The Kind You Have Always Bought.

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

DIED—At Lava, Crook county, Nov 14 1898, after an illness of several weeks from enlargement of the heart, C B Allen, aged 6 years. He came to Lane county in 1861 and resided here until 1871 when he removed to Crook county. He was the father of two children, one of whom a daughter, died at Lava in 1880. The other, Mrs C B Allen, at whose residence the old gentleman died. His mother a resident of Lane county, is still living, though well advanced in years. She is well known as Grandma Nellie Allen. His remains were buried at Lava by the side of his daughter's grave.

EASTERN FOOTBALL—Fred Herbold sends copies of Purdue, Indiana, papers of Nov 13, having accounts of the football game between Purdue University and the University of Indiana, the former team, of which Herbold is a member, winning by a score of 14 to 0. We make extracts: "Here Purdue began splendidly, Herbold, Johnson, Webber, Du Shane and Rab, were especially prominent in good play." And: "In the kick-off that followed Byers got the ball, and finely guarded by Herbold, made a famous dash for 55 yards, the star play of the game."

ONLY 125 LOGS LEFT—J C Goodale was in Eugene today. He says his mill started up this morning and will now run steadily, as he has large orders ahead. He says that only about 125 logs got through the boom and they will be gotten up and sold to the Harbison sawmill. He thinks the high water benefited him \$500 in saving him from hauling the logs into his pond over shallow bars along the railway.

BOHEMIA MINES—Cottage Grove Messenger: "P J Jennings and a party

BABY'S Terrible ECZEMA

My baby suffered from terrible Eczema. Doctor and every remedy tried, to no account. He cried all the time and his face was like raw meat. I had to carry him on a pillow, and was fairly discouraged. I used half a box of CUTICURA (ointment) and CUTICURA SOAP, and in two weeks my baby was entirely cured. Today his skin is as smooth as silk. Mrs. J. C. PRINGLE, 208 S. 1st St., Brooklyn, N.Y.

Special Treatment for Skin Diseases—Ward's Skin Cream, from the Skin and Hair, is the best for all skin diseases. Sold throughout the world. Put on Skin and Cream, Cuticra, Proprietary. 1107 Broadway, New York.

ADMINISTRATORS APPOINTED—Ernestine and Herman Miller have been appointed administrators of the estate of Wm Miller, deceased. Probable value of estate, \$4,000. Bonds \$8,000; sureties, E F Miller and S H Friendly. Appraisers appointed: T G Hendricks, F L Chambers and J G Gray. The appraisal filed shows property to the value of \$3,075.

Big BUSINESS—Roseburg Review: The Umpqua valley has produced its

usual large lot of turkeys. E G Young & Co's Thanksgiving shipment will be 40,000 pounds and that of W H Joy, 15,000 pounds. All will go to the San Francisco market, and G J Stearns W H Joy will accompany their respective shipments to that city.

Cost \$2,200—In figuring up the cost of the Branton murder case, it is found that Lane county was put to an expense of \$2,200 in running down and convicting the murderer of John Lamb. This does not include the reward offered for Branton's capture, \$300, as that has not been paid yet.

AT THE CANNERY—The big cannery building preside's one of the busiest scenes to be found in the city. Apples and pines are being packed, and apples dried, and a number of cars stand on the cannery switch ready to be loaded. A night force is employed making a continuous 24-hour run.

READY FOR SETTLEMENT—The produce dried at the Eugene cannery having been sold, Manager Wilkins says that the company is now ready to make a settlement with all growers. The returns promise to be a fair compensation for all parties concerned.

COUNTY COURT CASE—H F Main has sued W R Hollenbeck in the county court for the sum of \$65.

CIRCUIT COURT CASE—Jesse M Williams has sued W H and S P Knoff in the Lane county circuit court. Judgment is asked for \$80.95.

A CIVIL CASE—James W Hollenbeck has instituted suit in the county court against W R Hollenbeck. Judgment is asked for \$265.80.

CLOSED—The store of W R Hollenbeck is closed under attachment. We trust he will soon be able to settle and reopen.

GUARDIAN APPOINTED—Della E Moore has been appointed guardian for Willie Whipple, her son, a minor, aged 15, the order having been issued by Judge Potter Saturday.

TUESDAY NOV 22

POSTOFFICE LEASE—There was filed in the county clerk's office today a lease made by Eugene Lodge, No 11, A F and A M, to the United States of America, of all the room now occupied by the postoffice, 24x50 feet; said room to be fitted and supplied by the said party of the first part with the necessary boxes, fixtures and furniture, together with satisfactory heat and light, and a fire proof safe, for which said United States agrees to pay \$250 per annum for five years, commencing Nov 1, 1898 and ending Nov 1, 1903. The room to be used as a postoffice at Eugene, Oregon. The document is signed on part of the government by C. Emery Smith and on the part of the lodge by S M Yoran, Master and J F Robinson, Secretary.

STAMPS ON BONDS—Today's Oregonian: City and county officials who went into office in July last have been notified that they must place 50-cent war-tax stamps on their official bonds which were filed without these ornaments. The stamp law was in effect when the bonds were filed, but the stamps had not reached this section at that time, and the requirements of the law were not understood. The omission will now be made good, on the theory "better late than never."

IN SESSION—The county board of equalization is in session at the Assessor's office and will remain in session until Saturday evening. The Board consists of County Judge Potter, Clerk Lee and Assessor Burton.

S P OFFICIALS—Today a special train passed through Eugene over the S P, carrying Supt Fields and other officials of the Oregon lines who are making a flying trip to San Francisco and return.

DIED—Marie Millican, aged 2 years, died Nov 2, 1898, at the home of her parents Mr and Mrs Walter Millican at Waltherville. The funeral will be held Nov 23.

BORN—November 22nd, 1898, to Mr Mrs R McMurphy, a ten pound daughter.

VESSEL LAUNCHED AT FLORENCE. Christened the "Luella" by Miss Isabel Kyle.

Florence, West, Nov 18. Last week it was announced that the new vessel would be launched at Florence last Monday. Accordingly preparations were made, a crowd assembled, and a little after eleven o'clock everything was in readiness for the launching when the tide should reach the right stage.

The Florence cornet band played a few selections while waiting as it was the intention to launch the vessel at high tide. A few minutes before twelve Miss Isabel Kyle who had been selected to christen the vessel took her place at the bow.

The blocks holding the vessel in place were quickly driven out and after a few turns of the jack screws the noble vessel slid off gracefully and rapidly towards the river. Just after she started Miss Isabel broke the bottle of wine on the bow and christened her the "Luella."

As she reached the water cheers burst from the crowd followed by the tooting of whistles and anything else that could be done to make a noise. The band played another selection while the vessel was being towed to moorings at the cannery wharf where she will be finished ready for the machinery. She will then be loaded with lumber at the Cushman mill and taken to San Francisco to be fitted up as a steamer.

GOOD ROAD SENSE.

The Dallas Itczizer compliments a road supervisor of Polk county, and gives his views on the proper way to build roads. It says:

"He believes it would be economy to make fills where many bridges and culverts now exist. He says that within the last three years he has put fills where there were ten bridges containing 30,000 feet of lumber. Most of the bridges were below the level of the road but the fills were made the full width of the grade and up to the level of the road."

That is good sound road building sense, and if generally adopted would save many dollars annually to the taxpayers. In years past in Lane county it has not been an unusual thing for a road supervisor to take more time to haul a few planks to make a short bridge than would have been consumed in filling the depression. Fills should be made wherever possible. The Lane county court so instructs its supervisors. Farther, when the necessary work is beyond the means in the supervisor's hands, the court is willing to assist, taking the view that it is far cheaper to expend money on filling with brush and dirt rather than for the more expensive lumber.

THE NICARAGUA CANAL.

It is very evident that the Nicaragua canal will be built in the very near future, and interest in the authors of its construction is now being manifested. The Nicaraguan government seems to have been very prodigal in its concessions. It has granted a canal concession to no less than four different companies and countries, and when the real work of construction begins, no matter by whom, there will certainly be a clash.

But of one thing all parties concerned may be sure—if the canal is ever completed, it will be controlled by the United States. This does not necessarily imply that the United States will construct the canal, or even lend financial aid to any American company engaged in its construction. But it means, as Secretary Olney said, "On American soil the United States is practically the sovereign, and its fiat is law."

The newly elected congressman for Western Washington is not likely to take any prizes in beauty shows. The Salem Journal remarks: "From the top of his head down to his necktie, Congressman Cushman's picture in profile is a perfect outline of Mt Tacoma, with the nose for the peak. He may be a very good man for all that, for the average newspaper picture is a libel anyhow."

The Reno, Nevada, State Journal says all the free coinage factions in Nevada will doubtless get together in the next campaign. They see the absurdity of letting a party that comprises less than one-third of the voters of the State elect several officers.

SILVER THE ISSUE.

Denver News: Here in Colorado there was no shrinking the silver question. It was pushed to the front by the friends of silver and kept there. The result is a state ticket elected by twice the majority ever before given to a state ticket. The moral is plain. Silver must be made the great issue of 1900. Bryan must be nominated by a rising vote. With bimetalism on the flag carried by our patriot leader, silver will as surely win as the battle of 1900 will be fought.

Homer Davenport, the famous cartoonist of the Examiner-Journal in Marion county. Homer used to "fire" for Engineer J J O'Neil on the old Oregonian road that ran through Silverton, and the cartoonist enjoyed the fun of "firing" for his old engineer coming down the Siskiyou. Davenport is the choicest flower blooming in the field of the world's brightest traducers of character and lampooners of sham in public affairs and men. He receives \$13,000 a year salary and \$100 a month as "pending money." He will return to New York in a few weeks via Los Angeles.

Coquille City Bulletin:

According to the Oregonian, the next senator from California, will be a rich man. To use its exact words: "Of course, when rich men want things in California, no matter what, nobody else has a chance." The paper further says that qualification is barred, and from start to finish the case will be a "coin fight." Indeed, can California be so corrupt? If so we can see nothing that could restrain the more respectable class of our golden state neighbors from moving over into Oregon, where all conditions are worthy of the fittest.

Spain cannot do otherwise than surrender the Philippines. She cannot fight longer—has nothing with which to fight. We have "remembered the Maine," now it is Spain's time. It cannot be a pleasant remembrance to the decaying monarchy, but retributive Justice cannot be satisfied except by salutary retaliation. And while we pay off the old score we give several millions of people the same blessing of liberty which we enjoy.

Our peace commissioners demand that Spain cede the Philippines, one of the Carolines, and cable privileges in other islands in payment of \$20,000,000. The ultimatum fixes Tuesday November 29 as the date by which these demands must be complied with. Spain will protest, but uselessly. The Philippines have been lost to Spain for some time, except in the mere matter of the empty title which she was unable to sustain.

The great meteoric display is billed for November 27. It is announced by astronomers that the pyrotechnic exhibition will be very grand.
