

GREAT INDIAN FIGHT.

GENERAL CUSTAR KILLED.

SALT LAKE, July 5.—A special correspondent to the Helena (Montana) Herald, writes under date of Stillwater, Montana, July 2d: Muggins Taylor, scout for Gen. Gibbon, got here last night direct from Little Horn river.

Gen. Custer found the Indian camp of about 2,000 lodges, on Little Horn, and immediately attacked the camp. Custer took five companies and charged the thickest portion of the camp. Nothing known of the operations of this detachment, only as they trace it by the dead. Major Reno commanded the other seven companies and attacked the lower portion of the camp. The Indians poured in a murderous fire from all directions, besides the greater portion fought on horseback. Custer, his two brothers, nephew and brother-in-law were all killed and not one of his detachment escaped. Two hundred and seven were buried in one place and the killed is estimated at three hundred, with only thirty-one wounded.

The Indians surrounded Reno's command and held them one day in Still's cut off from water, until Gibbon's command came in sight, when they broke camp in the night of the 7th. They fought like tigers, and were overcome by mere brute force. The Indian loss cannot be estimated, as they bore off most of their dead.

The remnant of the Seventh Cavalry and Gibbon's command are returning to the mouth of Little Horn, where a steamboat lies. The Indians got all the arms of the killed soldiers. There were seventeen commissioned officers killed. The whole of the Custer family died at the head of their column. The exact loss is not known, as both the adjutant and sergeant-major were killed.

The Indian camp was from three to four miles long and was twenty miles up the Little Horn from its mouth. The Indians actually pulled near their horses in some instances. Give this as Taylor told me, as he was over the field after the battle.

The above is confirmed by other letters, which say that Custer met with a fearful disaster.

SALT LAKE, July 5.—The Times' extra from Bozeman, Montana, July 31, 7 P. M., says: Mr. Taylor, bearer of dispatches from Little Horn to Fort Ellis arrived this evening, and recorded the following: The battle was fought on the 27th, 30 or 40 miles below the Little Horn. Custer attacked the Indian village, of from 2,500 to 3,000 warriors, on one side and Col. Reno was to attack it on the other. Three companies were placed on a hill as a reserve. Gen. Custer and 15 officers and every man belonging to the five companies were killed. Reno retreated under the protection of the reserve. The whole number killed was 315. Gen. Gibbon joined Reno when the Indians left. The battle ground looked like a slaughter pen, as it really was, being in a narrow ravine. The dead were very much mutilated. The situation now looks serious.

Gen. Terry arrived at Gibbon's camp on a steamboat and crossed his command over and accompanied it to join Custer, who knew it was coming before the fight occurred. Lieut. Crittenden, son of Gen. Crittenden, was among the killed.

A MASTODON MAN.—They have discovered a giant out in Tennessee in the person of a man named James H. H. He is a citizen of Perry county, one of a family of eight children, none of whom had exhibited any unusual traits. At eighteen years he was a well grown man, six feet high, and weighed 180 pounds. At twenty-one he was six inches taller, and weighed 210 pounds. He ceased to notice any growth after that until he was twenty-four years old, and then only by the smallness of his clothes, and he then measured in his stockings six feet, nine inches. Since then he has attained the height of seven feet and nine inches, and is still growing at the rate of two inches annually.

It is now settled that Satan's address to the fallen angels, after being driven out of Heaven, was in German. He began by saying, "Nicks, come arouse."

A CALIFORNIA man grafted a slip of dark red rose bush on an oak, and the result is a black rose. Brown roses were got from a graft on a locust.

A TRIBE of negroes have been discovered in Central Africa who are white and have red noses. The latter peculiarity gives rise to the belief that they originally emigrated from Kentucky.

The largest feet known to history must be those of the Maryland editor who writes: "We black our boots with 15,000,000 boxes of domestic blacking a year."

DEMOCRATIC PLATFORM.

The following resolutions were adopted by the St. Louis Convention:

We, the delegates of the Democratic party of the United States, in National Convention assembled, do hereby declare our administration of the Federal Government to be in great need of immediate reform, and do hereby enjoin upon the nominees of this Convention and of the Democratic party in the various States, and in every State to this end, and do hereby appeal to our citizens of every former political connection, to undertake with us this first and most pressing patriotic duty. For the benefit of our whole nation we reaffirm our faith in the permanence of the Federal Union, our devotion to the Constitution of the United States, with its amendments, universally accepted as the fundamental law of the country, and do hereby record our steadfast confidence in the perpetuity of republican self-government; in the absolute acquiescence in the will of the majority, and the principle of republics; in the supremacy of the civil over the military authority; in the total separation of Church and State for the sake alike of civil and religious freedom; in the equality of all citizens before the laws of their own enactment; in the liberty of individual conduct, untrammelled by summary laws; in the faithful education of the rising generation, that they may preserve, enjoy and transmit these best conditions of human happiness and hope. We behold the noblest products of a hundred years of changed history, while upholding the Union of our Nation, and a great debt to these, our rights, it behooves a free people to practice also that eternal vigilance which is the price of liberty.

Reform is necessary to rebuild and establish in the hearts of the people a Union, happily to be rescued from the danger of a corrupt centralization which, after inflicting upon ten States the rapacity of carpet-bag tyrannies, has honey-combed the Federal Government with corruption, and with incapacity worse than fraud; inflicting States and municipalities with the contagion of misrule, and locked fast the prosperity of an industrious people with the paralysis of debt. Reform is necessary to re-establish a sound currency, restore the public credit and maintain the national honor. We denounce the failure for all eleven years to make good the promise of the legal tender which is a changing standard of value in the hands of the people, and the non-payment of which is a disregard of the pledged faith of the nation. We denounce the impudence which in the name of peace has taken from the people ten times the whole amount of the legal tender notes, and squandered four times the sum in useless expense, without accumulating any reserve for their redemption. We denounce the financial imbecility of that party which during eleven years of peace has made no advance toward resumption, no preparation for resumption, but, instead, has obstructed resumption by wasting our resources and exhausting all our surplus income; and while annually professing to intend a speedy return to specie payment has annually added fresh burdens to the people, and a hindrance we denounce the resumption clause of the Act of 1875, and we demand its repeal.

HOW THE PUBLIC CREDIT SHALL BE SUSTAINED.

We demand a judicious system of preparation, by public economies, by official retrenchments, and by a wise financial system, which shall enable the nation soon to assure the whole world of its perfect readiness to meet any of its promises at the call of the creditor or to pay them. We believe such a system will be well received, and above all, intrusted to competent hands for execution, creating at no time an artificial scarcity of currency, and at no time alarming the public mind in any way. We demand that the vast machinery of credit by which 95 per cent. of all business transactions are performed. A system open, public and inspiring general confidence, would restore the day of its adoption in sum and mode of Federal taxation, to the end that capital shall be set free from distrust, and labor lightly burdened.

A TARIFF FOR REVENUE ONLY.

We denounce the present tariff levied upon nearly 4,000 articles, as a master piece of injustice, inequality and unfairness, which yields a dwindling, not a yearly rising revenue. It has impoverished many industries to subsidize a few. It prohibits imports that would purchase the products of American commerce, from the first to an inferior rank upon the high seas. It has cut down the sale of American manufactures at home and abroad, and depleted the returns of American agriculturists and industrialists by one-half our people. It costs the people five times more than it produces to the Treasury; obstructs the processes of production, and wastes the fruits of labor. It encourages frauds; fosters smuggling; enriches dishonest officials, and bankrupts honest merchants. We demand that Custom House taxation shall be only for revenue. Reform is necessary in the scale of public expense—Federal, State and municipal.

FEDERAL TAXATION.

Our Federal taxation has swollen from \$60,000,000, in gold, in 1860, to \$450,000,000, in 1875; our aggregate debt from \$14,000,000, gold, in 1860, to \$730,000,000, in currency, in 1875, or in one decade from less than \$5 per head to more than \$18 per head. Since the peace the people have paid their tax gatherers more than twice the sum of the national debt, and more than twice that sum for Federal taxes. Above all, we demand a vigorous frugality in every department and from every officer of the Government.

WASTE OF PUBLIC LANDS.

Reform is necessary to put a stop to the prodigal waste of public lands and their diversion from actual settlers by the party in power, which has squandered two hundred millions of acres upon railroads alone, and out of more than three that aggregate has disposed of less than a sixth directly to the tillers of the soil.

MODIFICATION OF THE BULLINGAME TREATY DEMANDED.

Reform is necessary to correct the omissions of the Treaty with the Chinese Empire, our treaties and our diplomacy, which have stripped our fellow-citizens of foreign birth and kindred race, recrossing the Pacific, of the shield of American citizenship, and have exposed our brethren of the Pacific Coast to the incursions of a race not spreading our language, nor springing from the same great parent stock, and, in fact, now denied citizenship through naturalization as being neither acculturated to the traditions of a progressive civilization nor exercised in liberty under laws. We denounce the policy which discards the liberty-loving German and the white-racial the coolie trade in Mongolian women, imported for immoral purposes, and Mongolian men, held to perform servile labor contracts, and demand such a modification of the Treaty with the Chinese Empire, or such legislation by Congress, without constitutional limitation, as shall prevent the further importation or immigration of the Mongolian race.

REFORM THE DOMINANT ISSUE.

Reform is necessary, and can never be effected but by making it the controlling issue of the elections and lifting it above the two false issues with which the office-holding class and the party in power seek to smother it.

PUBLIC SCHOOLS.

First, the fatal issue with which they

would enkindle sectarian strife in respect to the Public Schools, of which the establishment and support belong exclusively to the States, and which the Democratic party has cherished from their foundation, and is resolved to maintain without partiality or preference for any class, sect or creed, and without contributions from the Treasury. Second, the false issue by which they seek to light anew the dying embers of sectional hate between kindred people, once unnaturally estranged, but now united in one indivisible Republic and a common destiny.

CIVIL SERVICE REFORM.

Reform is necessary in the civil service. Experience proves that efficient and economical conduct of the Government business is not possible if its civil service is subject to change at every election, to be a prize fought for at the ballot box, to be a bribe reward of party zeal instead of posts of honor assigned for proved competency and held for fidelity in the public employ; that the Government should discharge no man for a tax on the time of all our public men for the instruments of their ambition. Here, again, professions falsified in the performance attest that the party in power now can work no practical or lasting reform. Reform is necessary even more in the higher grades of the public service. President, Vice President, Judges, Senators, Representatives, Cabinet officers—these and others in authority are the people's servants.

CORRUPT OFFICIALS.

Public offices are not a private perquisite; they are a public trust. When the annals of this Republic show the disgrace and censure of a Vice President; a late Speaker of the House of Representatives marketing his ruling as a private officer; three Senators profiting secretly by their votes as lawmakers; five Chairmen of the leading committees of the late House of Representatives exposed in robbery; a late Secretary of the Treasury forcing balances in the public accounts; a late Attorney General misappropriating public funds; a late Secretary of the Treasury enriching or enriching friends by percentages of the profits of contractors with his Department; an Ambassador to England conducting a dishonest speculation; the President's Private Secretary barely escaping conviction upon trial for guilty complicity in frauds upon the revenue; Secretary of War impeached for high crimes and misdemeanors; the demonstration is complete that the first step in reform must be the people's choice of honest men from another party, lest the disease of one political organization infect the body politic—and last by making no change of men or party we get no change of measures or reform. All these abuses, wrongs and crimes—the production of sixteenth years' administration of the Republican party—create a necessity for reform confessed by Republicans themselves. But their reforms are voted down in convention and displaced from the Cabinet. The party's up-to-date policy is powerfully resisted by the 80,000 office-holders, its leaders and guides, and reform can only be had by a peaceful civic revolution. We demand a change of parties, that we may have a change of measures and of men.

DEMOCRATIC PLATFORM.

ADOPTED AT SALEM ON APRIL 25, 1876, BY THE STATE CONVENTION.

The Democracy of Oregon in Convention assembled, re-affirms the platform of principles adopted at the last Democratic State Convention, and follows in addition to the same, to-wit:

Resolved, That the action of the Democratic House of Representatives of the United States, in ferreting out corruption and creating a system of reform, be well received, and above all, intrusted to competent hands for execution, creating at no time an artificial scarcity of currency, and at no time alarming the public mind in any way.

Resolved, That the large influx of Chinese immigration to the States of the Pacific coast of America has been a curse to the country; that the Chinese, as a people, have not, and never can be brought to have, any interest consistent with the welfare and prosperity of our Government and its institutions; and that the best and wisest course is to declare our faithful adherence to this principle, and oppose any invasion of it; that it is the inalienable right of every citizen to worship God according to the dictates of his conscience, and that no religious disabilities should be imposed upon a people by religious belief; and while we will defend these principles and institutions to the full extent, we deprecate all attempts to raise sectarian issues as utterly unavailing and reprehensible and meriting the emphatic condemnation of every good citizen.

Resolved, That our inestimable system of common schools, and our no less valuable scheme of religious toleration, are the workmanship of Democratic hands, and the fruits of Democratic policy; that it is the exclusive right and duty of the State to provide for the education of its children; and it having been a principle established in the formation of our State Constitution that no public funds of any class should be used for sectarian schools or societies, we declare our faithful adherence to this principle, and oppose any invasion of it; that it is the inalienable right of every citizen to worship God according to the dictates of his conscience, and that no religious disabilities should be imposed upon a people by religious belief; and while we will defend these principles and institutions to the full extent, we deprecate all attempts to raise sectarian issues as utterly unavailing and reprehensible and meriting the emphatic condemnation of every good citizen.

ROCK SOAP.

ROCK SOAP IS A NATURAL PRODUCE, possessing most marvelous cleansing and cosmetic properties. Besides other saponaceous substances it contains Alumina, which is more powerfully detergent than most Alkaline Soaps. Rock Soap is ascertained by analysis to have detergent properties valuable to an eminent degree for the purposes for which it is recommended, and to contain nothing injurious for such purposes. After using it one will be without it. It is perfectly marvelous in its operation.

FOR HOUSEHOLD PURPOSES.—It cleans kitchen vessels, glass and tinware; polishes gold and silver; removes oil and grease from tables and floors. It is a great saving of time and labor.

FOR WASHING POWERS.—It is unrivaled for washing clothes. It is not an alkali, but it softens the water, loosening the dirt, and makes washing less laborious; and leaves the clothes much whiter, without any of the injurious effects attending the use of soda or washing powder, which all contain more or less caustic properties. It is guaranteed not to injure in the least degree the finest fabrics, and will save half the soap generally used. It saves an enormous waste in soap, and wear and tear in clothes.

FOR TOILET AND BATH.—Rock Soap possesses remarkable cosmetic properties, without any deleterious effect upon the skin. It is perfectly harmless, and gives a vigorous and healthy tone to the skin; it restores the freshness and bloom of youth in a manner which is marvelous. It is put up with a brilliant label, and is having a large sale. It sells itself. See quotations.

AFTER a QUARTER of a CENTURY

Of active work in the field of honorable practice in California, during which time thousands of the most difficult cases of premature decay and diseases of contaminating poison have been overcome and the sufferers restored to healthy life and manhood

The J. C. Young MEDICAL AND SURGICAL INSTITUTE

still offers to the afflicted the positive assurance of honorable treatment and rapid and absolute cures, as can be shown by thousands of testimonials from grateful Patients. Let me call the attention of those who suffer from some of the effects of

SEMINAL WEAKNESS. The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or disease of the generative organs of their uses is a direct attack upon the general health as well as a sure destruction—no! properly cured—of the organs that are the pride of one sex and the blessing of the other. In youth is laid the foundation of much of the misery of after years by the indulgence of the most destructive habits making life a curse and spreading weakness and ruin among mankind, for it is a well known fact that the indulgence in solitary vice, even in the slightest degree, plants seed of weakness in the system that grow to a harvest of disease and shame in after years.

YOUNG MAN, If you experience any weakness you should not delay, for a day may imperil your health if not your life. In all forms of weakness and premature decay a cure is guaranteed by the Doctor to the young, middle-aged or old, without exposure or other poisonous matter. The remedies are purely vegetable and of a nature that leaves no taint behind. Observe the symptoms and hasten to check the course of the complaint, if you experience any of them, such as: loss of appetite, indigestion, nervousness, trembling, anxiety, forgetfulness, confusion, pain in the back, limbs or body, forebodings, indigestion, timidity, aversion to society, loss of power, want of control, variable temper, attacks of sickness akin to biliousness, deposits in urine, irregular bowels, etc., etc.

TERRIBLE POISON. Among the most subtle and virulent of poisons in the human blood is that arising from venereal taint, often breaking out, after years of apparent cure, in hideous sores upon various parts of the body. Its great danger lies in the fact that it is given to the innocent partner or to the unborn child without showing in the person originally contracting it.

THE USE OF MERCURY. Only aids in this terrible deception by drying it upon the surface and driving it back into the blood. All venereal poison is a blood poison and can be communicated without the usual means of contagion. Prevention of transmission is in the positive cures of the reform treatment practiced at the Dr. J. C. Young Medical Institute, complete, scientific and thorough, having received endorsement as the best of modern practice. Recent cases cured in a few days and chronic cases with remarkable rapidity. Our test of the presence of the taint in the blood are never failing.

TO FEMALES. There are no classes of complaints that so entreat the sympathies of the medical mind or so commands its gravest thought and study as those that afflict women. The Doctor never tires of patient investigation and without ceasing to assure them of rapid and thorough cures in all the complaints incident to the sex. The weak can hope for strength and the suffering for relief and cure. Those who require personal supervision the Doctor can furnish with apartments, with careful and skillful nurses where unremitted attention and constant cure give every assurance of rapid and permanent cures.

The Institute is supplied with a LIVING IN DEPARTMENT Where patients will receive the treatment so essential in such cases.

CURED AT HOME. Correspondence. The greatest difficulty many sick find is the trouble of visiting the city, often incurring an expense far exceeding the cost of treatment. This expense can be avoided by writing to the Doctor, giving in your own way, the symptoms of your ailment or complaint. Cures guaranteed the same as by personal visits. All communications strictly confidential and all letters either returned or destroyed.

The Doctor can be relied upon in all cases requiring confidence and secrecy. Repose confidence in him, all who suffer or are in distress. He will speedily relieve and cure you. J. C. YOUNG, M. D., 618 Sacramento Street, San Francisco, Cal. Box 635.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of seminal weakness, or private disease of any kind or character which he undertakes to cure and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember that if you persist in procrastination, the time must come when the most skillful physician can render you no assistance; when the door of hope is closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the benefits of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment, \$25.00. Send money by Post Office order or Express with full description of case. Call or address
