ANOTHER TARIFF LESSON

The Oregonian in common with other consumers is paying heavy tribute to the paper trust that has banded the score or more of paper mills into a solid combination, and fixes prices to suit itself with a "devil take the public" sort of insolence. In consequence the Oregonian cries out:

"What is to be done with these unnatural and oppressive industrial organizations? Nobody knows. How they can be broken or whether they can be broken at all or not cannot be positively declared."

There is one way not to break the combination. That is to continue unjust protective tariff laws that place every publisher at the mercy of a few men, and practically puts a tax on the means by which the people are educated and become more intelligent. This combination is made possible by a 15 per cent protective tariff. The 10 per cent tariff of the Mills bill was ample for all legitimate protection of news paper manufacturers.

When times become better these trusts and combinations flourish. It is only by placing the tariff rates at a point that will permit at least a moderate importation that consumers may be protected from legalized robbery. These paper manufacturers have prospered under all tariff laws. But they want better returns, and find their way clear to obtain them by combining and advancing the prices of their goods.

BOUGHT SENATORSHIPS.

Marcus Daly, of Montana, says that William A Clark bought the senatorship from the legislature of that state. He proposes to contest the election before the United States senate, and says that he can prove that Clark spent $250,000 to secure the position. That is more than Mark Hanna used to corrupt the Ohio legislature.

The senate is becoming so full of Quays, and Hannas, and Clarks and Stewarts that the position may soon become a mark of degradation rather than badge of distinction.

War makes men in politics. A few months ago Dr Leonard Wood, who helped Roosevelt organize the Rough Riders, was a physician out west. Pretty soon he was a colonel, then a general, next military governor of Santiago, and now he is said to be slated for ruler of all Cuba. Meanwhile his comrade has become governor of New York. There seem to be worse trades than "rough riding."

At three successive elections the majority against Congressman Kirkpatrick in Pike county, Mo, has been exactly the same—321. Either nobody ever dies or moves in there or else they use a voting machine.

Oregon celebrates her fortieth birthday tomorrow, Tuesday, the state having been admitted into the Union February 14, 1859.

The United States leads the world in the use of telephones. The latest statistics show that we use 772,627 telephones against 515,537 used by all the rest of the world. Germany uses 151,101, Norway and Sweden comes next with 77,178, Great Britain fourth with 68,465, and on down to Finland with 7,351. The table is a remarkable one as showing how irregularly this great convenience is utilized in different countries. There is one telephone to every 99 persons in the United states, one to every 100 in Switzerland, 600 in England, 1,500 in France, 3,000 in Italy, 10,000 in Russia and 20,000 in British India. "Hello" has penetrated into the most distant lands, and the Philippines, Natal, Paraguay and all the other countries in South America have it, but only in the United States and Switzerland has it come into general use.

The new words, grafts and grafter have come to stay. In Kansas a bill has been introduced defining the words and describing a punishment for a person found guilty. A "grafter" is defined to be any person who loafs around legislative halls seeking employment by persons or corporations interested in measures pending before the legislature, and any member of the legislature who introduces bills of a prohibitory character for the purpose of extorting money, and who assists outside grafters in securing employment for intended victims. Any person convicted of being a grafter shall be fined $10 to $500 and be disqualified for holding any office.

Including today there are but five working days left for the legislature, providing it adjourns at the end of the forty days for which pay is assured. But little general legislation has been enacted, the redistricting bill being the only important one to become a law. The last few days of the session generally witness a rush of law making, and ill advised legislation may slip through. But the governor lies back and has five days after the legislature adjourns in which to use the veto power.

No one can claim that the United States lacks cosmopolitanism. We have already 7,470,000 negroes, 9,249,549 of foreign born population, 250,000 Indians, 900,000 Porto Ricans, 109,000 mongrels in Hawaii and 1,250,000 Cubans to assimmilate. Is not this a big enough job even for our benevolent Uncle Sam? And it is proposed to add a Malay pandemonium 8,000,000 strong and 10,000 miles away.

Roseburg subscribed a bonus of $2000 for the building of a railroad depot, but the Review is dissatisfied with the appearance of the structure and claims it cost not more than $1000 Therefore it lifts up its voice against subsidies to millionaire corporations.

SHEDSKIN 20 TIMES

My little boy broke out with an itching rash. I tried three doctors and medical college but he kept getting worse. *There was not one square inch of skin on his whole body unaffected.* He was one mass of sores, and the stench was frightful. In removing the bandages they would take the skin with them, and the poor child's screams were heart-breaking. After the second application of CUTICURA (ointment) *I saw signs of improvement*, and the sores to dry up. His skin peeled off twenty times, but now *he is entirely cured.*

WILL PROBABLY ORGANIZE.—The hop growers of Lane county are now discussing the feasibility of a county organization to advance their interests. Such organizations thrive in nearly every section where many hops are grown. Some of the leading growers say a call for a meeting to organize will be held probably the last of February or early in March.

CALIFORNIA'S SORROW

Killing Weather Blasts the Promise of Abundant Crops.

THIRD YEAR OF FAILURE

A Salem lady who is in San Francisco, writes the Salem Journal the following under date of February 5:

"California people are again in despair—dried out for two years, then came the rain which promised millions to the state; just when the blades began to shoot up and hope revive, the two weeks of intensely warm weather scorched the new shoots. As if that were not enough, this week has been freezing. Today icicles hang from the drip of the gutters and ice one-half an inch thick was broken on the puddles at noon. Many country homes will be poverty stricken by this."

And this is California "the land of flowers and sunshine?" Give us the winter rain and mud and cloudy sky, the incomparable springs and summers, and ever abundant crops of Oregon.

A Youthful Compositor.

Florence West: "Probably the youngest compositor in Lane county if not in Oregon is Hazel Weatherson daughter of the publisher of the West. Though only seven years of age having been born September 27th, 1891, she has already learned to assist her father in the printing office and is the one who set up this article."

WHY HELD UP.—A Washington dispatch says that Senator McBride says that the reason why the contract for the Yaquina project was not approved by the war department was that Chairman Burton, of the house committee on rivers and harbors, asked the war department to hold it up, stating that it was the intention of his committee to repeal the law authorizing the project.

BORN.—Near Leaburgh, Feb, 12, 1899, to the wife of Elliott Potter a daughter.

FOR A NEW MILL

I B Cushman Arranging to Rebuild at Acme.

Florence West, Feb. 8.

It will be pleasing intelligence to everybody on the river to learn that the Cushman saw mill is to be rebuilt.

I B Cushman informs us that as soon as the schooner Bella arrives and loads, he will leave for San Francisco to arrange for new machinery and will push the work of building as fast as possible.

He expects to increase the capacity of the mill but is not certain yet how much.
