

Mrs. Pinkham's Friends

are everywhere. Every woman knows some woman friend who has been helped by Lydia E. Pinkham's Vegetable Compound. What does this friend say about it? Read the letters from women being published in this paper. If you are ailing, don't try experiments. Rely on the reliable.

Mrs. Pinkham's great medicine has stood with-out a peer for thirty years. Puzzled women write to Mrs. Pinkham for advice which she gives without charge. The advice is confidential and accurate. It has helped a million women. Mrs. Pinkham's address is Lynn, Mass.

Specific Criminality. "According to Marambat," says the New York, "3,000, convicts examined by him, 78 per cent were drunkards; 79 percent of the assassins and 87 per cent of the incendiaries were drunkards. Marro found that the drunkards stood in the first rank of highway robbers, 82 per cent; Vetalut found among 40 alcoholic criminals that there were 15 homicides, 8 thieves, 5 swindlers, 6 assaulters (on women), four assaulters (wounding), and two vagrants."

A SIGNIFICANT LETTER. New York City, Feb. 15, 1900. My Dear Carlton—I know it will please you to learn that my homeward journey from San Francisco was more than pleasant. One striking feature that added very much to my comfort was the dining car service on the Rio Grande Western and the Denver & Rio Grande. This is the finest service of this description I have ever seen anywhere, either in this country or abroad; the food and cooking was all that could be desired, and at very moderate prices. If you happen to know the Rio Grande Western people, I wish you would say to them that it will afford me the greatest pleasure at all times to bear testimony anywhere to the above facts.

Very truly yours, (Signed) J. ADDISON BAKER, 2nd. (Rail Lake Tribune). The Rio Grande Western Railway now operates through Pullman sleeping cars between San Francisco and Chicago, without change. The route via Lake City is unequalled in attractiveness and wealth of novel interest. Three through trains, daily. Write for information, rates, etc., to J. D. Mansfield, General Agent, 253 Washington Street, Portland, Ore., or Geo. W. Heitz, General Passenger agent, Salt Lake City.

Christian Experience. Christian experience cannot be ordered as one orders goods from a store, or writes a check on a bank. It comes as a fruit. When we obey we know; when we believe and follow the Lord Jesus He gives the grace. It may be very quiet, but in reality, and with great comfort.—United Presbyterian.

Raber—Becker always drinks imported wine, don't he? Hallan—Yes, poor fellow. He's trying to drown his domestic troubles.—Brooklyn Life.

An Excellent Combination. The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the California Fig Syrup Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N. Y. Wholesale by all Druggists.—Price 50c per bottle.

LIVE-STOCK CENSUS.

An Enumeration of Pure-Bred Farm Animals Will Be a Part of Twelfth Census. An enumeration of the pure-bred or pure-bred farm animals in the United States will be a part of the twelfth census. The main schedule for agriculture provides for returning the number, June 1, 1900, of all pure-blooded animals recorded or eligible to record, on the farm.

While the treasury department, in administering the tariff laws relative to pure-bred animals, does not accept of verbal statements of owners or agents, but requires certified evidence in writing of the pedigree claimed, the census enumerator will be compelled to rely pretty generally, if not wholly, upon verbal replies as to whether stock is pure-bred.

As several months must elapse before the census of live stock will be taken, Director Merriam requests that all who are not certain whether their unregistered animals are grade, or pure-bred and "eligible to record," take steps definitely to settle the mooted point, and thus be prepared without hesitation to give the enumerator accurate information relative to this interesting inquiry.

Sheep may be recorded by flocks; but other animals are recorded by individuals. The herd books show that about 750,000 cattle have been registered in the United States and it is estimated that about 350,000 are living. If breeders will make accurate returns of their pure-bred animals to the census enumerators next June, a correct basis will be secured for showing future expansion in high grade live stock. Otherwise the efforts of the census officers will be of small value.

Converted Into a Sawmill. The plant of the Everett, Wash., mill, which has been closed for a year or more, has been purchased by William C. Butler and will be converted into a sawmill. The mill machines were shipped to San Francisco last fall, the local plant having been absorbed by the American Steel Company.

Washington Fir. Less than two years ago Washington fir was tried as an experiment in the manufacture of cars, as a result of which, it is asserted, by the Railroad and Engineering Journal, that during the present year a majority of the cars built for Western roads will be of material taken from the Washington forests.

Sale of Sheep. M. Fitzgerald, of Mitchell, Or., sold on the 20th inst., to a Montana buyer, 1,900 head of yearling ewes and wethers at \$2.50 for wethers and \$2.75 for ewes, to be delivered after shearing. As the sheep will shear 10 pounds, and Fitzgerald expects to get 18 cents a pound for it, it will be seen that the figures on his yearlings bringing him an average of \$4.42 per head.

Northwest Notes. The board of commissioners of Chelan county, Wash., are very busy these days getting moved into the new court house at Wenatchee.

A plant for extracting arsenic from the Monte Cristo ores is to be established at Everett. It is said those ores are one-third arsenic.

The explosion of a lamp in ex-Senator Foss' clothing store caused about \$1,000 damage. The store is in one of Anacortes', Wash., finest brick structures.

The men brought from up-Sound points to replace the strikers at the Seattle Logging Company's camp, at Port Crescent, have refused to go to work upon learning the situation there, and some have already returned home.

The Everett & Monte Cristo railroad is to be rebuilt from Hartford Junction to Monte Cristo wherever it was damaged by floods and the line will be in operation again by July 1. This is the part of the road not included in the purchase by the Northern Pacific.

H. E. McBride sold his 80-acre farm in the Artesian belt to Hiram O. Blankenship, recently out from the Atlin gold fields, says the North Yakima Republic. He will sink an Artesian well at once and build a \$1,000 house on the land.

Oliver Cornwell shipped two car loads of fat beef cattle to Snohomish, Wash., says the Walla Walla Union. These cattle were fed upon alfalfa hay altogether, and made a gain of 250 pounds in three months. They averaged when shipped 1,400 pounds each. The price per hundred was \$4.85.

The O. R. & N. is about to expend about \$300,000 in improving the track between Pendleton and Umatilla.

In the stomach of a beef creature recently killed at Fossil, Or., the other day, three pounds of gravel stones larger than ordinary marbles were found.

The petition of the citizens of John Day, Or., asking that the town be incorporated to incorporate under the legislative act of 1898, was granted by the Grant county court at its last meeting.

BRADSTREET'S REVIEW.

General Outlook Retains Most Encouraging Features. Bradstreet's says: Some of the irregularities are visible in the general trade and industrial situation, the results of the working of counter currents in various lines, but, taken as a whole, the general outlook retains the most encouraging features noted for some time past in these columns. Favorable reports as to retail distribution and as to collections come from Southern, Western and Northwestern markets, due to better weather. Advances in wages of soft coal miners, of stove molders, and of other workers allied to the iron and steel industry would seem to point to labor conditions retaining most of the favorable features which have recently made them features of favorable remark.

Sugar is higher, mainly owing to the growing strength of raw material. Wheat and corn, among the breadstuffs, have been weaker, reflecting another one of those short swings in prices which have been a feature of the former market, but also expected heavy shipments from Argentina and good estimated crop reports from the South and West. In the Central West, wheat crop advices are disappointing, complaint of winter killing more than offsetting increased acreage.

Wool remains one of the soft spots in the market, and though a little more business has been done this week than last, concessions are easier to obtain and prices are quotably lower.

Wheat, including flour, shipments for the week aggregate 2,908,495 bushels, against 2,727,450 bushels last week, 3,764,761 bushels in the corresponding week of 1899.

Business failures for the week in the United States number 192, as compared with 190 last week.

More Convincing Than Science.

Amid all possible scientific hair-splitting concerning the food properties of alcohol and the effect of alcoholic drinks upon the human constitution, a few facts of common record are most convincing. For example, of the indoor patients of the hospitals of Paris, 46 per cent are habitual drunkards.

WHAT ALABASTINE IS.

Alabastine is the original and only durable wall coating on the market. It is entirely different from all kalsomine preparations. Alabastine is made ready for use in white or fourteen beautiful tints by the addition of cold water. It is put up in dry powder form, in packages, properly labeled, with full directions on every package. It takes the place of scaling kalsomines, wall paper and paint for walls. Alabastine can be used on plaster, brick, wood or canvas, and a child can brush it on.

WHAT "KALSMINES" ARE.

Kalsomines are cheap and temporary preparations, manufactured from whitening, chalks, clays, etc. They are stuck on the walls with decaying animal glue. Alabastine is not a kalsomine. It is a rock-base cement, which sets, and it hardens with age. It can be re-coated and re-decorated without having to wash and scrape off its old coats. Alabastine is utilized to a great extent in hospitals, as it prevents the accumulation of dirt and the congregating of disease germs, being disinfectant in its nature.

CHURCHES AND SCHOOLHOUSES.

The interior walls of churches, schoolhouses and all public halls should never be coated with anything but the durable and pure Alabastine. So evident has this fact become, that hundreds of tons are used annually for this work. The genuine Alabastine does not rub or scale off. It is cleanly during the long period of its usefulness. Every owner of a building should use it. Ask your paint dealer or druggist for card of this, and write for free copy of our interesting booklet to Alabastine Co., Grand Rapids, Mich.

REJECT THE "JUST AS GOOD."

In offering something he has bought cheap and is trying to sell on Alabastine's demands, he may not realize the danger to himself as well as to you. Beware of all new substitutes. Dealers risk a suit for damages by selling and consumers by using an infringement. Alabastine Co. own the right to make and to sell wall coatings adapted to mix with cold water.
