Fresh California eggs are in light supply and in fair demand, quotable at an advance—26630c P doz.
GREEN FRUITS AND VEGETABLES.—

Rock Soap.

We take pleasure in calling the attention of our readers to the Ventura Rock Soap, the advertisement of which will be found in another column. This article is not a soap in the common acceptation of the word, but a natural production of the earth, that is superior in every respect to any soap yet invented. It is but six months since the Rock Soap Company was organized, yet in that short time the Rock Soap has become very popular wherever it has been used. We have tried it and find it superior to any toilet soap we have ever used. It leaves the skin per fectly fresh and pure, and free from any soapy smeil. It cleanses silver, brass, tin or copper ware, like a charm, and that, too, without scouring, and leaves a beautiful polish. It readily removes from the hands axlegrease or oil of any kind. In short, it combines in one all of the good qualities of a first class soap, metallic polish, grease ex-tractor, and dentifrice, and at less than one-half the usual prices paid for these articles. This may sound extravagant, but this article is really a genuine one and will do all that is claimed for it. Send for a sample and try it and you will be convinced.

"O wad some power the gift to gi'e us,

To see oursel's as ithers see us Behold that pale, emaciated figure, with downcast eye, like some criminal about to meet her fate! See that nervous, distrustful look, as she walks along with a slow and unsteady step. The pink has left her cheeks and the cherry her lips. The once sparkling, dancing eyes are now dull and expressionsurface of that once lovely form? Does she realize her terrible condition? Is she aware of the woeful appearance she makes? Woman, from her very nature, is subject to a catalogue of diseases from which man is en tirely exempt. Many of these maladies are induced by her own carelessness, or through ignorance of the laws of her being. Again many Female Diseases, if properly treated, might be arrested in their course, and thereby prove of short duration. They should not be left to an inexperienced physician who does not understand their nature, and is, therefore, incompetent to treat them. The importance of attending to Female Diseases in their earliest stages cannot be too strongly urged. For, if neglected, they frequently lead to Consumption, Chronic Debility, and oftentimes to Insanity. In all class-es of Female Diseases, Dr. Pierce's Favorite Prescription is without a rival. No medicine has ever surpassed it. In "The People's Common Sense Medical Adviser," of which R. V. Pierce, M. D., of Buffalo, N. Y., is the author and publisher, is an extended treatise on WOMAN AND HER DISEASES. Under this head, the various affections to which woman is incident are carefully considered, accurately portrayed, and a restorative course of treatment suggested. Every woman, as she values her life and health, should possess a copy of this valuable book. If she be diseased, this "Adviser" will show her how she may be restored to health, and also direct her how she may ward off many maladies to which she is constantly being exposed. Let every suffering woman heed this timely advice and see herself as others see her. Price of

RS. H. A. MOORE, THE GREAT SCIENTIFIC HAIR PRODUCER, No. 523 Kearny St., Rooms Nos. 4 & 5. San Francisco.

Mrs. H. A. Moore would announce to ladies and gentlemen who desire the personal adornment of a fine MRS. H. A. MOORE, Mrs. H. A. Moore would announce to ladies and gentlemen who desire the personal adornment of a fine the state of hair, that she has opened parlors for its express treatment. They are emphatically assured she possesses the skill to produce a full flowing crop of hair on all stages of baldness. A few treatments will convince the most skeptical; this is no exaggeration. No mineral or damsging substances used. I have in my parlors photographs of well-known citizens, exhibiting the contrast before and after treatment, which can be seen by those desiring it. No better evidence can be furnished. When they are seen, doubt vanishes. Preparations sent to all parts of the country.
