PEACE JUBILEE IN CHICAGO.

Chicago held Peace Jubilee meetings Tuesday. Eight thousand people assembled in the Auditorium building to hear President McKinley who said in full:

"I have been deeply moved by this demonstration. I have been deeply touched by the words of patriotism that have been uttered by distinguished men so eloquently in your presence. It is gratifying to all of us to know this has never ceased to be a war of humanity.

"My countrymen, the currents of destiny flow through the hearts of the people. Who will check them. Who will divert them? Who will stop them? And the movements of men, planned and designed by the master of men, will never be interrupted by the American people."

THE SANTIAGO CAMPAIGN.

Richard Harding Davis has an article in Scribner's magazine on the Santiago campaign, from which article the following striking picture is taken:

"Men gasped on their backs like fishes on the bottom of a boat, their heads burning inside and out, their limbs too heavy to move. They had been rushed here and there, wet with sweat and wet with fording the streams, under a sun that would have made moving a feat of effort, and they lay prostrate gasping at the hot air, with faces aflame and tongues sticking out and eyes rolling.

MORE UNITED STATES.

Our flag was hoisted over Porto Rico soil for the first time, as an emblem of sovereignty, Monday. Porto Rico had a population of 754,313 in 1880 of which 429,473 were white and 324,840 colored.

The island forms an irregular parallelogram 108 miles long and

The incubity of some men is always inviting the embrace of death. It is the delight of such men to boast of what "tough fellows" they are, and tell how they overcame the little ailments that put other people on their backs.

"I had indigestion and a torpid liver," writes Mr. A. J. Wilks, of New York. "Dr. Pierce's Golden Medical Discovery cured me."

37 broad with an area of 3530 square miles. The highest peak is 3600 feet. The island is splendidly watered, 1,300 streams being enumerated, of which 47 are considerable rivers.

Besides the two staples—sugar and coffee—tobacco, cotton, rice, maize, yams and plantains, as well as coconuts and oranges and other tropical fruits, are commonly cultivated. Rice is the principal food of the laborers and is of a variety that grows on the uplands and mountains without flooding.

LEATHER TRUST TO SHUT DOWN

The United States Leather Company, sometimes called the Leather Trust, owning a hundred tanneries in the East and South, is about to curtail its output of leather, so it is reported. Those tanners not in the combine say it is the plan to close up the 100 tanneries of the country owned by the trust.

The combine was formed in 1893, by the union of a dozen odd leather makers, owning 100 tanneries. Nearly 15,000 men are in the employ of the trust. The capital stock of the company is \$124,822,200. Its tanneries are spread over Pennsylvania, Virginia, West Virginia, North Carolina, New Jersey, and New York.

Several causes have brought about the present unsatisfactory condition of the market. The shoemakers, in their attempt to make cheaper shoes, have brought down the price of leather to a point so low that there is little profit in leather.

BEFORE AND AFTER TAKING.

Albany Democrat.

Just before the senatorial election Mr Mitchell wrote in the Herald: "The election of any of those who were prominent in the legislative hold-up, and notably that of Mr Corbett or Mr Simon, the ring leaders and revenue-producers of that anarchistic proceeding; will but tend to perpetuate factional strife, and would result ultimately in the disintegration of the party."

WORLD'S WHEAT.

The Liverpool Corn Trade News, a recognized authority, gives the world's wheat yields of the past five years, excepting 1895, in bushels as follows:

Table with 2 columns: Year, Yield in bushels. 1894: 2,588,900,000; 1896: 2,364,500,000; 1897: 2,270,700,000; 1898: 2,607,000,000.

Whisky had something to do with the outbreak of the Minnesota Indians, but the fraudulent system maintained by the government by which they are cheated of the full value of the fine timber on their reservations had much more to do with it.

The United States will assume just municipal obligations of Cuban cities but will not become responsible for the debt that Spain saddled on the island in successful and unsuccessful attempts to hold the country under subjugation.

Trade at Havana is at a standstill awaiting the change of governments. By the first of December the last of Spanish soldiery will have passed the island soil.

A CROUP CURE

is what many a mother is looking for; something absolutely safe and reliable, that will disarm her terror of that dread rattling, strangling cough, so fearful to the mother, so fatal to the child. Ayer's Cherry Pectoral is a croup cure that can be relied on. Thousands say so.

Mrs. W. J. DICKSON ("Stanford Ereth") writes from Truro, N. S.:

"That terror of mothers, the startling, croupy cough, never alarmed me so long as I had a bottle of Ayer's Cherry Pectoral in the house."

"We have used Ayer's Cherry Pectoral in our family for years. Once when our boy had a severe attack of croup, we thought that he would die. But we broke up the attack by using Ayer's Cherry Pectoral."

R. H. COX, Plaucheville, La.

WANTS A DIVORCE.—Today's Oregonian: "P A Lindstrom has sued Minnie Lindstrom for a divorce, and to be awarded the custody of their three children, and also to be declared the absolute owner of 45 acres of land. The plaintiff alleges that he was absent from home from July to September, and accuses his wife of taking John Anderson into the house during his absence. He says his wife and Anderson afterwards went to Eugene together." Anderson and the woman are now said to be down the Siuslaw.

WALL PAPER.—L A Overton's paint and wall paper emporium is now a scene of activity. Mr Overton has just received a job lot of wall paper and with an increased force is getting ready to present it to the inspection of the public. This new stock was bought at a price whereby Mr Overton can save from 40 to 65 cents on each dollar for his customers, and as he will have the stock opened by Thursday of this week, requests all intending purchasers to wait until that time before selecting patterns.

VARIETY OF GAME.—Attorney Kinsey and Andy Taylor were out hunting yesterday afternoon just below town. They killed six pheasants, 1 grouse, 3 quail, and 2 jack rabbits, and saw bands of wild geese and ducks but did not get a shot at them. Jack rabbits are multiplying quite fast in this portion of the valley.

\$25 REWARD.—I will give anyone \$25 reward for finding a watch of this description: Seth Thomas, 6 size, 15 jewels, No 108 628, solid gold hunting case. Address Guard, Eugene, or Mrs W S Lee, Junction City, Oregon. The watch was stolen.

MARRIAGE LICENSE.—County Clerk Lee has issued a marriage license to William T C Spencer, 35 years, and Marguerite N Barney, 20 years.

TAKEN UP.—Three black Poland China pigs, weight about 80 pounds, taken up. Owner can have same by calling and paying charges.

GEORGE PENSON, Fairmount, Or.

OUT OF DANGER.—We are pleased to hear that Hon J M Stafford is improving right along and is now considered out of danger by the attending physician, Dr J W Harris.

OREGON GRAPE ROOT.—Persons having same will do well to call on me. S H FRIENDLY

The Oliver Steel Plows have the same old guarantee to scour. F I Chambers has them.

WHAT THEY GOT.—In its report the legislative committee on the salaries and mileage of senators it figured the per diem of each man, 20 days at \$3, with the mileage at 15 cents per mile, giving the number of miles and the total of mileage and per diem as follows: I D Driver, 150 miles, \$82.50; Wm Kaykendall, 150 miles, \$82.50. The house committee on salaries and mileage figured out the mileage and then made the recommendation that all members of the house be paid \$3 per day for 30 days. The mileage report was as follows: Brattain, 150 miles, \$22.50; Gray, 196 miles, \$29.40; McQueen, 220 miles, \$33.

BRADFIELD'S FEMALE REGULATOR

gives nature the mild assistance needed for the regulation of the menses. It is of wonderful aid to the girl just entering womanhood, to the wife, and to the woman approaching or going through the turn of life. Women who suffer from any unnatural drain, any bearing-down pains in the lower abdomen, falling or displacement of the womb, can quickly cure their troubles at home, completely away from the eyes of a physician. A few doses taken each month will regulate the menses perfectly.

SILVER LAKE MONUMENT.—In the SF Examiner of Sunday, October 16, appeared an excellent picture of the large sarcophagus monument erected at Silver Lake, Oregon by relatives and friends, to the memory of those who lost their lives in the fire at Silver Lake, December 24, 1894. The picture gives plainly the names carved on two sides. A short history of the terrible holocaust accompanies the article. The monument weighs 10 tons and sits on a base of native stone from the mountains of Lake county. The monument proper is constructed of Vermont marble and was hauled on wagons from this city to Silver Lake. W W Martin of this city is the builder of the monument which will stand through the ages a credit to his skill, and as taken to the memory of the unfortunate whose names the monument carries.

The Minnesota hotel of this city has been leased by A L Montgomery, late of Mohawk, who took possession of the same this week. Mr Montgomery has entirely renovated the hotel, and made sweeping changes in the conduct of the business which will prove of advantage to the public. The table and rooms will receive careful attention and under the new management the hotel bids fair to become a popular hostelry. A few tables for farmer customers is one of the advantages offered. Board at reasonable rates by day or week. The public is cordially invited to extend their patronage.

Hops.—Today's Oregonian: "The market is very firm, with but little new business reported. Brewers in the east are reported as buying heavily through New York at big prices, and in New England there is a good demand from brewers, but holders are endeavoring to force the price up still higher before letting go. Pacific coast hops are the favorites everywhere this season, and on account of their superior quality and condition are commanding better prices than any other grades in the market. What little business has been done during the past week was at about 160 per pound for fancy stock, with many of the growers holding off for 20c." The New York dispatch says hops are strong.

PHASANTS NOT PLENTIFUL.—The season when pheasants, grouse, quail, etc. may be sold opened Saturday. Only a limited number have found their way into the Eugene markets. A few Chinese pheasants have been displayed. The price for these birds is about 25c each, which to the average amateur sportsman is cheaper than gunning for them, but if the sport and exercise is taken into consideration most hunters prefer to have a hand in the taking. Pheasants are by no means plentiful and it takes a good shot and some luck to bag even a moderate number.

WILL AGAIN VISIT EUGENE.—A part of the staff of the English and German Expert Specialists and Dr Meyers & Co will be at the Hoffman House in this city Saturday November 12th on their regular monthly visit. These successful Doctors, are becoming more popular every year, cure Catarrh in all its forms, consumption in the first and second stages, all female complaints, diseases and weakness of men, deformities and chronic diseases generally. Consultation and advice free.

HELD FOR EXAMINATION.—Chas Mann, for whom a warrant was issued from Justice Wintermeier's court yesterday under the name of Wm Sheets, was brought in from near Elmira yesterday by Constable Fleeman. He is wanted on the charge of stealing a wagon sheet from J T Brabham. Mr Mann asserts his innocence saying he purchased the sheet from a boy. The preliminary examination will be held at 9 a m tomorrow. Mr Mann further says he is a stranger here and is looking over the country with a view to locating.
