Fractional Coins in Demand.

New York, Sept. 21 .- A special to the Herald from Washington says: Fractional silver coins are in almost as great demand at the treasury as are small bills. The revival of business all over the country has absorbed the supply of dimes, quarters and half dollars so rapidly that the treasury will soon be entirely out of coins of these

denominations. By a joint resolution of congress. passed in 1876, providing for the redemption of the fractional paper currency then in circulation, the secretary of the treasury was authorized to purchase silver bullion, and coin fractional silver to be issued in redeeming the fractional paper. The resumption of specie payments brought the old coins out again, and it was estimated that with the new coins the total amount in

circulation was \$76,000,000. Secretary Gage last year recommended to congress leigslation authorizing the coinage of additional fractional silver, but no action was taken. Both he and Mr. Roberts, the director of the mint, will make urgent recommendations this year that authority be given to increase the supply.

OUR HEAD IS TURNED.

So Says Goldwin Smith, Who Thinks Dewey Is Overestimated.

Toronto, Ont., Sept. 25.-Goldwin Smith, writing in a local paper, says: 'Nothing could show the extent to which the head of Columbia has been turned by the war more than her adoration of the hero Dewey. What did the hero Dewey and his comrades do? They sat in almost perfect safety and destroyed at long range a line of helpless tubs, with some hundreds of the poor Spaniards who manned them, and who alone had any opportunity of showing heroism on the occasion. Se perfectly secure did the Americans feel that they adjourned to breakfast in the middle of their sport. There was among them a single casualty, and had they all gone tiger hunting one casual ty at least probably would have occurred.

"For this, however, Dewey, is declared to be the equal of the great seamen who conquered in the terrible days of Aboukir, Copenhagen, Trafalgar. If he were so inclined he might probably be elected president of the United States.

"Canada cannot possibly take part in the celebration of Dewey's triumphs without evidence of discourtesy toward Spain, a friendly nation, which has ione Canada no wrong. Spain, let it be remembered, though deprived of her possessions in this hemisphere, is still a Mediterranean power, decayed at present, but capable of restoration. The British government will hardly thank the Canadian government for making her an implacable enemy."

"I glory in the spunk of Aguinaldo's men. They are simply fighting to regain the land the Catholics took from them. A local paper has asked: 'Who is John Brown's soul marching with-Otis or Aguinaldo?' I believe John Brown's soul is marching with Agui-

naldo." Mr. Sipmson said in substance that he would rather be with Aguinaldo than with General Otis. An old soldier in the audience rose and said that the speech was drifting too much into politics. This was applauded and greeted with cries of "Throw him out!" and "Kick Simpson off the platform!" Men and women arose and hissed, and the men kept crying, "Put him out!" Simpson appealed to the crowd to sit down. "I am coming to my peroration," he said, although he had been

speaking only 15 minutes. Cries came Take your peroration to Aguinaldo.' Simpson attempted to go on, but no one could hear him 10 feet away. The band struck up "The Star Spangled Banner," and Mr. Simpson left the
