; A. T. Hammonson, First California; William A. Jones, Lewis H. Wallace, Guyman Thorson, C. T. Rice, H. E. Barrowman, George T. Went, Louis Ulmore, George Kahl, William S. Moore, Ernest L. Rider, Henry Fritzlaff, Milton A. Trenham, Albert S. Sanson, Charles J. Aleres, Charles Wood, Thirteenth Minnesota; Robert McDonald, First Colorado, died as a result of two wounds received in action.

# KILLED BY THE FRENCH.

Large Numbers of Rioters Shot Down in the Suburbs of Shanghai.

San Francisco, Aug. 25.—Serious rioting has occurred over French concessions in Shanghai's suburbs, attended by serious loss of life. According to advices brought by the steamer Belgic, the trouble grew out of the failure of the negotiations by the French municipality to secure Ning Po joshoua and an unused cemetery on the French concession for a proposed school, hospital and a battery. After lengthy parleying with fruitless results, the French seized the cemetery on July 17, and pulled down the walls.

The force employed in the work, included landing parties from the French gunboat Eclair and the steamer Oceanic, together with police and French volunteers, numbering altogether 200. The Ning Po population was greatly wrought up, and after all the shops had been shut up an attack was made on the police station and the south end of the French quarter.

The Frenchmen opened the fire on the mob, killing 15 and wounding 29 others, who were taken to the hospital, one of them in a dying condition. The situation is serious. All the Ning Po servants have been ordered to leave foreign employ. Following the attack on the police station, 150 men were landed from the Italian man-of-war Marc Polo. The Shanghai volunteer corps was also called out as a demonstration, and ordered to hold themselves in readiness for another outbreak. The Siky police, fully armed, are holding the bridges between the English and French concessions.

# Martinas a Winner.

New York, Aug. 25.—Fifteen thousand people saw Martinus at the long odds of 40 to 1, win the great futurity stakes at Sheepshead bay today. High Degree coming in second, while the public's choice was nowhere. The day was excessively hot. The delay at the post was the longest on record, 1 hour and 32 minutes.

# Supplies for Fighters.

Chicago, Aug. 25.—The Record says Great Britain, Russia and Japan have entered the markets of the United States for the purpose of purchasing provisions such as canned and salted meats, for use in their armies and navies. For several weeks a report has been in circulation, among the great packing-houses at the stockyards to this effect, and now it is confirmed.

The number of Chinese in San Francisco is about 20,000.

# Miss Gould's Generosity.

New York, Aug. 25.—At a meeting of the Woman's National War Relief Association, at the Windsor hotel, today, it was announced that Miss Helen Gould had given \$25,000 to purchase food and delicacies for the ill and wounded soldiers in Camp Wikoff.

# Washington, Aug. 25.—Hay, in a cablegram to the state department this afternoon says the British government has directed the governor of Hong Kong to accept Dewey's application for permission to dock and clean ships at Hong Kong.

# KILLED AND INJURED.

Electric Car Struck by Lightning at Pittsburgh.

Pittsburg, Pa., Aug. 26.—During a heavy thunder storm today lightning struck a summer car on the Second avenue traction line as it was passing Greenwood avenue, and as a result one passenger is dead, another will probably die, and four others are badly hurt.

Dead—R. S. Peare, aged 29, a well-known business man of Hazelwood.

Injured—Mrs. Sarah Munball, skull fractured, arm broken and hurt internally—will probably die; Eugene Munball, her son, badly cut about head; David Thomas, head and arm cut and bruised; unknown foreigner, foot crushed; James A. Butler, shocked.

The car, which contained about 12 passengers, was traveling at about a 20-mile rate when the bolt struck it, exploding the motor and setting fire to the coach. The passengers were panic-stricken, and made frantic efforts to escape through the tightly-drawn canvas sides.

Mr. Peare, in jumping, alighted on his head, crushing his skull in a horrible manner. He lived but a short time. All the injured received their injuries in attempting to jump before the car came to a standstill.

# ORDERS ISSUED.

Mustering Out Has Finally Been Decided On.

Washington, Aug. 26.—Orders have been issued for the mustering out of the following regiments: First Vermont, First Maine, Fifty-second Iowa, Sixth Pennsylvania, Fifth Indiana, Second New York, Second Nebraska and One Hundred and Fifty-seventh Indiana, all volunteer infantry.

One battery Ohio light artillery, First Illinois volunteer cavalry, batteries A and B, of the Georgia artillery, Twenty-eighth Indiana light battery, and the New York and Pennsylvania cavalry troops now in Porto Rico. Other orders to muster out troops will be announced as soon as a definite decision is reached.

The Porto Rican cavalry to be mustered out comprises troops A and C, New York; Philadelphia city troop, Sheridan troops and Governor's troop, of Pennsylvania.

# CAPTURED FROM SPANISH.

Twenty-Five Thousand Arms and Millions of Rounds of Ammunition.

Washington, Aug. 26.—General Flager, chief of the ordnance bureau has received further reports from the officers in charge of the captured Spanish arms at Santiago. They show that the number taken will be about 25,000 with "several million" rounds of ammunition, the exact number not stated. The reports say that these arms are Mausers and Remingtons, and for the most part are in bad condition, rusty and badly kept. The arms will be sent to New York and Springfield, to be cleaned up and examined critically. Ordnance officers say that if they can be put in proper condition they will be made use of by the army.

# BLUNDERS OF ALGER.

London Times Offers Some Suggestions Regarding American Politics.

London, Aug. 26.—Discussing the rumor that Secretary of War Alger will take refuge in the senate to escape responsibility for his blunders in the war office and that Senator McMillan will become ambassador in London, the Times expresses the opinion that if America becomes a colonizing power, she will be compelled to abandon this fluctuating style of administration in favor of trained civil and military administrators, not likely to removal with each presidential change, and not too dependent upon politics for their selection and promotion. It will be equally important to cultivate permanence in diplomatic representation abroad.

# Destructive Storm.

Utica, N. Y., Aug. 26.—As the result of a furious storm which swept over the region north of Utica this afternoon, over \$300,000 worth of damage was done to property. In Deerfield, \$10,000 damage was done to farm property, and every bridge on the high-ways north, east and west of the place were carried away by the swollen streams. A washout in the canal bank occurred near Rome as a result of the storm. Several sections of railway roadbed were washed out, and several railroad bridges carried away.

# Mines Will Be Removed.

Washington, Aug. 26.—Negotiations have been opened through diplomatic channels by which it is expected that the Spanish government will co-operate with the authorities here in the removal of the mines and torpedoes in Havana harbor before the military commission assembled there, the naval authorities believing this to be a proper precaution before any of our naval vessels enter the harbor with the commissioners.

# A Paris Sensation.

London, Aug. 26.—The Paris correspondent of the Daily Chronicle says: A sensation has been created in the American colony by a beautiful and wealthy California lady, always described as Vicomtesse de Henriot, jumping from a second-floor window in the Rue Blanche to the pavement, sustaining terrible injuries. There is no hope of her recovery. The operation of trepanning will be performed to-night.

# Promotion for Philippine Fighters.

Washington, Aug. 26.—The president has called upon General Merritt, commanding the military forces at Manila, for his recommendations regarding the operations that resulted in the surrender of the capital of the Philippines. It is the president's purpose to promote the officers who rendered conspicuously meritorious services in the land fighting at Manila, just as was done in the case of the gallant officers at Santiago.

# Some Extraordinary Demands.

New York, Aug. 26.—A Herald special from Santiago says the entire clergy, from Archbishop Crespo down, has sent to Customs Collector Donaldson a regular monthly "imprest" for payment of their salaries, as was the custom under the Spanish regime. The archbishop's salary is \$12,000. Donaldson was also presented with claims from the professors of schools, police and other bodies. Instructions have been asked from Washington.

Gloves made of frogskin are the latest novelty.

# Chronic Rheumatism.

Who the Carlists Are.

A number of readers are curious to know what is meant by the frequent reference to the fear of a "Carlist uprising" in Spain. At the death of King Ferdinand of Spain, in 1833, his 3-year-old daughter, Isabella II., succeeded to the throne, though Carlos, Ferdinand's brother, claimed to be entitled to the honor under the same law, which provided that no female should go to the throne as long as any male descendant of the King was living. This law, however, had been revoked by Ferdinand, who had no children at the time, but six months after his death a daughter was born, and she became queen to the exclusion of Carlos. The latter's descendants, who are called Carlists, have since persistently insisted that, by right of succession, the throne belongs to them, and for over 50 years Spain has been subject to Carlist uprisings, which have simply meant a number of unsuccessful wars, the destruction of property, and general public unrest. The Carlists have found their strength in what are called the Basque provinces, dominated mostly by the clergy, who believe in the divine right of kings and of kingly succession. The inhabitants of the Basque region are largely shepherds and farmers. They are good fighters, and have been the main strength of the Carlist forces. A strong sentiment in favor of a republic exists in the cities, where the people have been led to independent views by education, reading and travel. It is unnecessary to say that between what are called the Republicans and the Carlists there is a strong antipathy, for their aims are radically different. In 1873 Spain was a republic, and the people owe to that brief period of popular government many of the liberties which they now enjoy.—Leslie's Weekly.

# HAS NOT SLEPT FOR FIVE YEARS.

It is reported that a man in Indiana has not had an hour's sleep for five years. He constantly walks about, unable to rest, and is now little more than a skeleton. There are thousands of men and women who are unable to sleep more than an hour or two a night, because of nervousness, weakness, dyspepsia, headache and constipation. A certain remedy for these disorders is Hostetter's Stomach Bitters. All druggists sell it.

# Spread of Pintch Gas.

The Pintch gas is now used for lighting 83,582 cars in different parts of the world. Germany takes the lead with 31,335 cars, and England comes next with 16,554 cars. The United States is third with 10,809 cars, and India has 6,355 cars lighted by this gas. It has been applied to 3,184 locomotives, 3,121 of which are in Germany. Not a single locomotive in the United States has been provided with this gas, which is rather a surprising thing, considering the fine light it gives.

# It is against the rules to carry matches on board a modern man-of-war.

From the time when the ship leaves harbor for a cruise she is never without a light of some kind burning. Try Schilling's Best tea and baking powder.

# Municipal Opera.

The London County Council has received a petition bearing many prominent names in favor of a municipal opera house, supported by local taxation. The petitioners assert that it will be possible for the council by an annual financial grant of moderate amount to establish a permanent opera house, where music of the best can be brought within the reach of the people, where encouragement can be offered to young artists to pursue the highest paths of their profession, and where the development of native operatic art can be promoted. They cite the experience of important Continental towns, where some such scheme has proved successful.

# The largest mass of pure rock salt in the world lies under the province of Gallicia, Hungary.

It is known to be 500 miles long, 20 broad and 250 feet in thickness.

# To Renew the Lobster Supply.

The United States government is making great efforts by scientific propagation to restock the coast waters of Maine with lobsters, says a Bangor dispatch in the New York Sun. The United States fish commissioners' schooner Grampus, which has been at work along the coast for several months, has collected 1,750 seed lobsters from which 18,000,000 eggs have been obtained and hatched out at Gloucester, Mass. Of these fry about 5,000,000 have been released in Casco bay and others are to be distributed at various places from Portland eastward.

The fry are very small, but through the thin and transparent shell can be seen the perfectly formed lobster with the eyes especially prominent. Constant changes of water are necessary to keep them alive. It is likely that a lobster hatchery will soon be established on the Maine coast, and before many years those shellfish will be as plentiful and cheap as ever they were.

# DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; it is caused out of you are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one HUNDRED DOLLARS for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Hall's Family Pills are the best.

There are 110 mountains in Colorado whose peaks are over 12,000 feet above ocean level.

The attention of the public is called to the professional work of Dr. T. H. White, No. 271 1/2 Morrison street, Portland, Or. His electrical appliances are the most modern, and his crown and bridge work is of such artistic form and finish, that his patients are delighted not only with the looks, but with the comfort they receive from the use of such artificial work. All operations are painless under his methods. See that your teeth are properly cared for and that by a skillful dentist. There is no need to suffer the discomforts of broken-down and stained teeth when they can be made useful and pleasant to look upon without pain.

# CURE YOURSELF!

Use this for unnatural discharges, inflammations, irritations or obstructions of the urinary passages. Painful, and not attended with general debility. Sold by Druggists, or sent in plain wrapper, with full directions, for \$1.00, or 50c. Circular sent on request.
