# DEMOCRATIC PLATFORM

ADOPTED AT SALEM ON APRIL 25, 1876, BY THE STATE CONVENTION.

The Democracy of Oregon in Convention assembled, re-affirms the platform of principles adopted at the last Democratic State Convention, and adopt the following in addition to the same, to-wit:

Resolved, That the action of the Democratic House of Representatives of the United States, in ferreting out corruption and bringing crim.nals to justice, merits the commendation of every true patriot.

Resolved, That the large influx of Chinese immigration to the States of the Pacific coast of America has been a curse to the country: that the Chinese are a people that have not, and never can be brought to have, any interest consistent with the welfare and LIQUORS, prosperity of our Government and its institutions; and that we pledge ourselves to use our best endeavors for the adoption of such measures as will prevent and cure this

Resolved, That our inestimable system of common schools, and our no less valuable At E. Jacob's New Store. scheme of religious toleration, are the workmanship of Democratic hands, and the fruits of Democratic policy; that it is the exclusive right and duty of the State to provide for the education of its children; and it having been a principle established in the formation of our State Constitution that no public funds of any class should be used for sectarian schools or societies we declare our faithful adherence to this principle, and oppose any invasion of it; that it is the inalienable right of every citizen to worship God according to the dictates of his own conscience, and no political disabilities should be incurred by reason of religious belief; and while we will defend these principles and institutions to the full extent, we deprecate all attempts to raise sectarian issues as utterly uncalled for and reprehensible and meriting the emphatic condemnation of every good citizen.

The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or cause of weakness of the generative organs or their uses is a direct attack upon the general health as well as a sure destruction-if not properly cured-of the organs that are the pride of one sex and the blessing of the other.
