

WHEN WE ARE DEAD.

The winds will sleep, the winds will blow, The changeless seasons come and go, The sky will bend far overhead, Just as of old, when we are dead.

And when our restless feet are stilled, No single place will be unfiled; When we are silent there will be No break in Nature's harmony.

Still, watchful eyes will ever trace The varying beauties of her face, While yet her great deep heart will hold Room for her children as of old.

Others for us will come and go, And worthier hands than ours, we know Will take the work we left half done, And weave its threads out, one by one.

Then other feet will wander in The self-same ways of doubt and sin, And other shoulders bend to bear The weight we dropped of daily care.

While sad hearts grieve, while tired eyes Weep, Shall we care, lying fast asleep? Earth's storms shall lightly o'er us pass, As Summer breezes o'er the grass.

We know the world will still move on To nobler ends than we are gone; We know her heroes yet still strive That truth and right be kept alive.

And Mother Nature will not grieve If prone upon her breast we leave The form she gave, and still may take Back to her hands to mould and make.

Her doors are open wide about— And Life and Death pass in and out; And every part of earth's great round Will under each in turn be found.

They come, they go, and with them bear All things that have been, and that are; They come, they go, and shall not cease While the great tides of years increase.

GENERAL NOTES AND NEWS.

Charley Ross was stolen three years ago July 1st.

Gen. Howard's luck was not as good as Mrs. Potipher's—he didn't even capture Joseph's garment.

A whale 56 feet long came ashore last week at Yaquina. It had been harpooned, and was dead before it washed ashore.

The Cabinet has decided to send a man-of-war to Puget Sound from San Francisco on account of threatened Indian outbreak.

When a couple of young people strongly devoted to each other commence to eat onions, it is quite safe to say that they are engaged.

Hayes has issued an order prohibiting the sale of arms and ammunition to Indians, and revoking all licenses to trade with them in such articles.

Why is paper money more valuable than gold? When you put it in your pocket you double it, and when you take it out find it is still in creases.

The authorities of Deadwood City, Black Hills, offer a reward of \$250 for each Indian, dead or alive, found in the country. No questions are asked.

A little boy, whose sprained wrist had been relieved by being bathed in whisky, surprised his mother by asking "if papa had a sprained throat?"

A little boy asked a lady who made her teeth, "My Creator," she replied, "Well," said the little fellow, "Dr. Forbush made my ma's, and they beat your clean out o' sight."

In a Philadelphia court, the other day, a man named Moisten was defended by a lawyer named Goforth. It is no unusual thing to see a lawyer and his client go forth and moisten.

The Portland papers speak of the death of Hon. Josiah Failing of that city, at the age of 71 years. Mr. Failing was one of the pioneers in Oregon, having immigrated here in 1851.

In most places "a stone's throw," "five minutes' walk," etc., are used for measures for short distances. In Dubuque, however, they speak of a place as being "within the bowl of a mule."

Those Auburn-haired young ladies with noses suggestive of a cold morning, and who missed fire during the leap year past, now sing, "It may be four years and it may be forever."

A Wisconsin constable levied on the "un-dignified" of a gray mule. He wasn't particular which end he took, and it was thirteen days before he opened his eyes and recognized his wife.

The Russian army, in the Balkan Mountains, are unable to move without reinforcements. One hundred thousand men are on the way to the scene of operations in accordance with this view.

Senator B. H. Hill, of Georgia, knows Senator Morton, the wearer of the bloody shirt. Speaking of him in a recent speech, in his own State, he said: "Morton is worse than war, pestilence or famine."

A San Francisco man has obtained a divorce on account of the cruelty of his wife, and this man's success may cause several other men to claim divorce on the same grounds, i. e. cruelty, which can be of different varieties.

A solitary Colorado potato bug was discovered the other day in a field near Cologne, Germany. The cable informs us that the entire field was covered with a layer of tan-bark, saturated with petroleum, and set on fire, the government indemnifying the proprietor.

The people of this State will be glad to learn, by the following, taken from the San Francisco Echo, that Oregon's former Governor yet lives: "The so-called Governor Woods is in this city. The question among the free lunchers is, what office is he trying to get now? We know one thing he is sure to get—the grand American bounce."

The latest delusion and snare in San Francisco is a piece of glass cunningly cut into varnish-like of ice, which is put into an intoxicated man's cooling draught. This is becoming much in vogue among the corner grocers as a money-saving dodge. The victim, being drunk, of course does not detect the cheat, but he luxuriates in fancied frigidities.

"The Age of Reason."

The boy that went to the mill on horse-back, carrying the grain in one end of the bag and a stone in the other, when reproved by the miller, and told to divide the grain, replied that his father and grandfather had carried it that way, and he, being no better than they, should continue to do as they did. Similar, or equally as absurd, reasons are accounted as sufficient by some to warrant them in discriminatingly condemning Dr. Pierce's Family Medicines, even though there is convincing proof that they possess the merit claimed for them. For many years the Golden Medical Discovery has been recognized as the leading liver and blood medicine in the market. Each year has brought an increase in its sale, and it is now used throughout the civilized world. Thousands of unsolicited testimonials are on file in the Doctor's office, attesting its efficacy in overcoming aggravated coughs, colds, throat and lung affections; also scrofula, tumors, ulcers, and skin diseases. Are you suffering with some chronic malady? If so, and you wish to employ medicines that are scientifically prepared; that are refined and purified by the chemical process employed in their manufacture; that are positive in their action, and specific to the various forms of disease for the cure of which they are recommended, use Dr. Pierce's Family Medicines. Full particulars in Pierce's Memorandum Book, kept for free distribution by all druggists.

From a Physician.

Hyde Park, Vt., Feb. 7, 1876. Messrs. Seth W. Fowle & Sons, Boston: Gents—You may perhaps remember that I wrote you several weeks ago in regard to the use of the PERUVIAN SYRUP for my wife, who was suffering from general debility, the sequense of Typhoid Dysentery. I had tried the most noted physicians in this State, and also in Canada, without relief. At your recommendation she commenced the use of the Syrup. The first four bottles made but little impression, but while taking the fifth she began to improve rapidly, and now, after using six of the dollar bottles, she has regained her strength, and is able to do most of the work about the house, and I feel that I cannot speak too highly in praise of the PERUVIAN SYRUP. I have prescribed it to several of my patients, and presented the case of several of them to you. You can make any use of this letter you see fit. Yours very truly, H. D. BELDEN, M. D.

"It's only a cough"

has brought many to untimely graves. What is a cough? The lungs or bronchial tubes have been attacked by a cold; nature sounds an alarm-bell, telling where the disease lies. Watson suggests "WATER'S BALSA OF WILD CHERRY." It has cured, during the last half of a century, thousands upon thousands of persons. As long as you cough, there is danger, for the cough is a safety valve. Use "WATER'S" and be cured. Sold by all druggists.

THE UNDERSIGNED, BELIEVING IT to be the mutual advantage of millers and farmers, have made arrangements whereby the Ashland and Phoenix mills will be under the management of Jacob Wagner, who will have charge of both mills for the company during the ensuing year, ending July 1st, 1877.
