HUMOROUS.

A Covington man died and they put him on ice, but he awoke in the night and yelled out: "Why don't you put some more wood in that stove!"—*Ex.*

A wag of a gourmand who had made himself ill by feasting on fish, said he embodied the trio of the fiery furnace thus--shad-rack, me-sick and abed-we-go.

Mrs. Keen, of Springfield, declined to allow her daughters to take part in a spelling match because she heard somebody say that knotty words would be given out.

This world would be a sandy desert of lonesomeness if women were not privileged to attend auction sales and pay more for an old bureau than a new chamber set would cost.

A colored preacher remarked: "When God made de fust man he sot him up against de fence to dry." "Who made de fence?" interrupted an eager listener. "Put that man out!" exclaimed the colored preacher, "such questions as dat 'stroys all de th'ology in de world."

The boy who answered the question in geography, "What is the shape of the world?" by answering, "Round like a brick," has grown up into a reckless man, and edits the Fort Scott *Monitor*. On Monday he printed all about the centennial of the battle fought at Lexington Kentucky.—*Chicago Inter-Ocean.*

BEAUTIFULLY ILLUSTRATED.

The SCIENTIFIC AMERICAN, now in its 30th year, enjoys the widest circulation of any weekly newspaper of its kind in the world. A new volume commences January 4, 1875.

Its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical and Scientific Progress of the world.: Descriptions, with beautiful engravings of new inventions, new implements, new processes, and improved industries of all kinds: useful notes, receipts, suggestions, and advice, by practical writers, for workmen and employers, in all the various arts.

The SCIENTIFIC AMERICAN is the cheapest and best illustrated weekly paper published. Every number contains from 10 to 15 original engravings of new machinery and novel inventions.

ENGRAVINGS, illustrating improvements, discoveries and important works, pertaining to civil and mechanical engineering, milling, mining and metallurgy; records of the latest progress in the application of steam, steam engineering, railways, ship building, navigation, telegraphy, telegraph engineering, electricity, magnetism, light and heat.

FARMERS, mechanics, engineers, inventors, manufacturers, chemists., lovers of science, teachers, clergymen, lawyers and people of all professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every family, library, study, office, and counting room; in every reading room, college, academy, or school.

A year's number contains 832 pages and **several hundred engravings.** Thousands of volumes are preserved for binding and reference. The practical receipts are well worth ten times the subscription price. Terms, $3 20 a year by mail, including postage. Discount to clubs. Special circulars and specimens sent free. May be had of news dealers.

PATENTS. In connection with the SCIENTIFIC AMERICAN, Messrs. MUNN & Co. are solicitors of American and Foreign patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms, models of new inventions and sketches examined and advice free. A special notice is made in the SCIENTIFIC AMERICAN of all inventions patented through this agency, with the name and residence of the patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. Send for pamphlet, 110 pages containing laws and full directions for obtaining patents.

A REPRESENTATIVE AND CHAMPION OF AMERICAN ART TASTE.

Prospectus for 1875 ----------Eight Year.

THE ALDINE,

THE ART JOURNAL OF AMERICA,

ISSUED MONTHLY.

"A Magnificent Conception, Wonderfully Carried Out."

THE NECESSITY OF A POPULAR MEdium for the representation of the production of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph—*THE ALDINE.*

THE ALDINE, while issued with all the regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of *THE ALDINE* will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, *THE ALDINE* is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times its cost; and then there is the chromo, beside!*

The national feature of *THE ALDINE* must be taken in no narrow sense. True art is cosmopolitan. While *THE ALDINE* is a strictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of *THE ALDINE,* as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters giving subscribers all the pleasure and instruction obtainable from home or foreign sources.

The artistic illustration of American scenery, original with *THE ALDINE,* is an important feature, and its magnificent plates are of a size appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interspersion of landscape, marine, figure and animal subjects, sustain an unabated interest, impossible where the scope of the work confines the artist too closely to a single style of object. The literature of *THE ALDINE* is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interest of the work.

PREMIUM FOR 1875.

Every subscriber for 1875 receives a beautiful portrait, in oil colors, of the same noble dog whose picture in a former issue attracted so much attention.

"MAN'S UNSELFISH FRIEND,"

will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to the life, that it seems the veritable presence of the animal itself. The Rev. T. DeWitt Talmage tells that his own New Foundland dog (the finest in Brooklyn) barks at it! Although so natural, no one who sees this premium chromo will have the slightest fear of being bitten.

Besides the chromo, every advance subscriber to *THE ALDINE* for 1875 is constituted a member, and entitled to all the privileges of

THE ALDINE ART UNION.

The Union owns the originals of all *THE ALDINE* pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5,000 subscribers, 100 different pieces, valued at over 2,500, are distributed as soon as the series is full, and the awards of each series as made, are to be published in the next succeeding issue of *THE ALDINE.* This feature only applies to subscribers who pay for one year in advance. Full particulars in circular sent on application enclosing a stamp.

TERMS.

One Subscription, entitling THE ALDINE one year, the Chromo and the Art Union,
$6.00 per annum in advance.
(No charge for postage.)

SPECIMEN COPIES OF THE ALDINE, 50 CENTS.

THE ALDINE will hereafter be obtainable only by subscription. There will be no reduced or club rates; cash for subscription must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-simile signature of James Sutton' President.

Canvassers Wanted.

Any person wishing to act permanently as a local canvasser will receive full and prompt information by applying to

APPLETONS'

AMERICAN CYCLOPAEDIA.

New Revised Edition.

Entirely rewritten by the ablest writers on every subject. Printed from new type, and illustrated with Several Thousand Engravings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPÆDIA was completed in 1863, since which time the wide circulation which it has attained in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revision, and to issue a new edition entitled THE AMERICAN CYCLOPÆDIA.

Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an imperative want.

The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occured, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been commenced.

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa.

The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in every one's mouth, and of whose lives every one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their place in permanent and authentic history.

In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish an accurate account of the most recent discoveries in science, of every fresh production in literature, and of the latest inventions in the practical arts, as well as to give succinct and original record of the progress of political and historical events.

The work has been begun after long and careful preliminary labor, and with the most ample resources for carrying on to a successful termination.

None of the original stereotype plates have been used, but every page has been printed on new type, forming in fact a new Cyclopedia, with the same plan and compass as its predecessor, but with a far greater pecuniary expenditure, and with such improvements in its composition as have been suggested by longer experience and enlarged knowledge.

The illustrations which are introduced for the first time in the present edition have been added not for the sake of pictorial effect, but to give greater lucidity and force to the explanations in the text. They embrace all branches of science and of natural history, and depict the most famous and remarkable features of scenery, architecture, and art, as well as the various processes of mechanics and manufactures. Although intended for instruction rather than embellishment, no pains have been spared to insure their artistic excellence; the cost of their execution is enormous, and it is believed they will find a welcome reception as an admirable feature of the Cyclopædia, and worthy of its high character.

This work is sold to Subscribers only, payable on delivery of each volume. It will be completed in sixteen large octavo volumes, each containing about 800 pages, fully illustrated with several thousand Wood Engravings, and with numerous colored Lithographic Maps.

Price and Style of Binding.

In extra Cloth, per vol.,	$5.
In Library Leather, per vol.,	6.
In Half Turkey Morroco, per vol.,	7.
In Half Rusia, extra gilt, per vol.,	8.
In Full Morroco, antique, gilt edges, per vol.,	9
In Full Russia, per vol.,	1

Four volumes now ready. Succeeding volumes, until completion, will be issued once in two months.

* * *Specimen pages of the AMERICAN CYCLOPÆDIA, showing type, illustrations, etc., will be sent gratis, on application.

To the Unfortunate

New Remedies! New Remedies

DR. GIBBON'S

DISPENSARY,

623 Kearney St.
Corner Commercial St
SAN FRANCISCO.

Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphillis in all its forms, Seminal Weakness, Impotency, etc. Skin diseases (of years standing) and Ulcerated Legs, successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearney street, corner of Commercial, San Francisco, where his old patients and those requiring his service may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission, the consequece of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to almost unlimited extent, producing, with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fœtid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained the sufferer should apply immediately either by person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure, Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Cured at Home.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promply forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use.

Persons writing to the Doctor will please state the name of the paper they saw this advertisement in.

By inclosing $10 coin, in a registered letter through the Post Office, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All correspondence strictly confidential.

Addess DR. J. F. GIBBON, Kearney St., San Francisco. Postoffice Box 1,957.
