P. O. BUSINESS.—During the year 1877 1,254 money orders were drawn at the Jacksonville Post Office, which amounted to \$17,143 21. During the last quarter 137 letters were registered.

EMPLOYEES DISCHARGED.—Klippel, Hanna & Co. have taken a "new departure." The work on their ditch is to be done by contract hereafter, in consequence of which the employees were all discharged last week. We learn that the contractors are chiefly employing Chinamen.

LEFT US.—Dr. J. S. Jackson, who has been with us since October last, returned to California on Wednesday and will locate at Oakland. The Doctor is a physician of skill and experience and a thorough gentleman, and, while regretting his departure, we wish him success wherever he may go.

FROM CINNABAR.—Capt. Caton was over from Beaver creek this week, and reports matters at the Emline as flourishing. Three hands are at work taking out ore, which is fully as good as it ever was. Ground-slucing was stopped by the late freeze, but work has been steadily continued on the vein. Mr. Caton says little snow has yet fallen, and exit from the mines is not attended with any difficulty as yet. He returned Wednesday.

GRANGE INSTALLATION.—At a regular meeting of Phoenix Grange No. 104, P. of H., held January 11th, the following were installed as officers by F. M. Plymale, P. M., of Jacksonville: Grange: J. F. Cooper, W. M.; W. S. Goer, O.; J. S. Herrin, L.; S. C. Taylor, S.; J. W. Herrin, A. S.; E. E. Goer, C.; J. M. Hoxie, Sec.; M. H. Coleman, G. K.; Mrs. S. Coleman, C.; Miss A. J. Goer, P.; Miss Mary Herrin, F.; Miss E. Cooper, L. A. S.

RUNAWAY.—Early last Friday morning, while on the way to Kerbyville, John A. Boyer lost the road through the darkness and, in regaining it, upset the buggy and damaged it so he was obliged to return to town. Near the residence of Louis Hubert the animals conceived an idea of running away and rushed down Oregon street at a rattling pace. John held to the reins with a firm grip and kept them in the road, but, in attempting to run them into Plymale's stable, he had a narrow escape from a general smash-up, as the animals continued on over ditches, banks, logs, etc., *ad libitum*. He got them turned around, however, and was successful in running the tongue of the buggy through the stable window and stopping the team. Considerable damage was done to the vehicle and one horse received some damages; but Mr. Boyer miraculously escaped without any injuries. He secured another turnout and continued on his way rejoicing that things were no worse.

W. A. McPherson was appointed Justice of the Peace of Ashland precinct.
The petition of Levi Gartman and others for a view and survey of a county road from Woodville, up Evans creek, to the county road running through Ramsey canyon, was granted and T. H. Fielder, James E. Slinger and D. N. Birdsey were appointed viewers, and M. Lindley, surveyor.

The petition of F. M. Bailey and others for a change in the county road leading from Jacksonville, via Kennedy's ferry, to intersect Bybee's ferry and Fort Klamath road, was granted. E. Emery, James Miller and Geo. W. Isaacs were appointed viewers and M. Lindley, surveyor.

The report of the viewers on a change of the county road leading from Jacksonville to Big Butte creek, via Brownsborough, was accepted and it was ordered that said road be established as recommended.
Road District No. 11 was divided as follows: Commencing on the road at the west end of Footh creek bridge and running thence southerly up the west bank of Footh creek to the township line between townships 36 and 37, south of range 4, west, and following thence west on said township line to the west boundary line of Jackson county, including all settlers between said township line west of said bridge and Rogue river to said county line.

Lucky Queen Items.

The appraisal of the estate of James Dreds took place last Monday at Leland.

Dr. W. B. Royal, who has been sojourning at this place, looking after the interests of the Lucky Queen Company, started for his home at Oakland last Monday evening.
The general interests of the Lucky Queen mine are being well looked after. A late strike of very rich ore in a large body was made in drifting to the north of the 100-foot level. The ore is very rich in silver and gold. And more, the company contemplates permanent works for the hoisting of ore and working of the same.

EXAMINER.
RICH ROCK.—Kahler & Co., of the Ft. Lane mine, are now sinking down in the tunnel run last year and taking out some immensely rich ore. Gold can be seen in large quantities all through the rock. T. P. Kahler, one of the proprietors, pounded up a lot last week and realized \$60 worth of gold as the result of three days' labor. This may possibly be a continuation of the old Gold Hill mine, which paid so largely in former days. What there is of it is very rich, and, judging from the specimens secured, would pay fully \$100,000 to the ton.

I. O. O. F. INSTALLATION.—At a stated meeting of Kerbyville Lodge No. 55, I. O. O. F., held on the evening of the 12th inst., John A. Boyer, D. D. G. M., installed the following officers for the ensuing term: Thos. G. Patterson, N. G.; M. Ryder, V. G.; Chas. Hughes, Sec.; A. H. Platter, Treas.; Jas. Hughes, R. S. N. G.; A. J. Adams, L. S. N. G.; S. W. Forbes, C.; James Spence, Warden; Chas. Anderson, I. G.; D. Fiester, R. S. V. G.

PROFESSIONAL.—In another column will be found the card of Dr. Vrooman, late of Chico, Cal., who intends permanently locating among us. The Doctor is well recommended and comes in quest of his health. Read what he has to say.

Board of Trustees.

TUESDAY EVENING, Jan. 15th.
The Board of Trustees met in regular session this evening, a full Board present—except Mr. Reames—President Linn in the Chair.

The third quarterly report of the Sexton was accepted and ordered filed.

Hopkins' bill was referred to Road Committee and U. S. Hayden's bill was ordered paid. The others were referred to the usual committee.
A petition was received from Wm. Eaton to purchase a fraction of lot fronting on the Applegate road. Referred to a special committee consisting of Messrs. Nunan and Kubli.

Atkinson & Webb were granted a liquor license.
Mr. Nunan submitted an ordinance for the protection of street lamps and shade trees, which was read a third time and passed.
Mr. Kubli was excused from non-attendance at the previous meeting.

The Board then adjourned until Friday evening, the 25th inst.
THE KILLING OF DODGE.—In the last issue of the TIMES it was announced that Capt. Wallace, of Warner valley, had killed a man, (who turned out to be Samuel Dodge) but gave no particulars. We receive further details through the Canyon City Times of January 5th, which says:

On the night of the 24th of December Wm. Wallace shot and killed Samuel Dodge near Big Hill in Warner Valley, in this county. The parties had both been to Camp Bidwell, distance some 20 miles from Warner, and the homicide was enacted within a few miles of the latter place. Dodge left Bidwell at 8 o'clock on the morning of the 24th, on horseback. Wallace left at 11 A. M. the same day, driving a two-horse buggy. There was a bad feeling existing between the parties, and it is said that Dodge had openly avowed an intention of killing Wallace.

Sometime during the night, following his departure from Bidwell, Wallace returned home and informed his family that he had killed Dodge, and dispatched a herald in his employ to his nearest neighbor, a Mr. Gilliam, to tell him of the homicide. Gilliam, in company with Mr. Lockhead, a partner of Dodge's, found Dodge at the foot of Big Hill breathing his last, with three pistol shots on his person. His body was conveyed to his home. No weapons were found on or near him.

On Tuesday last Capt. Wallace came to Canyon City and gave himself up. He was followed soon after by Lockhead and Gilliam, the former who is prosecuting witness. The examination was going on as we went to press.
RICH ASSAY.—Capt. J. H. Fisk, of Portland, the other day completed the job of making a milling test of a quantity of quartz rock from the Peavine and Peacock ledges, which are located six miles from Jacksonville, on Rogue river, in Josephine county, and are owned by Wm. Bybee and Isaac Cox. Mr. Fisk milled 2,300 pounds of the rock, which is gold-bearing, from which he obtained "a bar of 6 12-100 ounces of gold, 895 fine, worth \$18.50 per oz., making the whole yield worth \$113.42." The *Bea* says the assayer says "this ore is the richest and best gold-bearing rock that it has ever fallen to my lot to work by mill."

There is no doubt but what there are immense quantities of the precious metals in Southern Oregon, and we hope they will be developed, thus adding to the industries and wealth of the State.
The *Sentinel* denies that it has been sold to Wm. Bybee or anyone else. Will it deny that negotiations are or have been pending for the sale? It is passing strange that a Salem paper should connect Mr. Bybee's name with such a transaction. And that there is no significance in Wm. M. Turner's visit to headquarters will be more transparent in the future.

QUARTERLY MEETING.—The next quarterly meeting of the M. E. Church will be held at the Manzanita Church on February 2d and 3d. A full attendance is requested.
W. HURLBURT, Pastor.

NEW VOLUME.—The Jacksonville (Or.) TIMES has entered on its eighth volume. The TIMES is one of the best local papers in Southern Oregon, and we wish its success in the future, which it richly deserves.—*Crescent City Courier*.

How IS THAT?—Everybody is talking so much about Donnelly's Yeast Powders. It is the general conversation at every breakfast table. It is because they make such delightful biscuits. Can't help talking about them.

THERE IS AN UNUSUAL NUMBER OF bidders for mail contracts this year. No less than a dozen bids have been put in for the Sam's Valley and Butte creek route. The prospects are that the successful bidder will perform the service for a song.
NOTHING but intrinsic merit can account for the enormous sales of Freese's Hamburg Tea, the demand for which is constantly increasing. The reason is obvious to all. It is a purely vegetable preparation, mild, yet efficient in its action—carrying off all impurities from the system, and imparting a glow and vigor, which only those who have used it can appreciate.

VARIOUS CAUSES—advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S Hair Vigor will restore faded or gray, light and red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes all cruds, dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brassy, weak, or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.
