> To Encourage Manila Hemp Trade. Washington, Sept. 9.—The imposi-tion of import and export duties on

hemp brought into and exported from Manila and from and to other ports in the Philippines still under Spanish control has been found to work a great hardship to dealers and almost to ruin business. In view of this fact, the treasury officials have recommended to the war department, which exercises control over the collection of duties in the Philippines, that on exports of hemp the import duties be refunded, thus making but one duty charge.

The suggestion also has been made to war department officials that the interselves with shells, keep the wounds diction which probibited the clearance sack; silver skins, \$1 25@1 40. of vessels from Manila to other ports in the Philippines be removed. School Superintendents to Assist in Securing Lafayette Monument.

Chicago, Sept. 9.—By direction of Commissioner-General Peck, Robert J. Thompson, secretary of the Lafayette monument commission, has appointed the superintendents of education of all the states and territories upon an honorary advisory committee of the monument association. His letter of appointment in part is as follows:

"It is proposed that in raising the Lafayette monument fund, that the schools of America be utilized as the agency for reaching the people and procuring the contributions, and to this end I preently request that you ask, as early as convenient, that the teachers and officers of your schools, colleges and universities (public and parochial), anas, shipping, \$2.25@2.75 per bunch; recognize October 19, the date of the fall of Yorktown, to which Lafayette contributed so largely, as Lafayette day, and that they devote a part of the day mentioned to a relation of the historic events pertaining to Lafayette and the early days of the republic."

In Boston Harbor. Boston, Sept. 5 .- Amid the greatest enthusiasm from thousands, both affoat and ashore, a fleet of nine warships, fresh from hard fighting in Cuba, led by the stately Massachusetts, sailed up the harbor this afternoon and dropped anchor off the wharves, salutes only being fired in honor of Commodore Howison, of the navy-yard, and as Governor Wolcott left for the shore. Tonight the officers came ashore, and with Governor Wolcott and Mayor Quincy held a well attended reception in Fancuil hall, while the fleet, with the assist-ance of a lively thunder storm, lighted up the harbor with their searchlights.

The Great Hegelmans Coming to the Portland, Or., Sept. 12 .- (To the

Editor.)-This is a most beautiful and attractive city, and its live people are up and doing in the march of progress. The Hegelmans are coming to the Oregon Industrial Exposition, and they are an attraction that will be long re membered, for they are the greatest aerial gymnasts in the world. They command princely salaries, and people who have seen them in San Francisco. where they are now playing, say that they alone are worth ten times the price formances this season to three places in the United States-San Francisco Portland and New York, then they re turn to Europe. The exposition management was bound to have star attractions, and certainly secured a big one in the Hegelmans.

Other attractions are being arranged for, and people who come to the exposition this year will have plenty of amusement in connection with instruction and sight-seeing and promenading through the big building.

The full military band which has been engaged to give concerts day and evening during the exposition is now giving daily concerts at a big fair in San Francisco, and is delighting thousands of people. Such music will be appreciated in the Northwest, and those who attend the exposition will be given every opportunity to enjoy it.

Advices from all parts of the Northwest indicate that many people are coming to the exposition who have not been in Portland for years. They will find that many improvements have been made here and that the city has grown. And they can see all these improvements at a cost of almost nothing in time and money, for Portland has one of the best street-car systems to get well lighted, gracefully presents morning. IMPROVEMENTS IN PLYING MA-

Inventors are plenty who can make a ma-chine that will rise and float in air, but the one improvement, which none has succeeded in maxing is an apparatus that will guide the machine through the many treacherous cur-rents of air. In this respect humanity is fortunate in having Hostetter's Stomach Bit-ters, which acts as a safe guide by curing treacherous stomach, liver and blood diseases, giving a good appetite, a strong constitution and nerves like steel.

It has been proved, as the result of work at Quebec, the prospects are experiments, that the circulation of bright for a satisfactory arrangement of the blood is affected by music.
