The United States is an "outsider" in the combat between Russia and Turkey. She is plready a gainer before the conflict Skidmore and B. F. Dowell were appointed commenced, as note her gains, which are only a drop in the bucket compared with what they will be should the struggle be protracted for any length of time. General Gerloff bought certain machinery in this country which has turned out 3,000,000 rifles. Russia has imported 100,000 Smith & Wesson revolvers and 20,000,000 cartridges, to say nothing of the 400,000 cartridges manufactured daily in Russia by American machines. Meanwhile, Turkey has contracted in Rhode Island for 600,000 Martini-Henry rifles, of which 250,000 have been shipped, and 100,000 more are ready for export. So much relates to arms and munitions alone. Behind lies the question of food supplies, for which our country will be the principal market. Who can estimate the benefits, in a financial point of view, that we shall derive from this quarrei?

Secretary Thompson, of the Navy, has discovered several frauds in his department; one especially, where iron was bought for 35 cents a pound when it could have been had for 15 cents.

The Herald says that the prosecution of Secretary Robeson, for alleged misappropriation of navy funds, will be the leading feature of the Democratic policy in the forthcoming session of Congress.

Affairs in the Navy Department under Robeson were grossly mismanaged, and the new Secretary, Thompunearthing some enormous son, is frauds. To make the matter worse for the malefactors, Geo. M. Pinney, a defaulter to the Government as an employe in the Navy Department at Oakland, Cal., has returned and is making some startling revelations. The N. Y. Sun of the 7th publishes a Washington story of three and a half columns, headed "Pinney's Revelations." It claims Pinney was made the scape-goat of a powerful ring in California, with Wm. B. Carr as head. It charges that Sargent, Geo. C. Gorham and Congressman Page were members of the ring, and that the latter three protected it at Washington by their influence with Secretary Robeson ; also that the firm through which its business was transacted was Montague, Hanscom and Jordan. Further developments promise to be rich.

LETTER FROM LELAND.

LELAND, May 7, 1877. TO THE EDITOR OF THE TIMES :

John Salmon, an experienced miner from Portland, made a test run of eight and a half tons of ore from the Bald Eagle ledge, owned by the Josephine Mining Company, with the Esther company's mill. The re. sult was satisfactory to the shareholders, ry and social ruin. and the company is sinking down on their ledge. If it continues good in depth they will put up a good steam mill the coming Summer.

Mr. Salmon was recently sent to the Lucky Queen mine and mill by the stockholders of said company, who reside in Portland. He reports the Lucky Queen mill first-class in every way but the amalgamating machinery. He recommends pans to amalgamate in, in the place of the barrel which has been used in said mill. Mr. Salmon also pronounces the main ledge of the company good. He made several working tests, and says it will come out all the main ledge.

Ford, Hopkins & Buck have commenced work on their ledge, which is situated on the dividing ridge between Grave creek and Cayote creek. They intend sinking down on their ledge one or two hundred feet the coming Summer, and intend to put up machinery as soon as they get their ledge pros-

pected Thomas Johnson, superintendent of the Esther Mining Company, is running their mill part of the time, with results satisfactory to the directors of the company. The Esther company have some good claims on dam chief. success. The most complete victory the Lucky Queen or Corder ledge, but are

Davis & Nielson are prospecting a ledge on Cayote creek, which prospects well. They will soon commence putting up two the Democrats get control of the Board arastras to run by water. Their ledge is situated a short distance above where the principal mining is done.

There are other ledges on Grave creek and vicinity, that look favorable for gold and silver, that are not being prospected for the want of men with money to do it.

MINER. Public Debt Statement.

The public debt statement for April shows a reduction in the debt for the current month of about three and a half millions, and an aggregate reducsolation of being the first man in tion since July 1st of about twentyeight millions. The receipts from internal revenue for the month will reach nine and one-half millions, and from customs about eleven millions. The coin balance will be nearly ninetyfive millions, including coin certificates, which amount to forty-six or forty-eight millions. This increase in the coin balance is due to the fact that about one million in gold has been received this month from sales of bonds in excess of amounts disbursed to redeem the called 5-20s. The Department, being unable to obtain called bonds to that amount for redemption, the coin received from the sale of bonds will be set apart for the redemption of called bonds. Ann Eliza, who has adver ised herself largely for the past two years as one of the wives of Brigham Young, has had her status defined by the courts, which inform her that a concubine does not need a divorce. and as for alimony she was entitled only to the wages of a maid servant during her so journ with Brigham. While this decision may not do justice to Ann Eliza and the thousands of other women who would lie right yet. They are now sinking a shaft on glad to sever their polygamous connections, it is nevertheless good common sense.
