No GAIN IN LARGE HOGS,-Some feeder of swine writes: "There is not a single advantage to be claimed in reader do his own dreaming. large hogs. There never was a monster hog which did not make the man who raised him pay for every pound cold water. he weighed. They don't furnish an ounce of meat gratis, but charge full price for every atom of their careass. When slaughtered it takes a long time to get cool to the marrow bone, and when the hams are put in salt, it is troublesome to finish them to the center. Four hundred pounds live weight is as large as hogs should be, in order to make good bacon. Beyond this size there is a loss somewhere-either the feeder, the butcher or consumer is beaten, and as a general thing, everyone who has anything to do with the big hog will find, if he observes closely, that they are not so profitable as the smooth, little hog of only three hundred and fifty pounds weight. Small head, with little upright ears, and legs and feet delicate to perfection, are marks which indicate the greatest amount of flesh for any given amount of food consumed, and much more rapidily draw the attention of the butcher.

A WONDERFUL CLOCK .- A strange clock is said to have once belonged to a Hindoo prince. In front of the clock's disk was a gong swung upon poles, and near it was a pile of artificial human limbs. The pile was made up of the full number of parts necessary to constitute twelve perfect bodies; but all lay heaped together in apparent clock indicate the hour of one, out from the pile crawled just the number poor country coming to ?" of parts needed to form the frame of one man, part coming to part with quick click, and when completed, the figure sprang up, seized a mallet, and ple it adds several remarkable phrases walking up to the gong, struck one blow. This done, he returned to the pile and fell to pieces again. When two o'clock came, two men arose and did likewise; and at the hour of noon and midnight, the entire heap sprang up, and marching to the gong, struck, one after the other, his blow, making twelve in all; then returning, fell to pieces as before.

WHAT BUTLER THINKS .- The telegraph reports Butler as saying that the Civil Rights bill does not give negroes the right to enter saloons without the proprietor's consent. Butler probably wants to keep them out of his favorite haunts, not careing how much they may annoy hotel keepers and public carriers.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found out he lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving prin-ciple, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BATTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Dis-

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Haves, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."
