

# The Democratic Times.

FRIDAY, MARCH 8, 1878.  
ALL SORTS.

An era unknown to women—the middle ages.  
Late statistics show that the Yankee is the tallest of civilized men.

A man shows his character by what he laughs at, and his culture by the way he does it.

The report of the Secretary of the Mexican Veterans' Association shows a membership of 4,940.

Forty cases of poisoning have resulted at Richford, Vermont, from using water from an infected well.

If a girl wants to fetch her bean, let her give him a pinch of snuff. That will bring him to his senses at once.

Senator Plumb has introduced a bill to suppress gambling in the army by means of an additional article of war.

Fears are entertained of the postponement of the Paris Exposition on account of the threatening aspect of European affairs.

The Secretary of the Treasury has issued instructions to the San Francisco and Carson Mints to coin no more trade dollars.

The charge of kidnapping against George H. Durham, a prominent lawyer of Portland, has been ignored by the Grand Jury.

The President has appointed as Honorary Commissioners to the Paris Exposition H. D. Sanborn and John Van Beuden, of Oregon.

There is a man in Buffalo of such punctual habits that he carries his watch in his coat-tail pocket, so as to always be "ahead of time."

Senator Lamar, of Mississippi, after being instructed by the Legislature of that State to vote for the silver bill, refused to obey instructions.

Wm. H. Purple, of Romeo, was married to Miss Ella Green, of Hudson, recently. They were not colored people, as you might infer from the names.

A tree-felling machine has been invented in England by Mr. Ransome, which, worked by three men, will do as much work as twenty-four workmen felling by the ax.

We are informed that \$55,000, the amount necessary to build the first ten miles of the Corvallis and Yaquina railroad, has been subscribed, and work will be commenced at once.

By a vote of 165 to 88 the House of Representatives adopted a resolution in favor of a graduated income tax. It is proposed to reach bond-holders who now escape taxation.

A young woman in Rochester, N. Y., has sued for damages a man who kissed her. A man who can't kiss a woman without damaging her ought to pay for his awkwardness.

Some ingenious observer has discovered that there is a remarkable resemblance between a baby and wheat, since it is cradled, then thrashed, and finally becomes the flower of the family.

C. W. Hellenbrand, of Grand Ronde valley, came near dying one day last week from drinking IXL Bitters, which it is supposed were poisoned, though it is said the bottle was kept where it could not have been tampered with.

The culture of coffee in California is becoming profitable. The plant grows as vigorously as in the coffee countries of South America, and yields a bean of strong aromatic flavor. Central and Southern California are the regions peculiarly favorable.

Considerable excitement is evoked over the reports from the Caribbees. Several companies have opened claims. Labor is reported scarce at Caribbees, as every man there either already owns a claim or is engaged in the endeavor to possess one.

The House bill to relieve the disabilities of women, providing that when a woman has been a member of the highest court in any State or Territory, she shall, on application, be admitted to practice before the U. S. Supreme Court, passed; 189 to 64.

A stick of wood loaded with gunpowder charged by a farmer whose pile was too often visited by thieves, exploded in the stove of the Congregational Church at Bellevue, Ohio, recently, much to the consternation of the people and the scandal of the deacons.

"Nellie, my little girl, do you like having a ride on my knee?" "Yes, papa, pretty well, but not as well as to ride on a real jackass; I mean one with four legs, you know."

The father pondered on that saying, and, lighting another cigar, concluded that childhood is wise beyond its years.

Anything in the world the United States can do to compensate distillers for the trouble given them by Bristow ought to be undertaken cheerfully and without a moment's hesitation. It was a great cruelty to accuse these distillers of robbing the government, and a greater outrage to prove it. Let them have justice.

New York, Feb. 12.—In another Washington dispatch to the World the correspondent charges that the object of the committee of which Conkling was chairman was to show that Evans was trying to involve the United States in war with Mexico, and, having failed to accomplish its mission, the committee, to all intents and purposes, speedily expired.

The established mail routes in Oregon altogether exceed 3,000 miles in length, and as all have to be traveled twice each week, at least, and several six and twelve times, it is safe to say that not less than ten thousand miles of travel are required to deliver the mails each week in Oregon, or more than 500,000 miles each year—about twenty times the distance around the globe.

St. Louis has received intelligence that a Chicago woman recently lost her shoe on the prairie, and the north wind beat against it, and eddied to the right and left of it, and tried to escalate it in vain, so that people living to the leeward thereof thought the spring-time had come, and plowed the ground and planted the seed, and then went their several ways to bide the coming of the harvest.
