The bones appeared to be those of large individuals, and were very brittle, having evidently been deposited there at an early day. Mr. Hanley's farm is the site of an old Indian burying ground, and the remains of red men have on other occasions been exhumed. It is supposed by some that a chief was at one time buried in that region, and with him several of the fifty-dollar slugs rather abundant in the times of gold; but no one has as yet been fortunate enough to find the location.

SERIOUS FIRE .- About 150,000 feet of sugar pine lumber, owned by Beeson, Slosson & Co., of the Rogue River Mills, was totally destroyed by fire on the 2d. The loss is estimated at \$3,000, which falls very heavy on the losers. It was with the greatest difficulty and only by the strenuous exertions of Mr. Slosson, who arrived while the fire was in progress, that the mill was saved. The fire originated from one of the mill hands carelessly setting a pile of slabs afire, which rapidly communicated to the lumber and destroyed it. The firm has met with a series of misfortunes since they constructed the mill, but with commendable energy they propose starting to work immediately and retrieve their losses.

BEAUTIFUL WOMEN .- The hair is the crowning glory of woman. There are few moderate defects which cannot be remedied by the proper disposition of the tresses. But when the hair begins to fall out, or turn gray, in young people, or with those in the prime of life, there is cause for real regret. When this is the case, Hall's Vegetable Sicilian Hair Renewer will be found to be a first class remedy, far superior, as a sound medical me-lium, to anything else before the public. It actually restores gray hair to its original color, and in the great majority of cases, causes it to grow again when it is becoming thin. It is not like many popular preparations, a mere wash, but a scientific discovery, indorsed and used by physicians of character. Address R. P. Hall & Co., Nashua, N. H.
