REPUBLICAN OPINION.

WHY PARKE GODWIN DESIRED THE

NOMINATION OF GOV. TILDEN.

The Cincinnati Commercial printed on Wednesday a letter from Mr. Parke Godwin, known so long and so well as the editor of the New York Evening the preparatory and Collegiate, and Post, to a friend in Cincinnati. The letter was written May 7, 1876, long before either of the National Conven-

tions was held, and is as follows: "As to politics I would like to see the Republicans nominate Bristow, but my preferences are most decidedly for Tilden. I have known him all my life, and I know him to be honest to the core, singularly conscientious in all he does, of great disinterestedness, and as a statesman head and shoulders before any man now prominent. He is the most profound, sound and clear in his political economy of any man I know-completely grounded in principles, sure of his every step, extreme-Lincoln, is out in a letter supporting prejudices or weaknesses. If he were President at this moment, in less than three months we should see our finances on their best feet, taxation reduced a half, and the currency in a

> almost imperceptible means. "What is more we should see the tides of Northern capital flowing into the South to turn its natural resources

into unexampled prosperity. "Tilden inspires all classes with conhas, in fact, no personal resentments, which his enemies say is profound policy, but which I know is the make of the man. He is so deeply abscribed in his principles that he pays no heed to personalities. You might assail him for years and at the end of that time, if you were worthy, he would be the first to acknowledge it. When I consider the condition of the country, and his peculiar aptitude to meet the emergencies on all sides, he really seems to me more of a providential man than we have had for a long while. I do not believe the Democratic party will be so blind as to reject him. No Democratic name can carry this State, which is all important, except Tilden; and he would carry it easy, because all the Independ-

ent Republicans would go for him." BOTTLED LIGHT.—Countless accidents, as every one knows, arise from the use of matches. To obtain light out the danger of setting things on magazines where explosive or inflammable materials are kept. Any one may easily make a trial of it. Take an oblong phial of the whitest and clearest glass, and put into it a piece of phosphorus about the size of a pea. Pour some olive oil heated to the boiling point upon the phosphorus; fill the phial about one-third, and then cork it tightly. To use this novel light remove the cork, allow From latest reports from Sioux war the air to enter the phial, and then reanother battle of any importance soon. it is sometimes necessary to hold the phial between the hands to increase If Hayes meant to make this a re- the fluidity of the oil. SOUTHERN OUTRAGES. - The following extract is taken from the sworn testimony of J. S. Perrin, Republican member of the Legislature of Alabama, and shows the manner in the French cook who fooled him with which about nine-tenths of the South-

ern outrages are manufactured: "I shot a hole in my hat and reported that I had been attacked by a young man in an outside school exhi-Kuklux, and I sent troops to arrest the mythical assailants. STATE UNIVERSITY. The beautiful building prepared for the State University of Oregon being now ready for the accommodation of students, the first session will commence on the 16th day of October. There will be two courses of study,

two terms of twenty weeks each. The law provides for the free tuition of one student from each county and one for each member of the Legislature. Students wishing to avail themselves of the benefits of the law should make application to the County Superintendent of the county in which they reside. All other students wishing to take the Collegiate course will be required to pay a tuition fee of \$20 per term in advance. All candidates for admission into this department will be required to pass an examination in the following studies: Reading, writing, orthography, geography, practical arithmetic, English grammar, Greek grammar and reader, history of the United States, Latin grammar, reader and four books of Cæsar. But for the present examination in the

A complete course in science; 3d. A normal course, planned with special reference to the wants of teachers. All students in this department will be required to pay a fee of \$2.50 per term in advance

for incidental expenses. All students in the Preparatory Department will be required to pay a tuition fee of \$15 in advance. This department will give students the necessary training required for admit-

tance into the Collegiate Department. The Faculty will consist of Prof. J. W. Johnson, President, and Professors Thomas Condon and Mark Bailey. The teachers in the Preparatory Department are Mrs. E. Spiller, principal, and Miss Mary E. Stone, assistant. THE New York Methodist says "Governor Tilden was elected to his

present office by 53,000 majority over Governor John A. Dix, a decisive test of personal popularity. After Mr. Bristow, he is the only man in high place who has risked anything in a fight against corruptionists." The Quincy Herald says that he has fought corruption where he found it strongly entrenched and displaced it, and is a good and sufficient reason why men of all parties should repose confidence in him and espouse his candidacy in the present emergency of the country. No other public man has risked so much in the struggle for reform nor displayed a like capacity for retrenching and purifying public administration. Others have labored zealously and with success in public station, but it is due to Governor Tilden to award him credit for organizing the first aggressive and successful raid upon official corruption. When others faltered he stepped to the front in New York, and attacked the corrupt rings of the city and State in their very strongholds. His pluck and perseverance in that struggle have saved the tax-payers of the Empire State millions of dollars, and as President he will save the nation hundreds of millions. Republicans as well as Democrats are interested in reducing the burdens of taxation and will seriously ask themselves, if every consideration of self interest as well as patriotism does not demand the election of Mr. Tilden, who of all our public men has shown the capacity and will to economize public expenditures,

and reform public administration. TILDEN .- All good citizens are inwho, when he once took hold of the Weekly, August 28th, 1875.
