TEN THOUSAND MEN. Recruiting for the Philippines Will Begin at Once. Washington, June 30. - Secretary Al ger. Adjutant Corbin and Colonel Bird, assistant quartermaster-general in charge of transportation, had an hour's

cosultation with the president to day relating to the question of reinforcements for Genreal Otis. A definite decision was reached to continue re cruiting men at all the recruiting sta tions, and Secretary Alger said after the conference that General Otis would have 40,000 when the rainy season closed for resumption of active operations.

The enlistments are to be for service in the regular army and recruits are to be organized into regiments or assigned to regiments already formed after enlistment. General Corbin said the enlistments would be for two years. Ar rangements are to be made at once for increasing the transportation necessary to get these additional troops to the

Philippines. The decision to reinforce General Otis by the end of the rainy season is interpreted to mean that active camsas, has paigning will cease until the bad weather ends. By remaining quiescent er# must under good shelter during the rainy season it is hoped that the health of our troops will be conserved and the

danger from climatic fever reduced to s minimum. Later in the day it was definitely de cided to begin enlistments for the vol-

unteer serivce under the act of the last congress. The adjutant-general's reports show the regular army is up to its full authorized strength. Recruiting officers in the principal cities of at Los the country will be instructed immediately to prepare to enlist volunteers. The present indications are that about 10,000 men will be wanted.

Volunteers will not be accepted in organizations. Secretary Alger is determined to adhere to that rule. Look ing over the act of congress he has con cluded that the authorization to raise these volunteer troops "at large" indicates a purpose on the part of congres to follow out the plans successfully adopted in immune regiments.

Drowned in the Pasig. Victoria, B. C., June 30 .- Details of the drowning of five men of company G, Twelfth infantry, United States army, in the Pasig river, June 8, were brought here from the Orient by the steamer Empress of China. A number of soldiers under the direction of an officer were crossing the river on a

small craft, made of bamboos lashed over small boats. The men were crossing in regular squads, but at the time of the accident the raft was overloaded and rapidly tilled until it sank about 10 feet from the bank. The water was full of struggling men, fighting against the swift current and heavy equipment, and before they could be

rescued five had gone down for the last time. Four bodies have been recovered as follows: Corporal E. Hermann, Jasper L.

Whrims, Nels Anderson, Joseph Nuneville. They were buried in the new national cemetery adjoining the old Spanish cemetery.
