

WEARING OF THE BLUE.

BY W. F. T.

Air—"Wearing of the Green." Paddy dear, and did you hear The news that's going round...

A WEEK'S WAR NEWS. On Monday morn the news arrived, There had been bloody work...

GENERAL NOTES AND NEWS. Grasshoppers are played out in Nebraska. Work on the Yaquina Railroad is progressing.

The ill health of the Pope is aggravated by dropsy. Over four million sewing machines have been sold since they were first introduced in 1833.

Farmers never wait idly for something to turn up. They just take a plow and force business.

A recruiting office for cavalry has been opened at Astoria. It is difficult to get horses for practice.

Flour thrives on burning oil will quench the flames instanter. Remember this when your lamp explodes.

Major Reno, for attempting to kiss a brother officer's wife at Fort Abercrombie, gets suspension for two years.

Every day the wires bear news of some new revelation of the rottenness that consumed Grant's administration.

Lulu trotted against time on the 5th, at Boston—trying to beat 2:14. She made three heats in 2:18 1/4, 2:16 3/4 and 2:19 1/4.

The Grant county Times gives an account of new gold mines having been discovered south of Canyon City that are very rich.

Because a man who attends a flock of sheep is a shepherd, makes it no reason that a man who keeps cows should be a coward.

Field Marshal von Moltke says that unless diplomacy intervenes the war in Europe may last two years as well as three or six months.

Are blacksmiths who make a living by forging, or carpenters who do a little counter-fitting, any worse than men who sell iron and steel for a living?

At a late meeting of the Regents of the State University the time for the beginning of the next school year was fixed for the third Monday in September.

It Oxford would confer upon Grant some degree which would make him understand the Constitution and laws of the United States, it would be a great thing for him.

Pinchback says the Chinese damsels in San Francisco are much fairer than the colored ladies down South. This is a bad confession for a respectable colored Senator (?) to make.

Twenty girls living in Utica have been arrested for blowing horns before the door of a newly married couple. The Judge spoke of it as "the shocking kind of depraved depravity."

There have been, up to the present time, 3,500 cases less salmon shipped from Astoria than there were the corresponding period of 1876, and the Astorian says the docks are kept clean.

"Pa," asked an up-town boy, "what is meant by Paradise?" "Paradise, my son," replied the father, gloomily...

New York, July 24.—A Washington special states that Mr. Hayes says his Southern policy is no longer an issue; that he did what he thought was right, and talking won't change that which has been accomplished.

Dull times have driven many of our merchants to the cash system, and they now ornament their stores with mottoes like these: "Pay to-day, trust to-morrow," "If I trust, I bust," "In God we trust—all others cash."

My experience in planting corn has been that more can be raised per acre where there is but one stalk in the hill than where there were six; better two than five; three than four; that is, three stalks per hill give the best yield.—Prairie Farmer.

Our dispatches inform us of another terribly destructive storm which visited Indiana, Ohio, Pennsylvania and New York, on the night of the 30th of June and the first of July. Much damage was done to property and many persons were killed and wounded.

The most original spelling we have ever seen is the following, which is taken from an old book; it beats modern phonetics: "so oh! pea—a top. Beso bat. See so—cat. Pea so—pat. Are so—rat. See oh! double you—cow. See you be—cub. See a the—cab. He you double tea—butt. See a double ell—call."

If you desire to see thy child virtuous, let him not see his father's vices; thou canst not rebuke that in children that they behold practiced in thee; till reason is ripe, examples direct more than precepts; such as thy behavior is before thy children's faces, such commonly is theirs behind their parents' backs.—Quarles.

A use has been discovered for the hitherto purely ornamental peccot. A Nebraska farmer recently noticed one of the tribe busily eating from the ground in a field—and an examination discreetly made after the animal had retired showed that it had stripped the ground over which it had passed of grasshopper eggs, which were about ready to hatch.

Harrisburg Patriot: Thousands of Republicans in Pennsylvania express their regret that they did not vote for Tilden last year, and thousands more promise that they will vote for him if they ever get an opportunity. They would like to purge themselves in this way of the great fraud upon the country in which they were implicated by the party leaders.

The Argonaut pertinaciously intrudes these disagreeable questions: Will some body be kind enough to explain where we are drifting to, and where we are likely to bring up? Where is this thing going to end? We can't all live by swindling each other; we cannot all steal ourselves rich! Who are going to be poor? Who are going to keep the prisons when we all get into them?

New York, July 24.—The Tribune's Washington special says: Robeson, ex-Secretary of the Navy, is, according to Washington gossip, one of the bitterest of the opponents of the present Administration. He is said to be outspoken in his denunciation of Mr. Hayes, declaring that had he known what kind of Secretary would succeed him, Hayes never would have been President.

Col. Hardee, of Florida, a few years since advanced the theory that concussion, i. e., jarring fruit trees or firing a gun a few times among the branches, would drive away insects. This theory has rapidly spread, and has been adopted by many who have practiced it; and it is now said that blowing up the soil among grapevines, with dynamite or other explosive material, will destroy the grape-louse.

A man by the name of Cook, who was discharged from the Penitentiary, on the 30th ult., after serving two years for a robbery committed in Yamhill county, came to Salem and, obtaining a revolver, returned the same night with the avowed determination of effecting a general escape of the prisoners. He was discovered by the guard and after notice fired at, the shot taking effect in the fleshy part of the right arm. Cook discharged his revolver twice without effect and then took leg bail, being arrested afterward.

The State Dental Association has been in session at Salem last week. Dr. L. S. Skiff was elected President; G. W. Gray, of Albany, Vice President; S. J. Barber, Portland, Corresponding Secretary; E. O. Smith, of Albany, Treasurer. After an animated discussion it was resolved that, "owing to the risk attending the use of all anesthetics in surgical operations, and the very great danger in the administration of chloroform in such cases, that the Association disapprove of the use of chloroform as an anesthetic in dental operations, therefore do recommend and respectfully request all persons engaged in practice of dentistry in the state of Oregon to discontinue its use as an anesthetic, believing that by adopting such a course we shall do honor to our profession as well as justice to our patients."

Farmers, Mechanics, and all people who appreciate the value of keeping a memorandum of business transactions, daily events, and items of interest or importance, for future reference, should call on their druggists and get Dr. Pierce's Memorandum Book free. The Doctor's Grand Invalids' Hotel at Buffalo, which costs, when finished, two hundred thousand dollars, will be opened early in June next, for the reception of patients afflicted with chronic diseases and deformities. It will afford the most perfect facilities for the cure of such affections, and its Faculty of physicians and surgeons will embrace graduates from both American and European Medical Schools who have become distinguished for their skill. The People's Common Sense Medical Adviser, by Dr. R. V. Pierce, a work of over nine hundred large pages, illustrated by two hundred and eighty-two engravings, and elegantly bound in cloth and gilt, is sent to any address by the Author on receipt of one dollar and fifty cents. Almost one hundred thousand copies have already been sold.

S. A. CRAIG, Esq., druggist, of West Alexander, Pa., says: "I sell more of Dr. Pierce's preparations than all others combined. They give satisfaction in every case and I can cheerfully recommend them to the public."

THE LOCAL EDITOR.—The position of local editor of a newspaper is one that, as a general thing, is not understood by the people. They expect him to know everything that is going on, as well as that that is not. They expect him to see everything. They expect him to give their stores, hotels and other places of business, long and good puffs in the local column free of charge, but the store-keeper never thinks to give him a new suit of clothes, a hat or pair of boots, oh, no; they cost money; and the hotel keeper never gives him a week's board! oh, no! their grub costs money! but they seem to think his time is worth nothing and that paper and ink is worth nothing, and that it costs nothing to have printers set up the type, and that the room in the paper that is occupied by their local is worth nothing, but still they want the local notice, for it is a great benefit to their business. Persons getting up balls, parties and entertainments, where they expect to make money, want him to give them long and spicy local notices before the affair comes off, and then they want him to give them a rousing notice after the affair comes off, so as to help them in their next effort in the same line; but they never offer to give him a free ticket, so that he can go and see what is done—they expect him to pay his own way, and then to give them a local notice worth to them as much or more than the price of a dozen tickets would amount to. If you want the local editor to notice what you have to sell, or what you are going to do, pay for the notices, or at least keep him free from expense while he is doing what he can to help you along in your undertakings. The laborer is certainly worthy of his hire.

HINTS FOR POOR SLEEPERS.—Poor sleepers, says the Herald of Health, will find it advantageous often to raise the head of the bed a foot higher than the foot, and then to sleep on a tolerably thick hair pillow, so as to bring the head a little higher than the shoulders. The object of this is to make the work of the heart in throwing blood to the brain harder, so it will not throw so much. A level bed, with the head almost as low as the feet, causes an easy flow of blood to the brain, and sometimes wakefulness, when the vessels cannot contract on it and keep the brain empty.

A very hard or very soft bed is not the thing. Hair mattresses are often best, but these might be improved. Then the bedding should be porous, so as to allow free interchange of air. Airtight beds are bad. So, too, the room should be large and airy, and the feet kept warm, and persons with a sensitive skin should have as light clothing as possible. Heavy clothing sometimes keeps the sensory nerves of the skin so active that they send to the brain sensory currents that keep this organ active.

Whether sleeping with the head to the north makes any difference we do not know. It seems to in some cases, and in others not. It may be well to try it. Generally sensitive folks sleep better to have a bed to themselves.

A LEGEND ABOUT COFFEE.—There is a legend about coffee—a legend in which a pious Mussulman is the hero. The Mussulman used to get sleepy during his devotions, and so he prayed to Mohammed, who came to his aid. Mohammed sent him for advice to a goat-herd, who took a hint from his goats.

He observed that when these animals ate the berries of a particular tree they got frisky and excited—bounded about all night, in fact. The Mussulman took the hint, ate the coffee-berries, slept less and no doubt prayed better.

That was the legend. That coffee, however, was sold in the streets of Cairo toward the end of the sixteenth century is not a matter of legend, but history. In fact, it was not only sold, but forbidden to be sold. An Arabian historian recounts that in the year 1538 a cafe was attacked by the authorities, and the customers who were found on the spot hurried off to prison, from which they were not liberated till they had received seventeen strokes with a stick, for the encouragement of others. And, in fact, this raid served the purpose so excellently that five and twenty years afterward the town of Cairo could boast of more than 2,000 shops where coffee might be bought.

New handkerchiefs have monograms or initial letters worked in three or four different colors. Those having cambric centers and silk borders are selling at remarkably low prices.

The best way to discourage a boil is to seek a right slippery place on the wet pavement, and then, when the boil ain't looking, come down on it flop.

HIGHEST HONORS

AT THE—

CENTENNIAL WORLD'S FAIR 1876!

THE

SHONINGER ORGANS

Pronounced unanimously as

THE BEST INSTRUMENTS!

Their comparative excellence is recognized by the Judges in their Report, from which the following is an extract: "THE B. SHONINGER ORGAN CO'S. ex- hibit the best instruments at a price render- ing possible to a large class of purchas- ers, having a combination of Reeds and Bells, producing novel and pleasing effects, containing many desirable improvements, will stand longer in dry or damp climates, less liable to get out of order, all the boards being made three-ply, put together so it is impossible for them to either shrink, swell or split." THE ONLY ORGANS AWARDED THIS RANK.

This Medal and Award was granted after the most severe competition of the best mak- ers, before one of the most competent juries ever assembled. New Styles and prices just issued, which are in accordance with our rule, the BEST ORGAN for the least money. We are prepared to appoint a few new Agents. Illustrated Catalogues mailed, post-paid, on application to B. SHONINGER ORGAN CO., 97 to 123 CHESNUT STREET, NEW HAVEN, CONN.

1,000,000 BOTTLES

OF THE

Centaur

Liniments

have been sold the last year, and not one complaint has reached us that they have not done all that is claimed for them. In- deed, scientific skill cannot go beyond the result reached in these wonderful prepara- tions. Adding to the list, Arnica, Mentha, Seneca-Oil and Witch-Hazel, are other in- gredients, which make a family liniment that defies rivalry. Rheumatic and bed- ridden cripples have by its been enabled to throw up the crutches, and many who for years have been afflicted with Neuralgia, Sciatica, Caked Breasts, Weak Backs, &c., have found permanent relief.

Mr. Josiah Westlake, of Marysville, O., writes: "For years my Rheumatism has been so bad that I have been unable to stir from the house. I have tried every remedy I could hear of. Finally, I learned of the Centaur Liniment. The first three bottles enabled me to walk without my crutches. I am mending rapidly. I thank your Liniment simply a marvel."

This Liniment cures Burns and Scalds without a scar. Extracts the poison from bites and stings, cures Chilblains and Frosted-Feet, and is very efficacious for Ear- ache, Itch and Cutaneous Eruptions.

THE CENTAUR LINIMENT, YELLOW WRAP- PER, is intended for the tough fibres, cords and muscles of horses, mules, and animals. READ! READ!

Rev. Geo. W. Manorkill, Schoharie Co. N. Y., says: "My horse was lame for a year with a fet- lock wrench. All remedies utterly failed to cure and I considered him worthless until I commenced to use Centaur Liniment, which rapidly cured him. I heartily recom- mend it."

It makes very little difference whether the case be "wrench," sprain, spavain or lameness of any kind, the effects are the same. The great power of the Liniment is, however, shown in Poll-evil, Big-head, Sweeney, Spavin, Ring-bone, Galls and Scratches. This Liniment is worth millions of dollars yearly to the Stock-growers, Livestock-men, Farmers, and those having valuable animals to care for. We warrant its effects and refer to any Farrier who has ever used it.

CHILDREN

A complete substitute for Castor Oil, with- out its unpleasant taste or recoil in the throat. The result of 20 years' practice by Dr. Sam'l Fitcher, of Massachusetts.

Fitcher's Castoria is particularly recom- mended for children. It destroys worms, assimilates the food, and allows natural sleep. Very efficacious in Croup and for children Teething. For Colds, Feverish- ness, Disorders of the Bowels, and Stomach Complaints, nothing is so effective. It is as pleasant to take as honey, costs but 35 Cents, and can be had of any Druggist.

This is one of my most testimonials! "CONWALL, LEANOR CO. PA., } March 17, 1874.

"Dear Sir,—I have used your CASTORIA in my practice for some time. I take great pleasure in recommending it to the profession as a safe, reliable and agreeable medicine. It is particularly adapted to children where the repugnant taste of Castor Oil renders it so difficult to administer. E. A. ENDERS, M. D."

Mothers who try Castoria will find that they can sleep nights and that their babies will be healthy. J. B. ROSE & CO., New York.
