

DEMOCRATS TO THE FRONT.—The Bedrock Democrat offers the following sensible advice to Democrats, which should not pass unheeded:

Democrats will recognize the fact that the time for sharp action is approaching—indeed is already upon us. Success in the campaign for the large divisions of the party depends upon the manner in which the details are worked up, and those details are comprised in shaping and perfecting our local organizations. No national triumph is in store for the party if its local branches fail to utilize the way and means within their reach. Let us make them available under the inspiration of those Democratic traditions made immortal by Jefferson, Jackson and Douglas. Unity, energy and aggressive war upon the lines of the enemy will soon be in order, and it can be effective only through ample and conscientious preparation. We have risen from the ashes of defeat to a position of formidable power. The strongest combinations of the R. rebels, invoked for our defeat, prove this. We must not only elect a President, but we must take care that a reform Congress shall be perpetuated. The Democracy can make no adequate reform, no history fully acceptable to the masses of the people, until it holds all the legislative branches of the Government.

CURRENT JELLY.—If the fruit is gathered when lead ripe it will make firmer jelly, and it is not necessary to pick it from the stems, only remove all leaves or sticks. Put the fruit in a pan, over a kettle of boiling water, and heat enough for the skin to break easily, then dip into a bag made of flannel, and squeeze till dry. Measure the juice, allowing for every pint one pound of white sugar, but do not add the sugar to the liquid till it has been allowed to gently boil over the fire for twenty minutes or more, removing any scum that may arise. The sugar is now added in the proportions mentioned, when the process of coagulation is so rapid that lumps of jelly are often formed before it is dissolved, while in color it grows with all the richness and transparency of the garnet. The secret of making all fruit jellies is to boil the juice before, and but little after adding the sugar; if boiled together the product is apt to be soft, dark and gummy, if it ever became jelly at all. Use a pound of sugar for a pound of fruit in preserving currants, and if all the necessary boiling has taken place before the sugar is added, the juice will become a tender beautiful jelly.

GETTING BACK ON THE FARM.—It is no such illusion, after all. Hard work or easy work, the desire to break away from all the other occupations of life and repose in the peaceful life of the country is founded on an instinct as strong and deep as human nature itself. Mr. Williams, a member of Congress, has just been nominated by the Indiana Democrats to the Governorship of that State. He hesitates about accepting the proffer. And what do you think he gives as the reason? Why this only—that he hopes, when his term of Congressional service is over, to be able to retire from politics and every other avocation to the tranquil pursuits of his farm in Knox county, where he says he wants to pass the rest of his life. What a perfectly rational preference this is! Men of business, no less than those who follow political courses and the learned professions, are ready to confess that everything in life is hollow and delusive except that one peaceful pursuit, namely, of farming, which brings them close to the heart of Nature. That is the only calling that lasts.—Miss Ploughman.

THE SAN FRANCISCO POST'S PHILADELPHIA correspondent says: Oregon's exhibit of native products is attracting universal attention at the Centennial and the department assigned the State is constantly thronged. Her wood, woods, minerals and cereals are especially noticeable, and redound greatly to the good fame of the country. For what raising and vegetable producing Oregon cannot be excelled. Oregon is a field better than she knew. When she selected A. J. Dufur commissioner for that State, and, luckily, Mr. Dufur is in every way worthy of the position he holds, and will do the State much honor. Laying all jealousies aside, we rejoice to see our sister State coming forward for the public recognition to which she is plainly entitled, and hope that the flattering circumstances to which we have alluded, will facilitate her citizens to renewed enterprise and lofty design.

OREGON, gallant little Democratic Oregon, has fired the first Centennial gun. Bring out your banner, boys, and unfurl them to this breeze from glorious Oregon. Roll out your campaign battery and show the world how you appreciate a good thing.—Baton Rouge (La) Advocate.

"MAY they always live in peace and harmony," was the way a Yankee marriage notice should have wound up; but the compositor, who couldn't read manuscript very well, put in type, and horrified the happy couple by making it read, "MAY they always live on peas and hoariness."

If you would be exempt from unbusiness, do nothing which you know or suspect is wrong; and if you wish to enjoy the purest pleasure, always do everything in your power which you know is right.

THE man who was kicked by George Washington reports that he will not show at the present Centennial, but thinks he will be sufficiently recovered to put in an appearance at the next.

DEMOCRATIC PLATFORM ADOPTED AT SALEM ON APRIL 25, 1876, BY THE STATE CONVENTION.

The Democracy of Oregon in Convention assembled, re-affirm the platform of principles adopted at the last Democratic State Convention, and adopt the following in addition to the same, to-wit: Resolved, That the action of the Democratic House of Representatives of the United States, in ferreting out corruption and bringing criminals to justice, merits the commendation of every true patriot. Resolved, That the large influx of Chinese immigration to the States of the Pacific coast of America has been a curse to the country; that the Chinese are a people that have not, and never can be brought to have any interest consistent with the welfare and prosperity of our Government and its institutions; and that we pledge ourselves to use our best endeavors for the adoption of measures as will prevent and cure this growing evil. Resolved, That our inestimable system of common schools, and our no less valuable scheme of religious toleration, are the workmanship of Democratic hands, and the fruits of Democratic policy; that it is the exclusive right and duty of the State to provide for the education of its children; and that having been a principle established in the formation of our State Constitution that no public funds of any class should be used for sectarian schools or societies we declare our faithful adherence to this principle, and oppose any invasion of it; that it is the inalienable right of every citizen to worship God according to the dictates of his own conscience, and no political disabilities should be imposed by reason of religious belief; and while we will defend these principles and institutions to the full extent, we deprecate all attempts to raise sectarian issues as merely unavailing and reprehensible and meriting the emphatic condemnation of every good citizen.

CENTAUR LINIMENTS!

[Letter from a Postmaster.] SHELTON, ILL., Dec. 1, 1874. Messrs. J. B. Rose & Co.—My wife has, for a long time, been a terrible sufferer from Rheumatism. She has tried many physicians and many remedies. The only thing that has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale. W. H. RING.

This is a sample of many thousand testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published around each bottle. It contains Witch Hazel, Mentha, America, Rock Oil, Carbolic, and ingredients hitherto little known. It is an indispensable fact that the Centaur Liniment is performing more cures of Swellings, Stiff Joints, Eruptions, Rheumatism, Neuralgia, Sciatic, Caked Breasts, Lock-Jaw, &c., than all other Liniments, Embrocations, Extracts, Salves, Ointments and Plasters now in use.

For toothache, earache, weak back, itchy, and eruptions of the skin, it is admirable. A physician in Scotland without a scar, has, for a long time, been a terrible sufferer from Rheumatism. She has tried many physicians and many remedies. The only thing that has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale. W. H. RING.

Messrs. McClure & Co., Druggists, cor. Elm and Front Sts., Cincinnati, O., say: "In our neighborhood a number of farmers are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as high as four to five dozen bottles per month to these farmers."

We have thousands of similar testimonials. For wounds, cuts, scratches, ring-bone, &c., and for Scrofula in Sheep it has no rival. Farmers, Livery-men and Stock-raisers have in this Liniment a remedy which is worth a hundred times its cost. L. BROSIE & CO., 46 DEY ST., NEW YORK.

PITCHER'S CASTORIA.

Mothers may have rest and their babies may have health, if they will use Castoria for wind colic, worms, feverishness, sore mouth, croup, or stomach complaints. It is entirely a vegetable preparation, and contains neither mineral, morphia, nor alcohol. It is as pleasant to take as honey, and neither gags or gripes. Dr. E. Dimock, of Dupont, O., says: "I am using Castoria in my practice with the most signal benefits and happy results." This is what every says. Most nurses in New York city use the Castoria. It is prepared by Messrs. J. B. Rose & Co., 46 Dey St., New York, successors to Samuel Pitcher, M. D.

ROCK SOAP IS A NATURAL PRODUCT, possessing most marvelous cleansing and cosmetic properties. Besides other saponaceous substances it contains Alumina, which is more powerfully detestive than most Alkaline Soaps. Rock Soap is ascertained by analysis to have detestive properties valuable to an eminent degree for the purposes for which it is recommended, and to contain nothing injurious for such purposes. After using it no one will be without it. It is perfectly marvelous in its operation.

FOR HOUSE-HOLD PURPOSES.—It cleans kitchen utensils, glass and tinware; polishes gold and silver; removes oil and grease from tables and floors. It is a great saving of time and labor.

WASHING POWDER.—It is unrivaled for Washing Clothes. It is guaranteed not to injure in the least degree the finest fabrics, and will save half the soap generally used. It saves an enormous waste in soap, and wear and tear in clothes.

AFTER A QUARTER of a CENTURY

Of active work in the field of honorable practice in California, during which time thousands of the most difficult cases of premature decay and diseases of continuing poison have been overcome and the sufferers restored to healthy life and manhood.

The J. C. Young MEDICAL AND SURGICAL INSTITUTE

still offers to the afflicted the positive assurance of honorable treatment and rapid and absolute cures, as can be shown by thousands of testimonials from grateful Patients. Let me call the attention of those who suffer from some of the effects of SEMINAL WEAKNESS.

The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or cause of weakness of the generative organs or their uses is a direct attack upon the general health as well as a sure destruction—if not proper and prompt care is taken before it leaves no faint behind, and of a nature that runs a life a curse and spreading weakness and ruin among mankind, for it is a well known fact that the indulgence in solitary vice, even in the slightest degree, plants seed of weakness in the system that grows to a harvest of disease and shame in after years.

YOUNG MAN, If you experience any weakness you should not delay, for a day may imperil your health if not your life. In all forms of weakness and premature decay a cure is guaranteed by the Doctor to the young, middle-aged or old, without exposure or hindrance from business. The remedies are purely vegetable and of a nature that leaves no faint behind. Observe the symptoms and hasten to check the course of the complaint, if you experience any of them—night discharges, slight discharges at other times, trembling, anxiety, forgetfulness, confusion, pain in the back, limbs or body, forebodings, indigestion, timidity, aversion to society, loss of power, want of control, variable temper, attacks of sickness akin to indigestion, deposits in urine, irregular bowels, etc., etc.

TERRIBLE POISON. Among the most subtle and virulent of poisons in the human blood is that arising from venereal taint, often breaking out, after years of apparent cure, in hideous sores upon various parts of the body. Its great danger lies in the fact that it is given to the innocent partner or to the unborn child without showing in the person originally contracting it.

THE USE OF MERCURY Only aids in this terrible deception by drying it upon the surface and driving it back into the blood. All venereal poison is a blood poison and can be communicated in the blood and the only certainty of prevention of transmission is in the positive cures of the reform treatment practiced at the Dr. J. C. Young Medical Institute, comprehensive, scientific and thorough, having received endorsements as the best of all modern practice. Recent cases cured in a few days and chronic cases with remarkable rapidity. Our test of the presence of the taint in the blood are never failing.

TO FEMALES: There are no class of complaints that so enlist the sympathies of the medical mind or so command its gravest thought and study as those that afflict women. The Doctor after years of patient investigation and research has discovered the cause of all and through cures in all the complaint's incident to the sex. The weak can hope for strength and the suffering for relief and cure.

Those who require personal supervision in their treatment, or who are afflicted with venereal taint and constant cure give every assurance of rapid and permanent cure. The Institute is supplied with a LIVING-IN DEPARTMENT Where patients will receive the treatment so essential in such cases. CURED AT HOME.

Correspondence. The great difficulty many seek in the trouble of visiting the city, often incurring an expense far exceeding the cost of treatment. This expense can be avoided by writing to the Doctor, giving in your own words, the symptoms of your trouble or complaint. Cures guaranteed the same as by personal visits. All communications strictly confidential and all letters either returned or destroyed.

The Doctor can be relied upon in all cases requiring confidence and secrecy. Rest confidence in him, all you who suffer or are in distress. He will speedily relieve and cure you. Address, BENJ. F. JOSSELYN, M. D., 618 Sacramento Street, San Francisco, Cal.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretion, will do well to avail themselves of this, the greatest remedy ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of seminal weakness, or private disease of any kind or character which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are bordering upon the last, and are suffering some or all its ill effects, remember that if you persist in procrastination, the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave. Full course of treatment, \$25.00. Send money by Post Office order or Express with full description of case. Call or address DR. A. B. SPINNEY, No. 11 Kearney St., San Francisco.
