"Hard times" is the greatest worker in the cause of temperance.

State taxes in Oregon are \$6.40 per capita; in California, they are \$14 per capita.

According to the late assessment the total value of property in Portland is \$8,800,728.

Suleiman Pasha could never enjoy his breakfast unless he had first hanged fifty Bulgarians.

They say that Dr. Mary Walker, growing extravagant, talks of trimming her pantaloons with old lace.

An exchange says: "Ladies will soon have to lift their hats when they sit down, if fashion is not changed in the other direction."

Over a million of dollars have been sent from Washington to the Eastern States in trade dollars. A profit of 3 per cent. is thus made.

Gold and greenbacks are getting so close together in value that they are liable to "clasp hands across the chasm" at almost any moment.

A Kentucky farmer appropriates the yearly product of one acre of his farm to the purchase of reading matter for himself and family. Wise.

An orator declaring that fortune knocked at ever man's door once, an old Irishman said: "When she knocked at mine, I must have been out."

The Alabama Democrats are overhauling Spencer's record, and claim that he will soon have as many indictments hanging over him as Patterson rests under.

Samwell lost two of his most valuable dogs—one being the "Clown"—while at Empire City recently. One of the troupe is suspected of having poisoned them.

Our Oregon Senators were "split up" on the Matthews silver resolution. Grover voted for it and Mitchell against. Which is the friend of the people, and which of the bondholders?

How nice it is to sit down and write your girl a delicately perfumed love-letter, and then to have that letter travel for a day or two in the same bag in which a codfish is journeying by mail.

All stock should be sheltered during cold, damp weather. It is inhuman to allow stock to stand out in all kinds of bad weather. Besides, good shelter saves feed and keeps off disease.

A Detroit woman who was turned out of her house for non-payment of rent, went out in good style, putting on silks and jewelry, and having her hair frizzed in extra style for the occasion.

The Chicago Post says: Stanley Matthews only got two votes in the Republican caucus at Columbus, for the complimentary vote of the minority. The "friend of the President" seems to be losing ground.

We find in an Eastern exchange that the largest plow ever manufactured has just been made in Stockton, Cal. The moldboard is 8 feet long, and a team of twelve animals is required to pull it.

An exchange aptly illustrates the uncertainty of riches as follows: "A few years ago Mrs. Kate Sprague paid \$2,000 per yard for dress material. To-day her husband's paper sells for 2 1/2 cts. on the dollar."

A new industry is said to be extending in Paris. It consists in the manufacture of a cloth, much lighter and warmer than wool, from the feathers of domestic and other birds. The material is waterproof and takes dye readily.

The area of the United States, including Alaska, its latest acquisition, is 3,693,844 square miles. The area of Europe, including the adjacent islands, which contain about 317,000 miles, is 3,250,000, of which Russia owns nearly one-third.

While out sketching wild scenery in the neighborhood of Shasta, Cal., a couple of romantic misses stumbled over a rich ledge of gold quartz. The art instinct instantly gave way to the practical, and they hurried away to file their claim to what may prove a fortune.

The Congressional Directory shows that out of 369 members of Congress only 103 are natives of the States which they represent. Only one State, North Carolina, is represented entirely by native-born citizens, while the delegations of ten States do not contain a single native.

At the show-window of Mr. Morse, Portland, can be seen on exhibition the veritable scalp of the Indian Chief American Horse, Sitting Bull's right hand man, who was killed and scalped by Captain Jack Crawford, who is now appearing at New Market Theater, Portland.

Thirty years ago J. W. Mackey left Ireland a penniless boy. Twenty years ago he was traveling in this country as a drummer. Sixteen years ago he was bankrupt. Now he owns some of the richest mines on the Pacific coast, and has a yearly income estimated at nearly \$14,000,000.

The reports to the National Grange show that there are now 14,634 subordinate granges, with 585,537 members in the United States. Ohio has 1,214; Indiana, 1,145; Iowa, 1,018; and Kentucky, 1,003. No other States have more than 1,000 granges. The number of new granges started last year was but 115.

On a very rainy day, a man entering his house was accosted by his wife in the following manner: "Now, my dear, while you are wet, go and fetch a bucket of water." He obeyed, brought the water, and threw it all over her, saying, at the same time: "Now, my dear, while you are wet, go and fetch another."

It is the opinion of Southern papers, almost without exception, that the negroes in the South are dying almost at the rate of four to one, as compared with the whites. The causes are uncleanliness, lack of proper food, clothing, shelter and cooking, sensual excesses of all kinds, drunkenness, neglect of the sick, the preference of "conjurors" to physicians, and absence of proper precautions against contagious diseases.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effective for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a

HAIR DRESSING,
