A CARD.—Having been called to see our late Judge Shipley on the evening of his death, I pronounced his disease congestive chills, and not pneumonia, as reported by others. This sudden death has caused his numerous friends to ask what disease he died of, and has induced me to publish this card so that the public may know the truth. Dr. A. B. OVERBECK.

RETURNED.—Messrs. Caughlin, Alcorn, Klippel and Rea have returned from their hunting tour looking as hearty as bucks. They report the country on the top of the Siskiyou mountains, in the vicinity of the heads of Applegate, Elliott's creek and Wagner's creek, as an earthly paradise—abundance of delicious water, game and grouse in inexhaustible quantities. The country is a splendid cattle range during the summer.

EVERY seven years, physiologists say, the human body is entirely changed and renewed. Every moment of our lives, every part of our bodies is wearing out and is being built up anew of fresh matter. This work is accomplished by the blood, which goes through every part. But if the blood becomes weak, or vitiated, and does not perform its work properly, the system is actually poisoned by the worn out matter, clogging the vital organs, instead of leaving the body. For dyspepsia, biliousness, kidney, skin and liver troubles, fevers, and all diseases arising from vitiated blood, DR. WALKER'S CALIFORNIA VINEGAR BITTERS are a sovereign remedy.

DESERVED.—We are informed that the expressman carrying the mail and express between this city and Fort Klammath deserted on last Saturday night. He had arrived within seven miles of the post when he sent in the express by another man and betook himself to parts unknown. When he sent in the express he forgot to send in the horse he was riding, which belongs to the United States. He rode it off in a fit of absence of mind. This man has been in the habit of circulating calumnies derogatory to the characters of the officers at the post, and, being discovered, anticipated severe punishment by a sudden leave without absence. We learn that several of the cavalry and infantry stationed at the Fort have recently deserted.

BOARD OF COUNTY COMMISSIONERS

Synopsis of Proceedings of August Session, 1871.

Report received of the viewers and surveyors on proposed road crossing Rogue river near the mouth of Evan's creek, and after fully considering the question as to the public utility of said proposed road, the Board arrived at the conclusion that it would not be of sufficient importance to the public to justify the Court in establishing and keeping said proposed road in condition for safe and speedy travel across said stream; therefore it was considered by the Court that said proposed road be not established.

Report of the viewers on examination of Rock Point bridge was received and ordered spread upon the journal. The viewers reported said bridge not safe for public travel over the same, without the necessary repairs indicated in said report; and it was ordered that so much of the county road leading from Jacksonville to Canyonville, by way of said bridge, commencing at or near the thirteenth mile-post on said road, and terminating near White & Haymond's store, be let for a term of ten years, with the right to collect tolls thereon, to the lowest responsible bidder for the same.

The petition of "Wm. Yack," claiming to be agent for the China witnesses in the prosecution of Loy Shing, on the charge of murder, asking that fees be allowed said witnesses, was referred to the Prosecuting Attorney for examination, to be by him reported to the next term of this Court, as to correctness or incorrectness of the claims of said witnesses.

The petition of Wm. Songer, Supervisor of Road District No. 1, asking for an appropriation from the county of five hundred dollars, to be expended under the direction of said Supervisor, to put in repair the county road leading from this valley via Soda Springs to Brownson, Link river, a distance of twenty-five miles, was deferred for action until a subsequent meeting of the Board.

Consideration of the petition and report of P. Fehely, late Street Commissioner for Jacksonville, asking that certain sums of moneys, expended by said Commissioner on the public roads, be referred to him, was deferred until a subsequent meeting, for the reason that the Board did not fully understand the petition and report.

It was ordered by the Board that the building of two bridges—one across Little Butte creek, near the residence of Peter Seinou, and the other across Evans Creek, on the stage road—be let to the lowest responsible bidder, and that sealed proposals, for the building of said bridges, will be received at the County Clerk's office until 12 o'clock, M., September 17th, 1871, the bridges to be built according to plans and specifications on file in the Clerk's office.

On the petition of W. H. McDaniels and others for location of a county road commencing at the intersection of California and Third streets, in Jacksonville, and running on a line of Third street to intersect the sterling road about ten chains south of the south line of the corporation of Jacksonville, was considered, and ordered that James A. Cardwell, George Rattie, and James Wilson, be appointed viewers, and J. S. Howard, or his deputy, be appointed surveyors of said road, to report in writing at the September term of this Court.

Licenses to retail spirituous liquors were granted for six months to Jay Beach, L. J. White and A. Handy, on the payment of \$50 each. Claims to the amount of one thousand dollars was allowed and audited.

DEATH OF HON. T. H. B. SHIPLEY.—On last Wednesday this sad announcement fell unexpectedly upon our community. From an illness of a few weeks previous he was deemed convalescent, but was taken suddenly ill on Tuesday evening and breathed his last about one o'clock the next morning.

Judge Shipley was a native of Maryland. He came to Oregon in the Spring of 1861, and made his home in this county, and has since occupied prominent positions, having been elected to the office of School Superintendent in 1868, and at the subsequent election of 1870, he was elected to the responsible position of County Judge, which he filled at the time of his death. His course while here had been marked by the varied energy and perseverance, and he was proving himself a man of rare business tact, which, with his felicitous domestic relations, a prosperous and happy career seemed to await him. But stern death has taken him away in the midst of his appreciated toils, from an amiable wife and two interesting little children. In his death society has lost a good member, and the county a useful and an esteemed citizen. To the stricken ones we tender our sincerest sympathies. Peace to his ashes, and rest to his soul.

WHAT A DIFFERENCE.—Yes, what a difference! now and when the pioneers kept moving westward, improvements and science following in their wake. See the contrasts—from the sickle to improved reapers, flails compared to threshing machines, mud wagons to railroads, and our thoughts by lightning flash from one part of the globe to the other. In our healing arts we are advancing with the same rapidity; calomel compared to

Vegetable substances—the one a poison to the system while the other performs it function without any inconvenience, leaving the patient cured as if by magic. The Liver King—a vegetable, palatable remedy—is now being introduced and is rapidly taking the place of pills and nauseating medicines. It is, without doubt, one of the most valuable family remedies of our age.

PAIN KILLER advertisement featuring an illustration of a bottle and the text '1840 1870'.

The "PAIN KILLER" may justly be styled the greatest medicine of the world, for there is no region of the globe into which it has not found its way, and been largely used and highly prized. Moreover, there is no climate to which it has not proved to be well adapted for the cure of a considerable variety of diseases; it is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for fevers, diarrhoea and bowel complaints generally. It is admirably suited for every race of men on the face of the globe.

It is a very significant fact that notwithstanding the long period of years that the "Pain Killer" has been before the world, it has not lost one whit of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made so large, as it is to-day.

Another significant fact is, that nowhere has the Pain Killer ever been in higher repute, or been more generally used by families and individuals, than it has been here at home, where it was first discovered and introduced. That the Pain Killer will continue to be, what we have styled it, THE GREAT MEDICINE OF THE WORLD, there cannot be the shadow of a doubt.—Providence Advertiser.
