The London Times gives a list of thirty-two of these expeditions, and when the record is examined, it is seen with surprise what a small number of officers and men succumbed to the hardships incident to Polar service. The Plover and Enterprise, which were three Winters in the ice, had only three deaths each. Sir Robert McClure, in his famous voyage, lost one officer and five men in four Winters, while the Pioneer and Intrepid had not a single death, although out two Winters. Taking the whole thirty-two expeditions enumerated, the death rate was only seven per cent. of those employed. These facts do not detract from the renown of Arctic explorers, for their work demands high courage, resource and powers of endurance. Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qual ities of VINEGAR BITTERS in healing the sick of every disease man is heir to. HALLS VEGETABLE SICILIAN

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical Hair Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."
