

The Democratic Times.

SATURDAY MORNING, SEPTEMBER 9, 1871.

Why are old maids the most charming of all people? Because they are matchless.

A GRIM INVENTION.—The model of a gallows was sent to the Patent Office from Indiana the other day.

The destiny of any nation at any given time depends on the opinions of its young men under five and twenty.—Goethe.

IRON TELEGRAPH POLES.—Professor Pentz, of New York, has invented iron tubes in sections like a jointed fishing pole to serve the purpose of telegraph poles. It is claimed that the first cost but a trifle more than poles of wood, and their durability is greatly beyond wood.

"How easy these cars ride!" observed a rural traveler on the New York and New Haven road; "what kind of springs do they use?" "Saratoga Springs," replied his facetious companion. "I have heard of them," rejoined the rural traveler in a gratified manner.

A NATURAL MISAKE.—It is said that the reason why Grant wanted Sumner out was because the latter was Chairman of Foreign Relations. The President thought he had relations enough to "go around"—what was the use of introducing foreign ones. He was right.

MILITARY ADVICE.—"Never be critical upon the ladies," was the maxim of an old Irish peer, remarkable for his homage to the sex; "the only way in the world that a true gentleman ever will attempt to look at the faults of a pretty woman is to shut his eyes."

NOT FOR DEPARTURE.—A late Philadelphia paper says:

The Pennsylvania Democracy are not so entirely harmonious as may be imagined. The Chester County Committee is still harping on a white man's Government, and utterly refuse to take any stock in the "New Departure."

AMONG THE LITERARY CURIOSITIES in a library at Southampton, England, is an old Bible, known as the "Bug Bible," printed by John Daye, 1551, with prologue by Tindall. It derives its name from the peculiar rendering of the fifth verse in Psalm 91, which reads thus: "So that thou shalt not need to be afraid for any bugs by night." This edition is scarce, and rarely finds its way into the book market.

AN ARKANSAS TRAVELER.—The Little Rock Gazette of Aug. 14th says:

Mr. John Davidson, at 12 o'clock last night, completed the difficult task, commenced on Tuesday evening, of walking one hundred hours, with an intermission of only thirty-eight minutes every twenty-four hours. He also carried an anvil weighing one hundred and eleven pounds every twelve hours, and walked backward thirty minutes every twelve hours.

THE WAY THE MONEY GOES.—The Washington Patriot says that all important papers requiring the signature of the President, must be sent to Long Branch by a special messenger, who is allowed ten cents mileage both ways, for going and returning, hotel bills and other expenses. It is estimated that every time the President signs his name by the seashore to a commission, order, bigamy pardon or other paper, it costs the taxpayers about seventy-five or a hundred dollars, according to the allowance which may be made to the messenger.

"MARTHA" said a lady to a colored chambermaid, "That's the third silk dress you have worn since you came to me; pray how many do you own?" "Only seven, missis; but I've savin' my wages to buy another!" "Seven! what use are seven silk dresses to you? why, I don't own so many as that!" "Spect not, missis," said the smiling darkey; "you doesn't need 'em so much as I does. You see, you quality folks everybody knows is quality; but we better-most kind of cullud pussions has to dress smart to distinguish ourselves from common niggers!"

NOT THE LADY.—A well known minister, walking along the streets a few days since, met a lady for whom he had performed the marriage service. Desiring to renew the acquaintance, (for the lady had interested him greatly at the time) he accosted her with the remark: "My dear friend, did I not have the pleasure of marrying you a few days since, sir?" "I was married a few days ago, sir," "Yes, I thought I was not mistaken. I married you."

"Indeed! Well, I thought my husband was a much younger man than you are; but I have not seen enough of him to make his acquaintance thoroughly. By the way, my dear, my chignon is getting shabby; please give me some money to buy a waterfall."

Evidently this was more than the minister bargained for, and with a hasty bow, accompanied by the remark: "No, you are not the lady—I'm mistaken," he took his leave.—N. O. Picayune.

SOME years ago there lived in the back part of Dutchess county, N. Y., a rich old farmer, who was a decided reprobate, and like many other sinners, very much afraid of death. At one time his only son, Ezekiel, was taken ill with small pox. The old man was very much afraid of the contagion, and could not be induced to visit his suffering heir. At length Ezekiel was pronounced to be in an almost hopeless condition, and the old man was informed that if he ever wished to speak with him again in this world, he must avail himself immediately of this opportunity. In a chamber on the ground floor of the wing of the house fronting the garden, lay the sick man, covered with pustules, and blind from swelling of the eyelids. The father, trembling with fear, went out from the kitchen into the garden, and after finding his way through the usual number of hollyhocks and marigolds, at length reached the open window of the sick room. There, crouching on the ground, to keep from the contagion, he called out, "Zeke!" "What father?" responded the sufferer. "Zeke, they say you're right bad, and there is no hopes; try and pray a little, 'cause, if yer get well it won't hurt yer, and if you die it will be a good thing."
