

The Democratic Times.

FRIDAY, AUGUST 21, 1874.

"LIMBURGER."

On a tree there sat a crow,
In his bill a chunk of cheese—
On the ground a fox, below,
Said, "Some music, if you please—
You are beautiful of wing,
And I bet that you can sing."

Cheered by flattery, the crow
Sang, and dropped the cheese below—
Then the cunning fox did freeze
To the fallen chunk of cheese,
And he calmly lugged it off,
And he scoffed the song with scoff.

MORAL.

When they put you on the back,
When they say that you're the one—
When they say they're on the track,
"And had been obliged to run"—
When their compliments denote
They are going for your vote,
You can do just as you please,
But—you'd better watch the cheese.

TRIFLES.

The tallest man is he who rises latest,
because he lays longest.

Colorado calls for more marriageable women.
It has scarcely a single one.

The police are after the boy who put this sign on a young ladies' seminary—
"Domestic Sewing Machines inside."

The best way of committing suicide
and of revenging yourself on your neighbor at the same time, is to jump down his well.

It is estimated that in the United States there are 26 counties and 245 towns named after the great and good father of his country.

A New York man has christened his daughter Glycerine. He says it will be easy to prefix nitro if her temper resembles her mother's.

Let's wife wouldn't have looked back, but a woman with a new dress passed her and she wanted to see if the back breadth was pulled.

When a wife is detected showing unusual affection for her husband, it may be fairly expected that she will appear before long in a new bonnet.

It is rather remarkable that while several thousand feet are required to make one rood, a single foot, properly applied, is sufficient to make one civil.

"What becomes of dogs when they die?" was what a juvenile in Boston asked his pa. "They go to the happy land of canine," his parent quickly replied.

The Jones, charged with stealing two ducks, said the seed 'em running round like dey was loss. I tuck 'em up to keep 'em from loosing dey selves."

Dr. Cuyler wants all young ladies to band together and say: "No lips shall touch my lips that have touched a bottle." Rather rough this on the fellows that were brought up by hand.

"Murder is a very serious thing, sir," said an Arkansas judge to a convicted prisoner. "It is next to stealing a horse or a mule, sir, and I shall send you to the State prison for six years, sir."

A Hartford man keeps a spade close by his kitchen door, and whenever a tramp comes along and begs for dinner he is requested to earn it by digging four feet square in the garden; but the tramp invariably refuses to pay this price.

A Kentuckian has killed himself at the early age of ninety by drinking a pint of whisky daily for the brief period of thirty years, and the temperance press points to his untimely end as an illustration of how swiftly retribution follows a vicious course.

A man who was seen coming out of a newspaper office with his nose split open, one eye gouged out, and an ear chewed off, explained to a policeman that he was not a subscriber to the paper—he had simply entered the office to ascertain if the editor was in. "And he was in," he mournfully added.

A WRITER in the Chicago Tribune holds that the tails of comets have no actual existence, that no more tail is attached to them than there is to the moon or any planet. The production of a tail is thus described: "The comet being a body of atmosphere, a transparent globe, the rays of the sun, striking it, instead of being absorbed or reflected, pass right on through it. By the friction thus undergone they become heated, and consequently produce light and become visible. In this heated condition these rays leave the comet and pass off into space, remaining visible so long as they retain the heat, and thus forming the so-called comet's tail—the surface of the comet being convex, which turns the rays towards a focus, thus causing the frequent fan-shaped tails."

THE UNITED STATES.—The United States commenced their existence under circumstances wholly novel and unexampled in the history of nations. They commenced with civilization, with learning, with science, with constitutions of free government, and with that best gift of God to man—the Christian religion. Their population now exceeds that of England; in arts and sciences our people are very little behind the most enlightened people on the earth—in some respects we have no superiors; and our language, within two centuries, will be spoken by two-thirds of the inhabitants of the globe.

The Law of Newspapers.

1. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.
2. If any subscribers order the discontinuance of their newspapers, the publisher may continue to send them until all arrears are paid.
3. If subscribers neglect or refuse to take their newspapers from the offices to which they are directed, the law holds them responsible until they have settled the bills, and ordered them discontinued.
4. If subscribers remove to other places without informing the publisher, and the newspapers are sent to the former direction, they are held responsible.
5. The courts have decided that refusing to take newspapers from the office, or removing and leaving them uncollected, is *prima facie* evidence of intentional fraud.
6. The postmaster who neglects to give the local notice of the neglect of a person to take from the office the newspapers addressed to him, is liable to the publisher for the subscription price.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable

preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Walker's Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair. Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Tennessee, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence on these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Congestion, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blisters, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurf, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
