

The Democratic Times.

Official Paper for Jackson, Josephine & Lake.

SATURDAY, JUNE 2, 1877.

Hayes and Ohio.

Mr. Hayes is frightened about Ohio. A State election occurs there next Fall and indications are that Democrats will carry it. It is believed that the State ticket is safe for the Democracy, says the *Standard*, and all that Radicalism can hope is to save the Legislature by injecting local issues and by prostituting the civil service. It is said that the fear of the effect on Ohio from a possible break in party ranks in Congress, caused the postponement till October 15th of an extra session of Congress, till just after the Ohio elections. If it should go Democratic, Hayes is fully aware that the Blainites will refer it to his Southern policy as an indication that it had been repudiated in his own State. Hayes, too, was afraid that the repeal of the specie payment act would have been agitated at the June session, to the advantage of the Democrats. Hayes, it is said, is advised that a very large proportion of the people of the State insist upon increased circulation as a relief from money monopolists. The Legislature to be chosen will also elect a successor to brother-in-law Stanley Matthews. With all these important considerations pressing upon him Hayes is willing to allow the army to remain unpaid, and the law to be violated in buying for its subsistence and clothing. Let Democrats here make a point: For a violation of the law the White House occupant can be impeached. Hayes seems to be hard run now—like a hunted hare. Such are the consequences of crime!

The South Carolina Steals.

The State of South Carolina, impoverished by the rascalities of carpetbaggers, and ignorant negroes, says the *Telegram*, was barely rescued in time to save it from impending bankruptcy under the corrupt rule of the Republican party as represented by the Moses and Chamberlain administrations. The enormous robberies legalized by legislation were bad enough, but the small steals, outside of all law, are now being disclosed by the reformed legislature of the Hampton government. A committee accidentally stumbled upon an order from the former clerk of the Senate, in his official capacity, directing a liquor dealer to send sundry cases of champagne, boxes of cigars and certain gallons of brandy to a hotel for the use of the notorious cadetship—peddler Senator Whittemore, a ruling spirit in the Republican party of that State. These adjuncts to legislation were paid for by the State. This is only one of many instances which have been brought to light where the State has been made to pay for the gratification of the luxurious appetites of legislative thieves. These petty stealings in the aggregate amount to many thousands of dollars. It will take years of rigid economy and judicious management to overcome the mischievous effects of the vicious misrule of knaves and fools in South Carolina.

Declines to Recognize.

It is rather interesting to learn that Hayes declines to recognize the Diaz Administration in Mexico on the assumption that it is fraudulent and fails to represent a majority of the voters. In its references to the Diaz Government the Cabinet is careful to speak of it only as a *de facto* government, thus avoiding even the appearance of acknowledging the title of a President who stole his office. It is unfortunate for Diaz that Returning Boards, Joe Bradleys, and the other appliances of civilized fraud are yet unknown in the republic of Mexico.

PARDONED.—The Roseburg Independent says: "David Briggs, sent to the penitentiary from Josephine county for shooting a schoolmaster, has been pardoned by Gov. Chadwick. The great majority of our people will approve of this pardon."

The Chico assassins have received the following sentences and been sent to prison: T. W. Stainbrook, who stood trial, 27½ years; Charles and John Slaughter, E. R. Roberts and F. E. Conway, who plead guilty, each 25 years.

Mrs. RALSTON, widow of the late W. C. Ralston, of the Bank of California, married a man named Candor, in Paris, a few days ago, and will reside there.

GENERAL NOTES AND NEWS.

Gen. Grant arrived at Liverpool, England, May 28th. Sixteen thousand more soldiers are to be sent to Cuba from Spain.

The Attorney-General of New York says that nothing of interest to the public will likely come from Tweed for a long time.

W. W. Upton, ex-Chief Justice of the Supreme Court of Oregon, has been appointed Second Comptroller of currency at Washington.

Hon. E. A. Cronin, Judges B. F. Bonham and L. L. McArthur, were all up in Baker City last week attending court. The "famous" Sawtelle Troupe are there also.

France annually produces \$500,000,000 of grain, \$25,000,000 of wine, and \$60,000,000 of vegetables. Her total annual product of the soil exceeds in value \$1,000,000,000.

T. Adolphus Trollope is engaged on the life of Pope Pius the Ninth.—*Exchange*. If he don't get away with the life of the old gentleman there's no virtue in a name.

Over \$100,000 have been embezzled from the funds of Luzerne county, Pa., by dishonest officials. Some of them have been detected and punished, but some have not.

Astoria now has a population of about 7,000 souls, among which is a representative from every nation in the world. A daily paper will commence publication there on June 1st.

Sargent, Gorham, "Boss" Carr, and all the other Federal worthies lately so beleaguered by Pinney, the defaulter, have at last put their heads together and had Pinney put in jail.

The Dalles Mountaineer says it will require at least thirty-two one thousand ton ocean ships to carry away the wheat and flour that will pass down the Columbia river this fall.

Judge O. C. Pratt, of San Francisco, fell into the hands of bunko sharps in New York and got "joshed" for a few hundreds. The whole crowd were taken before the Recorder, but the Judge lost his money and that was all.

Seven hundred Jews, deprived of a livelihood by the closing of navigation of the Danube, destitute, homeless and almost starving, in Winnin, have taken refuge under the walls of the fortress, in the rear of the bombardment.

Prof. P. V. Vallean Carties, a dancing master in New York City, commenced a qualtz at 7 o'clock p. m., a few evenings since, and waltzed unceasingly for six hours. He had about a dozen partners in the waltz and tired them all out.

A telegram of May 26, from New York, says the specie shipments of that day amounted to \$1,000,000,000, of which \$500,000,000, was in gold coin. Wasn't that a rather large coin shipment? It's only about 2,250 tons, however, of gold coin.

At Louisville, Ky., May 24th, the famous Kentucky horse Ten Broeck, made a mile dash in 1:39½, the best time on record by two seconds. Ten Broeck has now to his credit the best one, three and four mile heats on record. He will run against the two mile record.

The Russian gunboats on the Danube attacked the Turkish ironclads the other night and sunk one of them without losing a man. The sailors from the gunboats exploded torpedoes under the ironclads by diving in the dark and placing them before the Turks knew where they were or came from.

The New York *Brewer's Gazette* of March 15th says: "The quantity of Oregon hops shipped to England recently has tended to give them a preference over those of California. * * * It may be remarked that this is the first season that a marked distinction has been made between Oregon and California's."

The brickmakers in Haverstraw, N. Y., struck for higher wages, on the 25th ult., and paraded under banners from place to place compelling all men employed in yards to quit work. They finally became so violent as to compel dispersion by the military. The next day they tried it again and were roughly handled by the military.

There is a million majority of patriotic white Americans in this country who refuse to bow the knee to the Usurper. There is large comfort in this reflection, although the rest of our countrymen have become so degenerated, and apostate from the faith of our fathers, as to even rejoice that the Usurper sits in the seat of Washington.

Washington, May 28th.—Depredations upon government timber are to be detected and punished. The old system of timber agents evidently only facilitates the robberies. Secretary Schurz, acting upon the suggestions of Commissioner Williamson, recently abolished the old system and appointed special agents instead, who bear appointments as department clerks detailed for special duty under instructions of the Commissioner, who reports to the Secretary.

On May 29th, the jury in the case of Stainbrook, the Chico assassin, brought in a verdict of murder in the second degree, whereupon the other murderers, Charles and John Slaughter, Eugene Roberts and F. E. Conway, plead guilty to the same charge. Sentence will be passed on the lot next Monday, June 4th. According to California law, we believe the extreme penalty is confinement at hard labor for life. The Sacramento *Record-Union* strongly censures the jury.

A Portland paper says: "We understand that Mr. Fisk, the assayer of Portland, has completed arrangements for purchasing and has already ordered, Varney's improved patent amalgamator, which was constructed especially by the government, to order, some years since for use in the San Francisco branch mint at a cost of \$750. It is said to be the finest amalgamator on the Pacific coast. Mr. Fisk will use it at his assaying works for amalgamating different kinds of ores. This, in connection with a new stamp mill soon to be erected, will look like business." This is a mill put up by the assayer for the purpose of giving thoroughly practical mill tests to any quantity of quartz which may be sent to him by prospectors and ledge owners in Oregon or elsewhere.

FROM THE BLACK HILLS.

The following items are taken from a letter to Herman Helms from E. P. Vicroy, of Willow Springs, who left here last April and arrived in Deadwood City, Dakota (Black Hills), in April. It is dated May 15:

"There were 20 in our company and we hired two four-horse teams at Cheyenne to bring us here. The distance from Cheyenne to this place is 300 miles and the fare by stage is \$50. On our arrival here we found the streets of the town full of people. It is estimated that there are at least 25,000 men now in the Hills, mostly from Colorado and the East. Parties are going and coming all the time. The town of Deadwood is about five times as large as Jacksonville and fast improving, though I think they are going too fast in building. There are two saw mills in the town which do not half supply the demand for lumber. There are some very good diggings around, but I can give no idea of their extent as I have not been here long enough to examine. The greatest excitement at present is quartz, of which there are many ledges. There are three quartz mills in operation, running in all 30 stamps, and more are on the way and will soon be up. I would not advise any one to come here or to stay away, from what I know. When I am better posted I will write you again and tell you just what I think. Just now there is an excitement and stampede for a new camp struck in the Big Horn country. This is a new and really unprospected country and no one can yet tell what it will amount to. There are many good claims around this place, I know. This is the most quiet new mining camp I ever saw. Only two men have been killed here since my arrival, about a month ago. Everything is high. Flour is worth \$25 per 100 lbs; meal, \$15; coffee, 50 cts. per lb; sugar, 25; beans, 25; bacon, 25 to 30; potatoes, 15; beef, 18 to 20; butter, 50; eggs, (half rotten), 60 cts. per dozen; shovels, \$5.50 each; picks, \$6 each, and everything else in proportion. These prices will soon be reduced, however, as the roads are getting good. Lumber is worth \$40 to \$60 per M. I found here John Sinclair, a former partner of John Knowles', on Rich Gulch; also Charles Storms, once a "sport" in Jacksonville.

THE GIRLS OF OREGON.—Equitas (Mr. Wallace R. Struble), in an article on "Oregon and Oregonians," in the San Francisco *Golden Era*, pays the following tribute to the girls of Oregon:

"It would be folly for us to attempt a description of Oregon's girls. They are simply divine. It might inspire jealousy in the hearts of California's fair daughters were we to call their Oregon sisters more beautiful than they. Nevertheless we do not hesitate to pronounce the daughters of Oregon the most perfect representatives of female loveliness that we have ever gazed upon. It would infuse new vigor into the heart of the most dyspeptic bachelor to feast his eyes upon the charming naivete of these beautiful nymphs of Oregon."

LIBERAL INDUCEMENTS.—We have due-bills on the U. S. Piano Company and also the Shoninger Organ Company, which will be received at par in payment for instruments of their celebrated manufactures at factory prices. These due-bills will be sold at a discount, and those desiring either a first-class piano or organ of established reputation should call at the TIMES office.

FOUND—In front of Geo. Schump's dwelling, a breast pin. Who claims it?

SEWING MACHINES

W. C. MYER.

Ashland, Ogn., March 24, 1877.

NOTICE, STOCKMEN!

THE WELL-KNOWN DRAFT HORSE,

TURK.

WILL MAKE THE SEASON AT JACKSONVILLE, Rock Point and Sea View, commencing April 1st, at the following rates: \$5, \$10 and \$15.

Turk is 8 years old this Spring. His sire was Arabian, out of a Timoleon mare. Turk's dam was French. He is a dark chestnut sorrel, with white points, 17 hands high, and weighs 1,500 pounds in working condition.

Competent judges agree that Turk's colts will compare favorably with any yet produced in the State, and he is highly recommended by leading stock-raisers of Douglas county, where he has made several seasons.

ROBT. WESTROP.

The Meadows, Feb. 1, 1877.
