TU CORRESPONDENTS.

The business department of the WEEKLY GUARD is caused considerable trouble by corre-spondents addressing the pro-prietors personally. Address all etters referring to the newspa-per or business connected there with to THE GUARD, Eugene, Oregon.

THE SPECIAL SESSION.

Gov Lord sives as a reason for calling a special session of the legislature the necessity of attending to business left without legislation by the attempted legislature of 1896.

But how comes it hat Gov Lord has rested easily in the gubernatorial chair since the election last June, a period of targe months before he found out that the public service is threatened with disaster unless legislation is attempted? It is but a period of four months until the legislature will meet in regular session with clenty of the to attend to public needs.

And what legislation could be accomplish in the short period of twenty days allotted to a special session? Apart from the election of a senator there would be danger in of time. Gov Lord says the conshort. What good then can he expect to be accomplished in twenty are to be compelled to pay for a legislative session held for the sale purpose of electing a United States senator. We would like to see the state with another representative at the national capitol but must contend that the price of the articlewill be too high. With a short delay the state could get a senator a a nominal cost.

RACE HONOR.

Lieutenant Colonal Dick, of Ohio is quoted as having said: "The principal difference between an American Indian and a Cuban insurgent is that the Indian knows what honor is."

City are being operated day and night, and are taxed to their utmost capacity to supply the demand for their paper, the wages in that institution were reduced last week from 20 to 30 per cent. The ma-jority of the stock of the millie owned by the Examiner and is what announces that we are in the midst

of prosperity.

Governor-elect Geer is quite noncommittal on the question of an extra session. When approached about the matter he settles his interviewers with the statement that he has been busy putting in his fail wheat and has paid little attention to the matter. Somewhat like the busy man that saws wood and says nothing. Our coming excoutive appreciates the fact that silence may be golden for him at the present time. A senatorial toga is hanging on a peg in the state house f.r some lucky man. It could easily be made to fit Mr Geer.

RESOLVED, by Eugene Camp No 115, Just Rubber at that

There was a glaring illustration of this fact in the Modoc war. However, honor is purely a matter of individualism and not of race. Some races have a higher percent age of honorable men than others. Conditions should also be considered, in making estimates of people's honor. The percentage of honor is even higher among a race enjoying perfect freedom than one which has born the yoke of slavery or oppression for years, for the hand of tyranny, pressing for suc- national reputation as a platform cessive generations upon a class of speaker and her lecture will be one of people, has a tendency to crush the merit. spirit of those people and with the crushing of that spirit, manly attributes, like honor, gradually disappear, and the abject serf becomes, in the majority of cases, a mere talking animal, which it takes successive generations of education and freedom to evolute into a man per box. to be trusted.
