MUNICIPAL SOCIALISM.

The London county council which governs London outside of the old city, ruling about 4,000,000 inhabitants, has decided after a hot debate, in the the face of a general public protest, to use the taxpayers's money in putting up workingmen's dwellings, which are to be let at less than interest on the land, cost of construction, repairs and superintendence. This is in the direction of state socialism,

RUSSIA DOES JUSTICE TO HER WOMEN.

Late dispatches say an important measure has been submitted to the imperial council by the minister of the interior. It means nothing less than new legislation on marriage and divorce in Russia. Laws will be passed, and, it is believed, will be approved by the czar, before the end of the month, which will be in all respects similar to those in force in the more enlightened of civilized countries, which will tend to upset the present chaotic marital conditions in the empire.

Heretofore the woman has been regarded, especially in the rural districts of Russia, as the "proper- Our \$1 50 Brocaded Black Skirt ty" of the man. The ecclesiastical law permits the man to apply the rod as a punishment for disobedi impossible. Even in cases of extreme cruelty the police are powerless to interfere.

TAX AND TARIFF BLESSINGS.

Owing to the war tax on many articles shipped to the gold fields of Alaska and Northwest territory, several of the Seattle outlitters after securing contracts for supplies have purchased the articles in Vancouver and Victoria, in order to escape the war tax and other duties. One firm is reported to have placed au order in British Columbia for We are determined to close them out \$70,000 warth of goods, which they will use in filling their orders from Alaska. The articles thus purchased are condensed milk, flour and canned goods, teas and other groceries.
