## TO CORRESPONDENTS.

The business department of the WEEKLY GUARD is caused considerable trouble by correspondents addressing the proprietors personally. Address all letters referring to the newspaper or business connected there with to THE GUARD, Eugene, Oregon.

LARGER THAN FIRST SUPPOSED.

Oregonian: "I G Davidson, who has recently returned from the Bohemia mining district, thinks the mineral area of that locality is much larger than was at first supposed, and he looks for heavy developments in the near future, as both Eastern and foreign capital have experts looking over the possibilities of the section. In the Wall street group, ore has been struck which assays \$67 in gold, silver and lead, and this ore is pronounced very desirable for smelting nurposes, as it contains material for fluxing the more rebellious rock. The vein, although but four tuches wide on the surface, thickens as it is followed down, and at a depth of 20 feet had increased to 18 inches, with well-defined walls. A tunnel is now being run, which when in 60 feet will strike the ven at a depth of 128 feet, from the top surface.

"A contract has just been let for White Swan, which is owned by Eugene capitalists. This is a very promising prospect, as it is situated on the same lode as the Musick mine, now working a large force of men in getting out ore for the 15stamp mill in constant operation. A number of teams are also busy, hauling concentrates from the Musick mine to Cottage Grove for shipment to the smelter at Tacoma.

is chewing up ore to its full The GUARD today gives the entire sleam and it was under his care for a capacity, and there is a large report in full. amount of rich rock on the dumps, the result of several months' de velopment work. The amount of ore in sight, though not yet mined, Mr Davidson says, is very encouraging to the owners of the Helena. The Harlow & Stokes mine, near the Helena, is also running a 5stamp mill. The latter mine gives great promise as a rich ore producer.

"The development of the Bohe mia mining district, Mr Davidson thinks, means much for Portland, good-looking, charming woman of a which will finally become a great mining center, as well as an emporium for an empire of agricultural products. He looks for mineral development quite close to the city, and in all directions, within a very short period of the future."

## WORSE THAN CENSORSHIP.

General Otis not only refuses to allow newspaper correspondents to tell the truth about the game of hide and seek he is playing with the Filipinos, but he desires to shut discharged soldiers out of the opportunity to make a living on the islands, except they re-enlist. Private Grady, of Co. M, Second Oregon, came over on the transport Hancock, with the Nebraska regiment, and here is the way he explains why he did not stay in Manila:

"Otis froze me out of Manila, 1 there, and begged Otis for a license, but he would not have it that way. He said I wanted to have my eating-house too close to a Spanish place of business, and that the competition would not be fair, cherry trees have died, Another man wanted to go in with me. He told Otis he would starve unless he could get employment soon. 'If you do not want to reenlist in the army you would better leave the island,' was all the satisfaction he got. There is no show for a soldier in Manila,"

The Boston Globe says: Mrs Josephine Woodbury, for some years an ardent disciple of Christian Science, has entered suit against Mrs Eddy and her chief advisers for alleged libel. Seven separate suits are brought, aggregating \$425,000. Frederick W Peabody, Mrs Woodbury's attorney, says the suit is based on the utterances of Mrs Eddy at the recent annual meeting of the Christian Scientists.

July 31st, 1809 Most everybody is prepared for another winter so far as the bay harvest in concerned.

Quite a number of coast resorters to. be seen on the road intent upon erjoying themselves.

Miss E on Barbour returned to California last week to resume her occupation of teaching. The family are all noted as being successful teachers.

Mr and Mrs Win Bond and daughter, Amanda, have returned home near Irving after a week's visit with relatives here at Walton. Also Mr and trees affected by last winter's freeze are Mrs Atkinson and Mrs Inman of Lorane.

Revs Beaudreau and Powell of Eugene are holding a successful meeting four acres that contain more than 600 at the Walton school house. Began trees, the death of trees is widespread. the 30th and will continue over August 6th with a basket dinner. Four addi- that not more than 30 trees on the entions up to the present writing who tire four acres will live. After the will be baptized next Sunday.

Some outside people get the thought in their mind that this Siuslaw count trees budded, leaved and blossomed as try is all that it will ever be. Just stop usual, and many of them had considand think for one moment what the erable quantity of fruit. They appeople are doing; some are putting up peared promising until about three or ulce dwellings while one man Mr L P four weeks ago, when they began to Taliman has put a large bridge across languish. In the Tavenor orchard of the Siuslaw river at his place which five acres, where there is a large body will compare with any wooden bridge of Petits, a similar, though a less in the county of like length. The span marked condition exists. The fatality is one hundred and eleven feet long in this orchard is not so great. A few while the approaches are the same of the Italians in the McEiroy and the OWNERS OF REAL ESTATE. lenghth.

We hear the county court and citizensare making an attempt to improve the road especially from the C W Lyons place on down to the Head of Tide. We are in receipt of their plans and specifications. Now its going to cost more than is necessary to plank a half and three inches thick are still sound that were laid ten years back. Kansas City offers to contribute If a man bids on this work he must bid on four inch planking and that OBSERVER.

About one month ago my child, which is fifteen months old, had an The adjusters have completed attack of carrhoea accompanied by vomiting. I gave it such remedles as are usually given in such cases, but as week. At this time the child had been sick for about ten days and was having about twenty-five operations of the howels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Cham-berlain's Colic, Cholera and Diarrhoes Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy,—C. L. Boggs. Stumptown, Gilmer Co., W. Va. For sale by Delano.
