The commission to investigate the conduct of the war department held a secret meeting Monday. Nothing can be learned as to what transpired. The commission decided to hold two sessions daily, one from 10 A. M. to 12:30 P. M., and the other from 2 to 4 P. M.

The first word that has come to Washington from the American members of the peace commission since their departure was received at the navy department Monday, being a cablegram requesting that Captain Bradford, chief of the equipment bureau, be sent at once to Paris to assist the commission.

A new and highly important invention has been tested at the German naval maneuvers at Berlin. It was in the shape of a Greek Phœnician fire, invented by a Berlin engineer. It ignites on contact with the air or water, and cannot be quenched by either water or earth. It burns with a brilliant flame, exceeding by searchlights, and it can be sunk under water or under ground, and when brought to the surface, instantly bursts into flame at any desired point. It was tested during the night evolutions off the island of Heligoland, and off Kiel, and proved most efficient in detecting the presence of the enemy.

## PHILIPPINES ARE OURS

### Not Only Luzon, But the Entire Group.

#### SO SAYS SENATOR MARK HANNA

And He Undoubtedly Expresses the Views of the President—Spain's Sovereignty Must End.

Cleveland, Oct. 3.—The Leader has from his Washington correspondent the following interview with Senator Hanna concerning the Philippine question, which is believed to represent the views of President McKinley:

"I do not know what the instructions given to our peace commissioners are," said Mr. Hanna, "but so far as concerns the negotiations which will be instituted in Paris tomorrow, I can see no other result than that Spain will have to relinquish her sovereignty over not only Luzon island, but the entire Philippine archipelago. Spain has no reason to expect to be able to retain any portion of the group. She went into the war and lost, and now ought to be prepared to suffer the consequences which such a defeat implies. I regard the Philippines as lost to Spain, and, being a foregone conclusion, in my opinion the problem which next confronts us relates to the form of government which we will give the islands."

"When the Philippine question first presented itself, there was a strong sentiment among conservative, far-seeing and thinking men in this country, which favored the retention by the United States of merely a naval base and coaling station in the islands—this base presumably being Manila and the bay contiguous thereto. Since then, however, this sentiment apparently has undergone a very marked change, and it now appears that, for the most part, these same men who at first believed we should occupy Manila alone are advocating the termination of Spanish rule in the whole group."

"Aside from the fact that the general sentiment of the country seems to be against returning any of the islands to Spain, the United States is under obligation to the insurgents to establish a stable and enlightened form of government throughout the entire archipelago. When the war broke out, the Philippine insurgents became, in a certain sense, the allies of the Americans, and it is, therefore, our moral duty to see to it that they are assured safe and civilized rule; and until the United States determines in just what manner the Philippines ultimately shall be governed, we necessarily will have to consider the Filipinos our wards."

"During this transition period the United States will be called upon to exercise a primitive, or rather arbitrary, form of control over the islands, and continue it until congress finally evolves a system of government. In other words, it seems to me we will have to maintain a temporary protectorate over the archipelago, and this will be accomplished by means of the army and navy now in the Philippine waters."

"What will be the ultimate fate of the islands is, of course, a problem of the future. Whether the Philippines will become an independent nation or a colony of the United States, or whether a long-time American protectorate will be established, will be a subject for congress to decide."

"It is well understood that Spain must abide by the verdict of our peace commissioners, whatever that may prove to be, for she is in no condition to renew the conflict which has resulted so disastrously to her. She has no reason to expect that our commissioners will agree to any proposition which contemplates the continuation of Spanish control over any part or all of the group. I feel confident that we will have no further trouble in an armed way with Spain. The only obstacle with which we may have to contend is the opposition of the insurgents to our plans."

### A REIGN OF TERROR.

Pana Looks for Another Bloody Battle Between Strikers and Deputies.

Pana, Ill., Oct. 3.—Last night was a terrorizing one for the people of Pana. Two-thirds of the residences were unoccupied. Each house occupied contained groups of families. In some cases, all the residents of an entire block spent the dark hours in one home, armed, terrorized and awaiting attacks expected to be made on their homes by the negroes imported from Alabama.

All night the striking union miners, reinforced by brother miners from other towns, armed with shotguns and rifles, paraded the streets or lay in ambush on housetops and in alleys awaiting the coming of blacks from the Springfield and Penwell stockades, who had announced their intention to march into the city and drive out the whites. But the deputy sheriffs were successful in keeping the negroes within the stockades.

Many shots were fired in the vicinity of the mines throughout the night, but with what result could not be ascertained.

Many visiting miners, heavily armed, arrived today, and later, with 200 local miners, left the city for Shelby county, three miles east, to intercept a train said to be conveying 60 negro miners to Pana to take union men's places.

Sheriff Coburn, in writing for the troops last evening, reported one black killed in Wednesday's riot, and several wounded.

Mayor Penwell, son of Operator Penwell, spent last night in the stockade. He said he was afraid of being mobbed by the miners, and his father and mother have left the city.

Sixty-eight members of Battery B, of Galesburg, arrived here this afternoon, with Springfield rifles, side arms and Gatling guns. A flat car behind the engine held both Gatling guns, fully manned, ready to fire in case of attack. The sheriff displayed his star, but was not allowed to board the train.

Two companies of the Sons of Veterans, from Aurora and Elgin, in command of Colonel Hamilton, arrived this evening. They were equipped with guns at Springfield, and mustered in as National guards. The militia is in full charge of the city, and is patrolling the streets.

### WILL COLLECT DUTIES.

Clebs Nam Will Take Possession of Havana Customs-House.

Washington, Oct. 3.—The cabinet meeting today was devoted largely to matters of detail in connection with the formation of the army which will be sent to Cuba. Reports were read to the effect that by October 15 danger from yellow fever will have passed, and it is understood the movement of troops will be begun about that time.

The conduct of the Spanish customs officers at Havana is very unsatisfactory to the president, and it is said to be decided to take possession of the customs-house there at an early date, and administer affairs under the regulations prescribed by this government.

There was also some consideration of the subject of mustering out a comparatively large number of general officers of the volunteer army, to meet the duties of both houses of congress, for which he has convened them by virtue of such authority, and in compliance with this requirement, I shall endeavor briefly to state the reasons which lead me to summon your body in special session.

We are at a critical period in the history of our country. The next few years will mark an advance in our national movement for our national destiny. Not since the war of the rebellion has the state-manship of our country been confronted with questions of such transcendent importance as those which have grown out of our victorious contest with Spain. They are questions involving considerations of such various sort and far-reaching effect that they will require for their solution the best brains and wisest heads of our country. Cuba and Porto Rico in the west, and the Philippine islands in the east, have been wrested from their native owners, and are now in the possession of the United States, to be dealt with on those enlightened principles of justice and equity which animate the conduct of free government. It is our duty, as citizens, by the law of political affinity, and by annexation has become a permanent part of our territory. All these islands lie within the tropical zone, and the climate is mild and the soil fertile, and the soil is rich, and the struggle for existence free from that constant labor and effort exacted by the rigor of the temperate zones. Their people are of an able race, whose habits and customs, modes of thought and organization, form of government and institutions, are different from our own, and whose condition of poverty, ignorance and backwardness is a source of national shame and a reproach to our civilization. A Military Telegraph Line.

Santiago de Cuba, Oct. 3.—Captain Brady, of the United States signal corps, has been ordered to begin the construction of an overland telegraph line from Guantanamo, via Santiago de Cuba, to Manzanillo. The line is to be used principally for the transmission of government dispatches, although commercial messages will be accepted. The present cost of transmission of messages by telegraph from Guantanamo to Santiago is 20 cents a word up to 20 words, and 12 cents for each additional word.

Schools were opened today. The attendance will be compulsory. English will be taught. Thirty teachers at a salary of \$60 a month each, and the superintendent, at \$125 a month, have been engaged.

### ACCIDENT IN A MINE.

Thirty Men Miraculously Escape Death in Idaho.

Wallace, Idaho, Oct. 3.—Thirty men working the night shift in No. 4 tunnel of the Morning mine had an almost miraculous escape from death early this morning, when 350 pounds of dynamite in a magazine exploded. The first report to reach here was that eight dead and wounded had been recovered, and that smoke was still too thick to permit the rescuers to get farther back, where it was feared the imprisoned men were all dead, either from the direct results of the explosion or from the gases generated by it. Later it was learned that not a man had been killed or seriously injured, the only casualty being the killing of a horse used to haul out the ore. Most of the men walked out, although some of them were so stunned by the explosion or overcome by smoke and gas that they had to be helped. A number of them were stunned by the concussion, and one, Captain Woods, fell onto his candle, burning his face severely before he recovered consciousness sufficiently to get from over the flame. It is not known what caused the explosion, no one being near the magazine at the time. That no one was injured was purely a piece of luck.

### BRUTAL CRIME IN TEXAS.

Woman, Aided by Her Paramour, Murders Her Old Husband.

Fort Worth, Tex., Oct. 3.—Word has been received here of an atrocious murder recently committed on Porter's creek, near El Campo, Tex. The murdered man was Otto Harnes, an old German farmer, who, it is claimed, was murdered by his wife and Julius Harnes, his nephew.

The information comes that Julius became infatuated with Mrs. Harnes and they decided to put the old farmer out of the way. It is said Julius hit him on the head with an ax one night when he was sleeping, and, assisted by Mrs. Harnes, dragged the body to a cornfield, piled brush over it, and started a fire.

The story further says that Julius and Mrs. Harnes returned the next morning to find the fire had gone out and Harnes was alive, but unconscious, and that they then piled cornstalks over him and burned him to a crisp, after which they buried his remains. Both have since been arrested.

### Terrific Storm in Japan.

San Francisco, Oct. 3.—The steamer Gaelic, from China and Japan, brings news of a terrific storm, which swept over Japan September 6, doing much damage to shipping. Heavy rains fell, and the rivers became raging torrents. A summary of the loss of life and property follows: Deaths, 250; houses swept away, 164; houses overturned, 1,195; partially wrecked, 1,460; houses inundated, 15,577; river banks broken, 78.

The heaviest loss of life occurred in the prefecture of Kofu. This section also showed other losses greater in comparison with any other, but Aichi prefecture suffered greater loss of property.

### Coming of the Ogdan.

Washington, Oct. 3.—The following was received at the war department: "Ponce, Oct. 3.—Ogdan sailed today with 191 convalescents, 104 discharged soldiers and teamsters."

### Shot and Killed by a Friend.

Baker City, Or., Oct. 3.—Wednesday night Jack Weaver shot and killed William McKinnon, aged 21, at Burns. McKinnon and his companion had attempted to play a joke on Weaver by leading him out of a saloon as though he needed to be escorted home. Just as they reached the door, Weaver, without a moment's warning, drew a revolver and shot McKinnon, who was a brother of Sheriff McKinnon, of Harney county. Sheriff McKinnon, with a posse, is in close pursuit of Weaver.

### Dreyfus Taken to Cayenne.

Paris, Oct. 3.—It is rumored that Captain Dreyfus has already been transferred from the Isle de Diabla to Cayenne, where he awaits a steamer to bring him to a French or Algerian port.

### Dust on the North.

San Francisco, Sept. 30.—The Alaska Commercial Company's steamer Bertha arrived today from St. Michaels, with 50 passengers. The total wealth on the vessel was over \$500,000, about \$150,000 of which belongs to the passengers.

## THE STATE TREASURY

### Full Text of the Document Delivered Before the Joint Session of the Oregon Legislature.

SALEM, Or., Sept. 27.—At 2:30 today, in the hall of representatives, in the presence of the members of both houses of the legislature, judges of the supreme court, and other state officers, Governor Lord delivered his message to the special session. Its delivery occupied half an hour, and it was closely listened to. The full text of the document follows:

Gentlemen of the Legislative Assembly: The constitution authorizes the governor, on extraordinary occasions, to convene the legislative assembly by proclamation, and, when assembled, devolves upon him the duty of presenting to both houses the purposes for which he has convened them by virtue of such authority, and in compliance with this requirement, I shall endeavor briefly to state the reasons which lead me to summon your body in special session.
