Beet Sugar at Oxnard. Times are lively in and around the hig beet-sugar factory at Oxnard, Cal. Fourteen thousand, nine bundred and fifty acres of beets have been planted in that vicinity and are now being prepared for harvest. Over 1,000 men are ngaged in thinning the beets, for which service they receive \$1.40 a day. on an average. The new crop will smount to about 200,000 tons of beets, and when these are put through the big factory the result will be that about 30,000 tons of refined sugar is as it is found that they are controlled mated that the crop will average about small companies. 18 per cent sacchrine matter. A large leal has just been consummated, whereby the American Beet Sugar Company, which owns the Oxnard factory, has purchased the large Patterson ranch, which contains 5,000 acres. The purchase price is said to be over \$600,000. This is the largest single purchase put through in many years in Ventura county. The new factory now has a capacity of 2,000 tons of beets per day, and since the capacity was recently doubled, it is now the largest sugar factory and refinery in the world.

A Distant Market For Flour.

The Big Bend flour mill at Davenport, Wash., annually ships hundreds barrels of flour to the Orient, where it has built up a reputation that gives it a steady sale. The other side of the Pacific, where the countries are densely populated furnishes a market for a vast quantity of American flour, and heavy invoices are shipped direct to that foreign market from the home At the present time the Big Bend mill is turning out several thousand barrels of its superior brand of flour for Japan, and this is only the beginning of what promises to reach greater shipments in the future to the lapan market.

Washington Hops.

The vines are reported to be making smellent progress and in many sections the hops never looked better. Nearly all the large yards are in fine condition, and, as rule, are for this season well advanced. There are plenty of lice, but the sprayers are keeping them in check. There have been some contracts made at from 10 to 12 cents, but growers are generally backward about contracting.

Great Falls, Mont., has proved itself to be the highest and best market for wool in the state of Montana. Over 273,000 pounds of wool was sold one day last week, and it brought very good prices, the highest price paid being 20 cents, and the lowest 17 5-8 cents, the whole averaging higher than any lots of wool so far sold in Montana, and the highest price paid being the top notch at which Montana wools have so far been sold.

For the New Water System.

The first carload of steel pipe to be used in the Cedar river pine system at Seattle, arrived at that place last week. There are 112 feet, or 12 tons on the car. A train of about 40 cars is now on the way containing over 500,000 pounds of steel pipe. Each car has 27c per pound. four pieces 28 feet in length, or, if the pipe is curved, five pieces 21 feet long. A California Creamery.

The Chino Valley creamery, at Chino, Cal., is making all its milk receipts into butter now, the price of butter having gone up to 50 cents, it is more profitable to make butter than cheese. The association is receiving 7,500 pounds of milk a day and Manager Steele says that as beet pulp comes in for feed the receipts will run up to 10,-000 pounds per day.

prosperity continue convincing, failures New York, July 28,-Eight negroes, three women and five children, arrived from Sierra Leone on Monday, and afwere taken in charge by a colored mis-They are Mrs. Lucy Greyson, thing God; but God pity us, and give chees. Address, Box 131, Portland, Or. Mrs. Boone and Mrs. Simiton, who formed part of a large colony of Southern negroes who sailed from Savannah, Ga., in March, 1896, for Liberia.

Gathered together by the International Emigration Company of Birm-Fear of deficient crops has been bur- ingham, Ala., they had been told that ied under Western receipts from farms "Liberia was the promised land tor amounting to 13,861,046 bushels wheat the colored race." Hundreds sold their for the month thus far, against 3,773,- homes and joined the colony, sailing 108 last year, and 15,298,665 bushels on the Labrador. Arriving at Monrovia, the colonists received the allotyear. Exports of wheat, Atlantic and ments of land that had been promised Pacific, have been 7,709,193 bushels them, but learned that it would be several years before they could gather the first crop of coffee, which was about the only thing that could be raised. The agent in charge of the supplies, which were to have been furnished them for one year, sold them in the interior and left with the proceeds.

Some of the colonists made their way inland, and attempted to compete with the natives at starvation wages in the fields and as carriers. Scores succumbed to the fevers, among them the husbands of Mrs. Boone and Mrs. Simiton. They escaped to Freetown, Sierra dlings, \$22; shorts, \$18; chop, \$16.00 Leone, where they were cared for by Dr. Willaims, the American consul-It was by his assistance and that of two steamship companies that Mrs. Grey-Butter-Fancy creamery, 35@40c; son, Mrs. Boone and Mrs. Similtor were able to reach the city.

> Protests Againt Giving Lynn Canal. Washington, July 28. - Protests have en made to members of the administration against the proposition to give Canada a port, even temporarily, or Lynn canal. It is claimed that such r privilege in advance, if arbitration is to come, will be a confession that Canada is entitled to such a port, and will be so decided by an arbiter. It is said that even if the matter is submitted to arbitration, the temporary port will be maintained for many years to come. and will be used to the disadvantage of the American government. With this port, Canada would secure an oper gateway to the gold regions of the Yukon, and the American miners would secure no privileges in return.

It appears to be another case where British diplomacy has been too much for that of the United States.

Cleveland, July 28 .- The storm center of the street railway strike has, according to the authorities, settled in Brooklyn, a suburb connected with Cleveland by a long, high bridge

At noon, 150 employes of the Borr Steel Range Company blockaded a car on the bridge and dragged the motorman and conductor from their posts inflicting with their fists and weapons injuries more painful than serious. Soldiers on goard at the barn about half a mile away hurried to the scene but the rioters had taken refuge in the factory, which stands under the approach to the bridge. The factory was surrounded and the premises searched, but there was no clue by which the guilty ones could be picked out, so they bent their efforts in assisting the bloodstained motorman and conductor to move the car, most of the windows of which had been broken by stones.

Tone of Copper Coins. New York, July 28.—The steamer Cevic brought to this city 9,999 bags or 250 tons of copper coins from India, consigned to the Oxford Copper Company. The coins will be melted over for refining purposes, as they are imported as copper scrap. It is explained that the coins are worth more as copper than as coins, with the price of copper standing at or about the present value of \$18.50 for Lake. The statement is made that when copper stood at 10 cents, there was a profit in coining for the Indian government, but conditions are now changed by prices ru'ing for copper. It is said that the copper coins of China can also be imported and melted into copper at .
