

The Democratic Times.

Official Paper for Jackson & Josephine Counties.

CHARLES WICKELL, EDITOR.

FRIDAY, AUGUST 21, 1874.

OUR COUNTRY AND ITS PRODUCTS.

It appears by the report of Samuel B. Ruggles, on the agricultural statistics of the United States, says the Sacramento Union, that the whole acreage of the States and Territories is one thousand eight hundred and ninety-seven millions five hundred and two hundred and twenty (1,897,055,220) acres.

Farmers will scarcely credit the fact that the threshing of grain in Umpqua Valley only costs three cents per bushel. This is the price for threshing wheat, oats and barley.

A company has been organized which proposes to build an oil mill on the farm of J. W. Nesmith, in Polk county. The mill will be ready to operate on next year's crop.

About a dozen Chinamen are mining on the South Umpqua, twelve miles above Roseburg. They are mining in the bed of the river, having turned the stream from its channel. It is said that they are making fair wages.

The work of repainting and otherwise improving the appearance of the Legislative Halls and the offices of the Secretary of State and Treasurer, preparatory to the meeting of the Legislature, is progressing and will soon be completed.

Articles of incorporation have been filed in the Secretary of State's office for the "Alden Fruit Preserving Company of Salem." A. A. McCully, O. Dickenson, D. McCully, P. S. Knight and O. J. Carr, incorporators. Capital stock, \$6,000.

A man by the name of Murdock, living at Martin's Point, Clackamas county, was killed by his grown-up son last Friday. Murdock had been drinking freely and was chasing his wife, intent on doing her bodily harm, when the son interfered and struck his father on the head with a club, killing him instantly. The father is said to have been a desperate character.

Beecher has gone to his farm to stay till October. Moulton is at Portland, Maine.

An American vessel has been caught violating the neutrality laws by landing guns for the Carlists.

It is confirmed that all the Great Powers of Europe have recognized the Republic of Spain, save Russia, not yet heard from.

Russia seems to have some hostile intentions against China, and troops are being concentrated on the frontier for the purpose of invading China.

By telegraph we learn that the grasshoppers have eaten nearly everything in northern and southern Kansas. In Nebraska the corn crop is entirely destroyed.

A trotting race came off at Driving Park, Buffalo, N. Y., best three in five, which was won by Lulu in three straight heats—the last heat was made in 2:16 1/2. This is said to be the fastest third heat ever trotted in a race.

Marshal Bazaine has escaped from the island of St. Marguerite, where he was banished by the government of France for the term of his natural life, for surrendering the fortress of Metz to the Germans during the Franco-Prussian war.

Beecher's Defense—End Theodore.

Mr. Beecher's defense, says the Statesman, has been telegraphed in full to San Francisco, and about half of it to Portland. It is far too long to be even tolerably condensed into what limited space we have available. The argument is of course a very able one, and goes far into details of his relations with the Tilton family. The burden of the whole is that Theodore was a very bad boy; that he fell from grace, got to running with female free-lovers, lost his situation and got into a very bad way. Beecher labored with him and prayed over him, and finally advised the heartless scoundrel Bowen to dismiss him from the Independent and Christian Union newspapers. Then, perceiving the distress he had wrought in Tilton's family, the rich man began to dissolve and melt into compassion, and while in that waxy condition wrote certain letters, and made certain remorseful confessions, which have been misconstrued and perverted.

Mr. Beecher does not meet any of Tilton's charges, thus far, except in a general denial, and he is much more disposed to snivel for public sympathy than we had expected from a person of his supposed manhood. We will hope that the last part of his manifesto may be more conclusive and convincing; but as far as we have had a chance to read, he is still far down in the Valley of Humiliation and in fact, "in the belly of hell."

A Washington correspondent figures up the number of employes now in the service of the Government at 125,000. This does not include those employed in the army and navy. No wonder the producing and laboring men complain of high taxes and hard times with 125,000 officials fastened like leeches upon them, absorbing their substance, and eating up their very existence.

PACIFIC COAST NEWS.

Salem is going to have a National Bank. Perhaps.

The vegetable garden at the Penitentiary, near Salem, is said to be the best in the State.

Henry P. Ankeny, the largest cheese maker in Marion county and Oregon, is now milking 135 cows and making 200 pounds of cheese daily.

THE LAST CONCERT POSTPONED.

The announcement of the postponement of the Last Gift Concert of the Public Library of Kentucky will not surprise the public. In Governor Bramlette's card, published below, he gives reasons for it which will be accepted without question by every one. The management in this instance, consulting the interests of ticket holders and those desiring to become ticket holders, have not waited until the last day to make this announcement, but just as soon as they became satisfied of the necessity of this postponement, have promptly made the announcement. It is unnecessary to review the causes which have necessitated this action, as they are fully recited in Governor Bramlette's card. The promptness and frankness with which the public have been made aware of the intention of the manager will meet with the hearty commendation of every one, and excite such a new interest and confidence in the scheme and the ability of the manager to perform what he promises, that there can be no doubt that on the day specified the last concert will be a full one.

The announcement of the postponement of the Fifth and Last Concert of the Public Library of Kentucky to the 30th November, I am satisfied will surprise few and disappoint none of the friends and patrons of the enterprise; indeed, any other course would create dissatisfaction. With a precedent of a postponement of each of the four concerts which have already been given, the public have very naturally and reasonably expected that in this, by far the largest scheme of the series and the largest ever offered to the world, the same course would be followed; and there are thousands all over the country who are only waiting for the setting of a certain fixed day for the drawing before sending in their orders. The sales of tickets to this date have been highly satisfactory, and a large drawing might be had on the 31st July; but feeling assured that a short postponement would enable us to close out the remainder of the tickets and make the drawing a full one, we have adopted the course which has evidently been anticipated, and which most eventuate most satisfactory for all.

Now that the day of the drawing is absolutely determined, there remains no further occasion for delay; and I would urge the friends of the enterprise, who intend to purchase tickets, to send in their orders, as I will tax my office to its utmost capacity to accomplish all that is to be done in the short time which remains for the sale of tickets.

At Rochester, N. Y., on Wednesday, the 12th inst., Goldsmith Maid trotted a second heat in a race for all, in the wonderful time of 2:14 1/2; beating her prior best time, made at Buffalo on the 7th instant (2:15 1/2), three-quarters of a second. It is hard to tell how fast she can go.

For the very best Photographs, go to Bradley & Ruslon's Gallery with an ALBUM, 429 Montgomery Street, San Francisco.
