OREGON TROOPS IN BATTLE.

Summers' Brigade Routed the Enemy at Maarin.

Washington, May 6 .- The war de partment received the following dispatches today:

Manila, May 6 .- Colonel Summers, with six battalions, including the Second Oregon, the Dakota regiment, the Third infantry, and a piece of the Utah light artillery, of Lawton's division, proceeded north this morning to Maasin, where they crossed the river and charged the enemy in strong entrenchments, driving them northward and inflicting considerable loss. His casualties were two wounded.

Both Wheaton and Hale, of MacArthur's division, found the enemy in force and strongly entrenched, and commanded by Commander-in-Chief Luna, about four miles south of San Fernando. Hale, on the right, dislodged the

enemy, and Wheaton, on the left, leading in person, made a brilliant charge, scattering his forces, inflicting great punishment. Several officers and enlisted men were seriously wounded.

MacArthur proceeds to San Fernando in the morning, delayed by the partial destruction of the bridge across the river. It is not believed that the enemy will make another determined stand until he effects his retreat to Arayat, a short distance from San Isidro.

The situation is as follows: Lawton holds Baliung, taken May 2 after a rapid movement from Angat, where he left supplies with a wagon train, pack animals and rations. He scattered the strongly entrenched enemy to the north and northwestward, capturing large amount of food supplies, and has his detachments thrown out to the north and eastward. His successful movement is attended with great difficulty because of the character of the country and the rain and heat. He nou covers our railway communications, and will be supplied from Ma-

MacArthor's column was concentrated and took up the advance on San Fernando at 6:30 this morning. We do not apprehend a sharp resistance on the part of the enemy, who will proba-bly leave the railroad and retire in a northwestely direction and to the north of Lawton. The destruction of the railroad near Calumpit necessitates lependence on wagon transportation. The enemy to the south and east of Manila, 9,000 strong, is opposed by a sufficient force under Ovenshine and

SPAIN IN A NEW ROLE.

About to Make a Claim for Territory in China.

Hong Kong, May 6 .- Spain is collecting eivdence here with a view of claiming a cession of land in China as indemnity from the Chinese government for permitting the steamer Abbey to leave Canton last August, with arms for the Philippines.

The little steamer Abbey was seized by the armed dispatch-boat of Admiral Dewey's squadron September 23 last, She was of American register, though formerly known as the Pasig. It was reported to Admiral Dewey that she was carrying arms and supplies of war to the Filipinos, and he sent the Mc-Culloch to intercept her. When the American cutter finally found the Abbey in Batangas bay, on the south ern coast of Luzon, the filibuster had landed her cargo of arms and munitions, and the insurgents refused to give them up. Thereupon the Abbey was seized and taken by the McCul loch to Manila, in accordance with Admiral Dewey's desire to maintain the status quo in the Philippines pending the conclusion of the work of the peace commission in Paris.

EXTRA SESSION

Congress May Be Called Together in October.

TO TAKE UP CURRENCY MEASURE

Object Is to Clear the Way for Legislation for the New

Washington, May 6. - President Mo-Kinley has talked with some of his congressional visitors about the advisability of calling an extra session in October to consider the disposition of the currency measure, so that it may not interfere with legislation which will come later for the government of the new colonies. There is a great deal of work to come before the next congress and two months extra session would help a great deal. Great satisfaction was expressed at

he war department at the manner in which Colonel Summers is going ahead with the Second Oregon and winning laurels for himself and regiment. As further details are received concerning the action of the Oregon regiment, and especially as reported in Manila papers, officers here are loud in their praise of the boys and their officers. While General Oris does not request

troops, he indicates that more could be used to advantage. It is plain that with 9,000 Filinmos near Manila and towns asking for garrisons to protect them, troops are needed. A call for 35,000 more troops might have wholesome effect upon the insurgents. Senator McBride called on President

McKinley today and invited him to visit Oregon on his Western trip, reminding him of the invitation that was sent some time ago by the committee appointed for the purpose. The presilent assured him that if he made the Western trip contemplated, he would gladly extend it to Oregon. He said, however, that he had not definitely decided as to whether he would make the trip, as it would depend much on the pressure of public business.

Edward Atkinson, whose pamphlets have been refused transportation to the Philippines, claimed that the senate had endorsed his documents and made them government publications. This is true, but they were ordered printed as public documents in a perfunctory manner, the same as thousands of other documents are ordered printed by the senate. Senator Jones, chairman of the Democratic national committee, and Senator Caffery, of Louisiana both rabid anti-expansionists, asked to have the Atkinson papers printed as public documents, and without any one inquiring what they were, the leave was granted. In the senate, if leave to print such publications were refused, the senator asking could read them and make them official. For this reason, hundreds of crank documents are printed without objection, in order to save time and prevent the defeat of important measures.

Saif the Yukon Fleet Fast in the Ice

San Francisco, May 8. - Advices from the Northwest confirm previous reports that nearly half of the Yukon fleet is fast in the ice, and will probably be destroyed when the spring freshet comes. Among the vessels in danger is the Sherman, of the Alaska Exploration Company. She is near Nulato, and is on a sand bar in the middle of the river, broadside on the current. Four miles from the mission is the Dawson City, owned by a San Francisco firm. She is fast in the ice, with no chance to escape. The Gov-ernor Steneman, owned by Portland capitalists, is about 25 miles above the mouth of the Tanana river, and she will probably break up when the fresh-

Cincinnati, May 8 .- Buried treasure in the shape of 11 \$1,000 bonds, bearing unclipped coupons which add several thousand dollars to their value. were found by Thomas Lawson, a negro laborer, while digging in the cellar of a down-town department store on Sixth street. The ground was formerly the property of Britting Bros., piano manufacturers. In the tin box was found a paper on which was written:

'These bonds belong to Julius and Martin Britting, and are the result of years of industry and saving."

This discovery solves a mystery which had been a source of angry contention among the heirs of Julius Britting, whose sisters brought suit against Martin Britting, a brother, charging him with having concealed the bonds. Martin denied everything, but nothwithstanding his denial a judgment was rendered against him in favor of the estate of Julius for about \$4,000. The money was collected and the estate distributed and settled. The negro claims the bonds as treasure

Spanish prisoners left behind in the rout of the rebels today told the Americans that General Luna had been wounded in the shoulder in fighting a San Tomas yesterday, and the Filiping soldiers have all gone to pieces. General MacArthur has moved his full command to San Fernando.

Many people left in panic, discaring property and leaving household good behind. The main residence parts town is intact but the church, convent, railroad buildings and business houses ere fired by the Filipinos.

Capture of San Fernando. The capture of San Fernando was nade by the Fifty-first lows, after a gallant charge. General Hale led the attack. He had two battalions of the Iowa regiment, a Hotchkiss gun, and a flank movement on the right was made. To reach the city the troops had

to ford two shallow streams.

Before the advance was well begun the main body of rebels fled to the northward from San Fernando, leaving a small garrison. These fired on the lowans when in the middle of the second stream. Although the rebelife was bot, the Americans were not checked for an instant. With a yell the lowans rushed up the bank of the stream nearest the rebel rifles and be gan sprinting after the now fleeing garrison. Heavily armed and accoutered the Iowans had a handicap as against the lightly clad rebels, and when outrun, many of the Americans stopped his quarry with bullets. This chasing lasted through the town and almost a mile beyond. Tired out and winded the Iowans returned to fight the flames consuming the public buildings from the torch of the natives, and then held the town until MacArthur's command

close at hand. President Schurman, of the American Philippine commission, who has never been optimistic on the problem, cabled today to the president the belief of the commission that Aguinaldo is ready to surrender. He informed the president of the new plea for peace made by the

Tagal representatives. Aguinaldo offers to surrender, but makes, through his representatives, a plea for certain assurances as to local officers and government being gives the Filipinos. The conditions ared minor consequence, as far as this government is concerned. As a result of the dispatch sent by Schurman today, it is the confident expectation of the

president that the end of the rebellion s near. This result will not be obtained without some of the concessions asked for, which have been recommended by the commission, and which, by the cabled direction of the president today, will be granted. These concessions contemplate giving the Filipinos a form

of government modeled after that of the United States.
