Send the Stamps.

When you want a copy of a newspaper send the value of it in stamps, then you will not be disappointed. If you are a correspondent or have an advertisement in the paper, you are entitled to a complimentary copy of the paper containing it sent to your postoffice, at the time of the publication; for it estime to hunt up a copy three or six conthe after it is published and time costs money in a printing office, so send enough stamps to pay the publisher for the pape and the time required to hant it up. Another point: When you write to a man for your own fuformation and benefit, and which you are satisfied would be of no interest or benefit to him, inclose stamps to pay both pastage and the value of the writing mate-rial used, and you will, very likely, get the information desired.

Many of our young men go to Portland to get new suits of clothes, thinking that they connot get first-class gools of madern styles in this county, and they often get out-witted by the shrewd Portland trader, and pay nearly two prices for their clothes, besides traveling expenses. Now Mr. A.
