Geo. P. Rowell & Co., New York. S. M. Pittinger & Co., New York. L. P. Fisher, San Francisco. Thos. Boyce, San Francisco. Rowell & Chesman, San Francisco. Dan. L. Green, Josephine County. Chas. Hughes, Korbville. Ben. Haymond, Rock Point.

RELIGIOUS DIRECTORY.

M. E. Church, Religious services every Sunday, at the usual hours, by the Reverends J. R. N. Bell, J. S. McCain and M. A. Williams, alternately. Catholic Church, Divine Services every Sunday, at the usual hour, by Rev. Father Blanchett. M. E. Sunday School, Regular meetings every Sunday afternoon at 2 o'clock. Catholic Sunday School, Regular meetings every Sunday afternoon, at two o'clock.

P. O. REGISTER AND TRAVELER'S GUIDE.

Stages leave Jacksonville as follows: For Rock Point, Grant's Pass and Roseburg, every day at 8 a. m. Mail closes at 7:30 p. m. For Phoenix, Ashland, Yreka and Redding, California, every day at 10:30 a. m. Mail closes at 10 a. m. For Applegate, Kerbyville, Waldo and Crescent City, every Monday and Thursday morning at 4 o'clock. Mail closes at 3 p. m. the preceding evening. The mail for Central Point, Table Rock, Eagle Point, Brownsborough and Sam's Valley, leaves every Friday morning; closes the preceding evening. The mail for Linkville, Hot Springs, Yainax and Lake City, leaves Ashland every Monday morning. For Linkville every Monday and Thursday mornings. Money Order Office open from 9 a. m. to 5 p. m. Office Hours—From 7 a. m. to 7 p. m.; Sundays, 30 minutes after arrival of stages. Mail matter must be in on time or it will not go. MAX MILLER, P. M.

DISSOLVED.—The firm of Brown Bros., at Brownsville, has been dissolved. See notice elsewhere.

APPOINTMENT.—Governor Grover has commissioned Robert Pleasant, of Goose Lake Valley, as Surveyor of Lake county, vice O. C. Applegate resigned.

STOCK.—From James Miller of Butte Creek we learn that stock is looking bad, owing to the severity of the late storms. Nearly, if not all, needs feeding at present.

ADJUSTMENT OF CLAIMS.—A Washington correspondent says that Hon. J. W. Nesmith has introduced a bill to adjust the claims of the owners of lands within the limits of the Klamath Reservation.

JOCKEY CLUB.—At its last meeting, the Jockey Club elected Alex. Martin as President, and Sol. Sachs as Secretary. The Club adjourned, subject to the call of the President, without adopting the constitution and by-laws.

ENDORSEMENT.—The Jackson County Grange Council endorsed the call of Elder Martin Peterson, in his communication elsewhere, for a meeting in regard to the Galice Creek wagon road at the Court House, in Jacksonville, on February 20th.

A SUCCESSFUL INSTITUTION.—The Sisters' School is at present one of the most successful institutions of education that have ever been conducted here. The third term opened last week under more auspicious circumstances than ever. The attendance numbers over forty pupils.

RELIGIOUS NOTICE.—The second quarterly meeting for the present Conference year of Jacksonville Circuit, M. E. Church South, will be held at Phoenix, embracing the 13th and 14th of February. All the official members of the Church are requested to be present, as business of importance will be submitted to the Conference. J. R. N. BELL, Preacher in charge.

WAGON ROAD TO GALICE CREEK.—Now that the quartz discoveries at Galice Creek are likely to prove rich, measures should at once be taken to build a wagon road from this Valley to these mines. Such an enterprise would give our farmers a ready market for their produce, while many other incalculable benefits would accrue to our people in general. There are prospects of a road being built from Grave Creek to these mines, which would doubtless be of utility and convenience to that section of country; but, at the same time it would enable the citizens of Douglas county to compete with us in supplying the market at Galice Creek and be of little account as far as we are concerned. This is a matter of great importance, which should engross the attention of our citizens. We have no time to lose in the matter, for delay is dangerous. A call has been made for a meeting at the Court House, in this place, on February 20th, 1875, and everybody should attend and see what can be done in the premises.

LOCAL BREVITIES.

John Lanterman has gone to Grave Creek. Arthur Langell, of Langell Valley, is in town. Old papers, in quantities to suit, for sale at this office. Visiting cards neatly printed at this office at reasonable rates. Lent will commence next Thursday, and continue forty days. Wm. Bybee has so far recovered as to be able to be out again. The first one of the stall-fed cattle killed by John Orth weighed 1,607 gross. The Governor has appointed E. B. Mulholland, of Goose Lake, a Notary Public. St. Valentine's Day and Chinese New Year are the next events on the docket. County Court was in session this week. The proceedings will appear in our next. The Jacksonville Turnverein will in a few days reorganize for active operation. The prospects are excellent for quite a town springing up at Galice Creek this Summer. By request, we shall next week publish the Constitution of the Jackson County Grange Council. The mail service between Waldo and Crescent City will be semi-weekly until June 30, 1875. Hon. E. C. Mason not having qualified as Surveyor, J. S. Howard still holds that position. The sale of real estate belonging to John Thurber, Sr., deceased, has again been postponed until to-morrow. W. A. Childers, of Sam's Valley, was in town this week. He will enter upon his duties as County Assessor next month. A soiree was given by the Jacksonville String Band at Veit's Hall last Thursday evening. A fair attendance was present. John Shook and others are putting up a saw mill at the Big Springs, at the head of Lost River, about 20 miles from Linkville. The citizens of Applegate will doubtless have a regularly established Post Office again, as we learn John Pearson will act as Postmaster. There has been quite a draft made on the County Treasury since Treasurer Kuhl gave notice that protested warrants would be paid. If any of our town subscribers do not receive the TIMES this week, they will please apprise us of the fact. We have a new carrier, who may miss some of them. Our Rock Point subscribers can hand the amounts due Hull & Nickell or the TIMES office to Ben. Haymond, Esq., who is authorized to collect all such accounts and receipt for the same. Chinese New Year is at hand, and the Celestials are doubtless preparing to prosecute their orgies in most approved style. Chicken roasts will bear extra watching for some time to come. An alarm of fire was sounded yesterday morning. The ceiling of Wm. Chambers' dwelling had caught afire from the stove-pipe becoming unjointed, but was extinguished without difficulty. The new law concerning Road Supervisors not having gone into effect at the January session of the County Court, several of the Supervisors did not report until the February term, as under the old law. NOTICE.—All persons interested are requested to meet at the house of Chas. Sanders, on Rogue River, to amend the mining laws of that district. Also to take measures to build a wagon road from the valley to that place and to transact any other business that may properly come before the meeting. Meeting to be held on February 26th, 1875, at 10 o'clock A. M. A full attendance is requested. MANY CITIZENS. Galice Creek, Josephine Co., Jan 28, 1875. COLD.—Lieut. Hoyle of Fort Klamath, who was on a visit to Yreka the other day, stated that during the preceding cold weather the mercury in the thermometer at the Fort had gone down to 24 degrees below zero. There was at the time about three feet of snow on the ground. IMPROVING.—The Jacksonville TIMES gives constant indications of progress, snap, vim, and "git up," and is now one of our most valuable and interesting exchanges. It is Democratic from center to circumference.—Athens Democrat.

MINING NEWS.

James S. Howard has gone to Galice Creek on a surveying tour. Claims are yet being taken up on the Galice Creek ledges at a lively rate. M. Caton returned from Grave Creek last Saturday. He exhibits some fine specimens of cinnabar as the result of his trip. We learn that the Western Union Telegraph Company intend building a branch line to the Galice Creek mines as soon as possible. There is much confidence felt in the Galice Creek mines, if we judge from the numerous enterprises concerning them that are on foot. A late assay of quartz taken from the claim of Rockfellow & Co., on the east side of the Yank ledge, gives \$47 per ton in gold and silver. We hear of several former residents of this place intending to come back and try their luck among us again, now that the mines promise so well. Several parties left here this week for the mines at Galice Creek, for the purpose of locating claims and looking after prospects for the future in general. Some of the ledges found near Willow Springs in former days are again attracting attention. A California capitalist is reported to have purchased one of them. The test mill question seems to be severely let alone. We are in hopes it will receive favor at the hands of our citizens, as it would be of much importance to this section. Thos. B. Kent showed us some fine-looking cinnabar, taken from a ledge lately discovered in Table Rock, precinct. It is one of the richest specimens yet exhibited, and we are informed there is a well-defined ledge of it. Parties just from Galice Creek express the opinion that the "Chieftain," a ledge lately discovered by D. Courtney, is likely to prove richer than the other quartz mines found. It is a few miles distant from the scene of the other discoveries and about 100 feet in width. A gentleman of this place, well versed in mineralogy, gives the information that in nearly every instance the more copper stains found in quartz the richer it is, while rock having none of these stains is generally worthless. This may be of value to many of those now prospecting. Wm. Kahler brought in some rock taken from his farm near Grants' Pass, which is rich in some metal resembling platinum. He reports considerable excitement existing in that section regarding the discovery of two quartz ledges on Louse creek, supposed to be very rich in gold. Several claims have been taken up on them.

Ashtand Notes. The average Ashtand hoodlum sports a cigar and "rattle-bones." Ashtand Lodge No. 145, I. O. O. F., has 37 members, and is constantly increasing. The dancing school seems all O. K., but the Factory is temporarily "wool-gathered." The Town Council is "grinding slow but exceedingly fine." Five ordinances are the last. The stock-raisers report that the stock among the hills is fast going to the Eastern Oregon market. The semi-weekly saw-mill, under the management of Squire Gillette, is no longer a fixedness, but a running reality. The Lodge of Good Templars has eighty or more members. The following are the officers elected for the ensuing term: F. W. Ewing, W. C. T.; Miss Carrie Jacks, W. V. T.; E. Doney, W. S.; J. R. N. Bell, W. C.; Geo. W. Cassidy, W. F. S.; Miss Della Howell, W. T.; Miss Ella McCloud, W. I. G.; C. B. Watson, W. O. G.; J. D. Fountain is P. W. C. T.

LECTURE.—Prof. Kennedy, the phrenologist and physiognomist, closed a series of interesting lectures at the Court House last Sunday evening, a good attendance being present. His efforts are highly spoken of by those who have heard them and should have been better attended than they were. He left for Ashtand on Monday, to fill an engagement there, but will return in a few days and appear once more before a Jacksonville audience. HEARD FROM.—We find the following, concerning our former townsman, Dr. L. T. Davis, in the Santa Rosa (Cal.) Democrat: Doctor Davis has opened a new office on Main street in Windsor. He has displayed considerable taste in the arrangement of it, and can always be found at his post ready to attend to the wants of the afflicted.

FROM GALICE CREEK.

MOUND RANCH, Jackson Co., Jan. 30th. EDITOR TIMES:

As I have arrived home again from the Galice Creek mines, by your permission I will say a few words in relation to them. I saw several new buildings and considerable clearing off of ground and cutting and preparing of timber for others. Chas. Saunders is preparing timber to build a substantial tavern, which is to be twenty-four by fifty feet, and two full stories high. Mr. Crow and others intend to commence work on a saw mill next week, which they will have in operation soon. I saw a prospect which Mr. Crow had obtained from an ounce of the Yank ledge quartz, which contained several particles of free gold and quite a quantity of silver. I heard from several assays which were very good. D. Courtney informed me that his brother, Wm. Courtney, had made several assays made since he returned to his home at Walla Walla, W. T., which were better than those previously published from him. He, with quite a number of other persons from that section, will come on as soon as winter closes. He says the winter is very hard at Walla Walla. I have a notice of a meeting of miners and citizens at Saunders' store on the 26th of February, which we want all interested parties to attend. It will be necessary for parties to take their own blankets, as the parties who are keeping entertainment are not prepared to entertain so many. Messrs. Gupton and Burch are preparing accommodations for the entertainment of the public down near where Rogue River passes through the ledges, and Messrs. Saunders and Knight are preparing to accommodate many at Saunders' store, some four miles above the leads. Mr. Burch and family got in safely last Sunday evening, and I met Mr. and Mrs. Knight a short distance this side of the mines on Thursday last on their way in. Mr. Peters, on the Dutcher Ranch, some twenty miles this side of the ledge, has hay and oats for sale. Other parties along the road are very accommodating. To citizens of our valley I would say we must take measures to put a wagon road into the mines soon, or we will be out and injured. Mr. Harkness is making a desperate effort to get a road to come down Grave Creek and then across the river, near the ledges. This is all right; but we must be up and doing—there is no time to lose now. Had we better have a meeting on the 20th of next month, to take some measures for the building of a road. I think yes. Let us meet in the Court House in Jacksonville at 10 o'clock A. M. that day. More anon. MARTIN PETERSON.

Rock Point Items. Our correspondent sends us the following items from Rock Point: Rock Point and vicinity are enterprisingly prosperous. The second term of the public school opened on Monday, Jan. 25th. Miners are availing themselves of the opportunity afforded them by the late snow and rains. Prospectors seem to be on the lookout. Several persons passed here yesterday, on their way to Louse creek, some 25 miles below, to test the quality and extent of the cinnabar ledge lately discovered there. Haymond & Magruder, the well known and popular merchants, are, we may say, doing a thriving business. Their manner in dealing with and treating customers will always secure them a liberal and living patronage.

ALMANACS.—We have received the Benton county almanac, published by W. B. Carter of the Corvallis Gazette. It is a neat work and full of matter concerning Benton county, besides much other information. Geo. W. Childs, proprietor of the Public Ledger, the leading paper of Philadelphia, has our thanks for a copy of his almanac, which is presented yearly to his numerous patrons. It is an elegant book and contains much useful information.

THE SCHOOLS.—H. C. Fleming, County School Superintendent, called on us this week. He informs us that he has visited the several schools, and finds them in good condition. The only fault to be found is that the school houses are often very poor and the apparatus deficient and of little account. Mr. Fleming will publish a report of school affairs before long.

PETITION TO THE TRUSTEES.

The following is a copy of the petition presented to the Board of Trustees, regarding Day & Ratrie's mining flume, and which will doubtless be acted upon at the next meeting: To the Trustees of the Town of Jacksonville, Oregon:—Your petitioners state to your honorable body that the mining flume and the tailings from the flume of Silas J. Day and George Ratrie runs through several streets of the town of Jacksonville, Oregon; that this flume is now depositing tailings near the dwelling-house built by John H. Reed, in a block of land belonging to James Cluggage; that the flume and tailings from it has damaged the streets through which it passes, and the property in the vicinity of the flume, and it is still liable to do irreparable damage to the property of the undersigned and the streets of the town of Jacksonville; that during the high freshet of 1868 it had so filled up the natural channel of the creek that it caused the water of the creek to run between the lots of B. F. Dowell and John Neuber and between the lots of John Bilger and John Neuber. If this flume continues to make its deposits in its present location for a few months longer another freshet will cover the lots of Hall, Cluggage, Neuber, Bilger, Judge Prim, Dowell, Drannan, Mrs. McCully, Simpson, and a large amount of land of J. N. T. Miller. Prior to this time it has covered with tailings a part of the block of Hall, while it was owned by Mr. Hunt and about ten acres of land of J. N. T. Miller. The tailings now being deposited are higher than the lots and land above described. The town of Jacksonville, Day, Ratrie, and all their aiders and abettors, are liable for all damages that have been done, and all that it may hereafter cause to the above-described property; therefore we ask the town of Jacksonville to take steps to stop this nuisance. J. N. T. MILLER, L. R. HALL, B. F. DOWELL, J. M. MCCULLY, JOHN BILGER, MRS. J. NEUBER, W. F. DRANNAN.

TITLE CONFIRMED.—The Washington correspondent of the Eugene Journal says that B. J. Pengra has obtained a decision in favor of the Oregon Central Military Road Company confirming the title to about one hundred thousand acres of land in the Klamath Lake country. The title has been in dispute some time. When a discoverer of any scientific subjects, asks the co-operation of the learned in science, to test the merit and truth of his discovery by severe tests and practical results, and then to indorse and recommend it, it is fair to presume it is valuable for the purpose intended. Such has been the course pursued by Messrs. Hall & Co., proprietors of Hall's Vegetable Hair Renewer. And all those who have tested it (among whom we may mention Dr. A. A. Hayes and S. Dana Hayes, Chemists and State Assayers of Massachusetts; Walter Burnham, M. D., Prof. of Surgery in Penn. University, Philadelphia; Geo. Grey, M. D., Professor of Anatomy and Physiology,) assert it is the best preparation in use for all cutaneous diseases of the scalp. Restores gray hair to its original color, prevents the hair from falling out, creates a new growth. It is certainly worthy of a trial.

MARRIED.

FORD—JNYART.—At the Franco American Hotel, in this place, on December 31, 1874, by Hon. E. B. Watson, County Judge, W. W. Ford to Josephine Inyart.

NEW THIS WEEK.

\$5 to \$20 Per Day at home. Terms to carry safely any distance. Address G. STINSON & Co., Portland, Maine.
