

THE DEMOCRATIC TIMES.

SATURDAY MORNING, MAY 6, 1871. E. D. FOUDEAY, Business Agent.

OFFICIAL PAPER FOR JACKSON COUNTY.

The Truculent Herald.

The Herald has had a spat with every democratic newspaper in the State, we believe, and has invariably come out of the fight second best. It is a genuine Bourbon in one respect—it never learns anything.

New Line of Stages.

It is rumored that Ben Holladay designs putting on a line of six horse stages between the terminus of the railroad in California and Oregon, so as to transport passengers from Portland to San Francisco in four days.

THE FAIR TRIAL.—The trial of Mrs. Fair, for the murder of Mr. A. P. Crittendon, after lasting twenty six days, has resulted in a conviction of murder in the first degree.

PERSONAL.—Judge Steele, of Yreka, has been sojourning with us this week.

Asher F. Wall, ex Marshal, has been in town during the week. We learn he is soon to take a position as mail agent on the railroad.

We received a call this week from Capt. J. M. Keeler, of New York, formerly of Oregon. The Captain is on his way north, on a visit to his old home.

The Plaineater and Esquire come to us this week "on the half shell" or sheet. Cause, the non-arrival of their respective stacks of paper. Our correspondents will accept our condolences.

Chronicles of Democracy.

From the N. Y. Democrat we glean the following interesting and truthful statistics of the parties and factions that have for nearly a century past opposed the Democracy: 1775—Loyalists, or followers of King George, called Tories.

1779—Black Caskaders. 1808—Anti-person Improvement Men. 1811—British Bank Men or Party.

1812—Peace Party and Submissionists. 1813—Blue Lights. 1814—Hartford Conventionists.

1815—Federalists. 1816—National Republicans. 1823—Anti-Masons. 1824—Anti Masonic Organization.

1837—Independent Democratic Whigs. 1838—Abolitionists. 1839—Log Cabin, Hard Cider, Democratic, Republican, Abolition Whigs.

1843—Native American Whigs. 1844—Cotton Party, or Anti American Whigs. 1845—The Regular Whig Party.

Emigration on the Way.

Yesterday Col. I. R. Moore of Salem called at the BULLETIN office. He returned from the Idaho to a visit to California.

So far as wheat crops in California, as concerned C. J. Moore's statements are fully corroborated by the newspaper reports. In portions of the State—in the small valleys, and most favored limited districts—a partial crop will probably be harvested.

Because of this generally deplorable condition of the agricultural regions hundreds of farmers have come to the conclusion to move to some State more reliable in the growth of cereals, and it is to Oregon that

Col. Moore's company is going to. The company, consisting of C. J. Moore, Indian Jim and a fellow who gave himself up for being a deserter, took leave of Sheriff Warner's headquarters. They dug a hole in the wall sufficiently large to allow themselves to pass out, and they showed a great deal of indignation if they would have remarked enough of the track to allow them to walk out as men.

Ex Governor Perry, of South Carolina, in a letter to Gov. Scott, the present sealoway Governor, gives a sad view of the affairs of the State; he says "the condition of South Carolina is indeed a most deplorable one, and calls aloud for the sympathy of the good and virtuous everywhere."

Col. W. W. Chapman passed through town last week. He informed us that Senator Keely and Hon. J. H. Slater would return from Washington to Oregon soon.

State News.

We learn from the Statesman that Capt. J. F. Miller has sold his 3,000 acres of land in Yamhill county, to S. G. Reed, of Port

The Mercury of the 24th says that yesterday John Shaw, William Wilson and Sterling Saunders and Will Cook, a Chinaman, who were convicted in Umatilla County at the May Term, 1870, of the Circuit Court, of the crime of larceny, were discharged from prison.

We are informed that Frank Fletcher, who until recently was engaged as mail carrier between Roseburg and Randolph, on his last trip received nearly two hundred dollars from Chas. Leinhard and other parties on the Coquille, to deliver to parties in this valley.

The Board of Commissioners at Salem has given notice that application for State, School and University Land must be accompanied with one third cash payment and all applications for the above lands now on file in the office of the Commissioners must be made

Ex-Gov. Curry has received from his agent in California, says the Herald, a letter from which we are allowed to make the following extract:

"An association that means business, wants to purchase not less than nine sections of land, for farms, with good wood and water, to be paid for, one fourth down, and balance in three equal instalments annually.

It is reported that Ben H. Haddock's visit to San Francisco is for the purpose of buying

is out of debt, and has a balance in the treasury of \$3,000. Three years ago he went into power in that county with a heavy debt hanging over him.

There are about two hundred and fifty men now on Germanon creek. The distance from Walla Walla to Sola creek is four hundred and fifty miles.

NEW, TO-DAY.

There are about two hundred and fifty men now on Germanon creek. The distance from Walla Walla to Sola creek is four hundred and fifty miles.

The weather for the past week has been exceedingly pleasant. From all directions of our own county and that of Grant we have received cheering news of the condition of the growing grain and of the excellent condition of the grass.

The stock raisers have an abundance of nutritious grass for their herds. The farmers see their grain growing finely. Immigrants are daily flocking in upon us accompanied with their herds, increasing our wealth and population.

EDIT & BULLETIN: I use in your paper an account of a big four-year-old steer in California.

It is reported that Ben H. Haddock's visit to San Francisco is for the purpose of buying

is out of debt, and has a balance in the treasury of \$3,000.
