Prof. Collier has resigned his place at the Grove just at the beginning of the term, just when it would seem impossible to fill his place satisfactorily. We are happy to learn however that it has been arranged that Capt. R. H. Lamson, who resides at the Grove, will take the Mathematics for next year. Capt. Lamson probably has not his superior as a mathematician in the State. He was the first in his class at the U. S. Naval Acad my, and was offered a position as instructor there. He is one of the naval heroes of our recent war and is a christian, a scholar and a gentlemen. Pacific University loses nothing by the resignation of another when at the same time it gives so competent a teacher. The vacation is over and again the Col-
