SECRETARY OF INTERIOR FOOLED

Under Cover of His Forest Reserve Regulations, Stump Wastes Are Traded for Virgin Forests.

Hoquiam, Wash., Sept. 14 .- A party of government surveyors has gone into the Olympic mountains from this city to triangulate and approve the lines of the Olympic forest reserve. They have been working their way up the coast, and their labors will not end until they reach the Straits of Fuca. The presence of these delineators renews discussion of the policy of forest reserves in this quarter. The sentiment on Gray's harbor is sgainst the reserve. It limits development and throws restraints about the common people. Whatever advantages accrue to any from it in immediate commercial transactions go to the rich, who specucided that a game warden cannot grant late on the transfers which the law

The law creating the forest reserves provides that settlers and holders of lands within these reserves may relinquish their claims and in return receive scrip, which shall be available in securing other public lands of the United States. Under this clause, the Northin San Francisco now number nearly ern Pacific Railroad Company and the milling companies are relinquishing to the government tracts denuded of trees by loggers and forest fires, and selecting in their stead the best timber lands

The Pennsylvania syndicate owns ome of the most valuable timber lands in Western Washington. THE TARTAR CLEARED.

Hong Kong Authorities Granted Paper

Washington, Sept. 16.-The war department received a dispatch today containing the information that clearance papers have been allowed the transport Tartar at Hom. Rong. It is expected that she will proceed to the United States at once.

The information came from Colonel Metcalf, commanding the Twentieth Kansas and troops aboard the transport. It is supposed clearance papers were allowed upon the suggestion of the British foreign office to the British governor at Hong Kong that it would be unwise to interfere with American transports.

Another dispatch from Colonel Metcalf, in reply to one sent yesterday, states that the Tartar was not overcrowded, and that the food was as good as on other transports leaving Manila. He said the trouble arose among the discharged regular soldiers who were returning home on hoard the ship.

EMBARK AT PORTLAND

Thirty-fifth Will Leave From Oregon Metropolis.

ROOT OVERRULES GEN. SHAFTER

He Finds There Are No Obstacles is the Way of Troopships Coming Up the Columbia.

Washington, Sept. 16 .- Secretary Root emphatically overruled General Shafter today, in determining that the Thirty-fifth should embark for Manila at Portland, unless there was unsurmountable obstacles. These he could not find in the reports from Shafter and the quartermasters.

The pleas about length of time and

impossibility of sending ships were considered by the secretary as inadequate. Two transport ships can be ent up the Columbia, and he saw no reason why they should not sail from Portland direct for Manila. As the ships could not return to the United States in time to carry other troops to Manila, the delay, even if it was all the opposition claimed, was unimportant, in the opinion of the secretary. The transports will be fitted out at

what the regiment carries. When the Sydney to superintend the shipping of troops come to Portland, they will be their collections made during the two allowed to parade in the city before months' cruise. Of Peary's work, Mr. they embark. This will be determined by the commanding officer. The secretary felt that all Portland the four alloted to his greatest Arctic and Oregon had done for the country.

New York, Sept. 18 .- A special to the World from Ithaca, N. Y., says: Your correspondent is able to say on authority that the Schurman peace commission offered every inducement short of absolute self-government to Aguinaldo and his followers. Aguinaldo was promised as the price for the restoration of peace in the Tagal tribe a bonus of more than \$5,000 a year while the Tagals remained peaceful. He was told that he could choose men from his own tribe for the minor municipal offices. The commission went so far as to promise Aguinaldo the moral support of the United States government, if such were needed, to make his leadership of the Tagals thoroughly

With all these inducements, tempting as they must have been, Aguinaldo, as the recognized head of the insurgent movement, declined to yield. He insisted upon immediate self-government, and as his insistance was so firm as to make an agreement impossible, the American commissioners ceased ne gotiations.

President Schurman was frank in telling your correspondent a day or so ago that he favored giving to the various tribes the largest possible measure of home rule at the earliest moment. Consul Monaghan, of Chemnitz, in a report to the state department, gives interesting details of the agricultural possibilities o' Asiatic Russia. Mr. Monaghan saythat this vast territory is destined to be one of the world's richest and most productive places. It is particularly well adapted to the growing of wheat and other cereals, and since the building of the trans-Siberian road, wheat from this region has already found its

way to the European market. At present the resources of this region are undeveloped, and must remain so for some years, as the population is as yet greatly scattered, being less than one inhabitant to each square mile.
