

WISE COUNSEL.

If you cannot on the ocean sail among the swiftest fleet, Rocking on the mighty billows, laughing at the storms you meet, You can stand among the sailors anchored yet within the bay, You can lend a hand to help them as they launch their boats away.

If you are too weak to journey up the mountain steep and high, You can stand within the valley as the multitudes go by— You can chant in happy measure as they slowly pass along— Though they may forget the singer, they will not forget the song.

If you cannot in the conflict prove yourself a warrior true, If when fire and smoke are thickest, there's no work for you to do— When the battle field is silent you can go with gentle tread, You can bear away the wounded, you can cover up the dead.

If you cannot in the harvest garner up the richest sheaves, Many a grain both ripe and golden, which the careless reaper leaves, You can glean among the briars growing rank against the wall, And it may be that the shadows hide the heaviest wheat of all.

If you have not gold and silver ever ready at command, If you cannot toward the needy reach an ever-open hand, You can visit the afflicted—o'er the erring you can weep— You can be a true discipline sitting at the Savior's feet.

Do not, then, stand idly waiting for some nobler work to come, For your heavenly Father's glory, ever earnest, ever true, Go and toil in any vineyard—work in patience and in prayer— If you want a field of labor, you can find it anywhere.

ALL SORTS.

An honest man is the loneliest work of the Creator. Returning Board Anderson has been released by order of the Supreme Court of Louisiana.

A Wyoming man won \$10 on a wager by eating twenty pigs' feet. This was a pigs' feat, indeed. In a three-ball game lately played in St. Louis, by Schaeffer and Dion, the former made the largest run on record—429.

Mackey, the Bonanza King, has an income of five dollars a minute, and yet he wears no diamond pin and puts on a clean shirt only once a day.

The Sultan has a handy way of paying borrowed money. He suddenly discovers that the leader is a conspirator, and said capitalist is at once lost sight of.

"Do you see any grapes, Bob?" "Yes, but there is dogs." "Big dogs, Bob?" "Yes, very big." "Then come along—these grapes are not ours, you know."

Prussia wants to learn the American system of taxing tobacco. It would also find very interesting the system American officials have of stealing the said tax.

A Vermont girl recently boxed the clippings from her toe-nails in some effort of which she gave a young man to drink, in the hope of winning his affections.

A mass meeting of the boys of the Burlington grammar schools was held yesterday afternoon to discuss measures for demoralizing the flat ruler.—Huckeye.

A man doesn't have any time to worry over the passage of the Silver bill when he reflects that it is nearly time to begin the preparation for another Fourth of July celebration.

"Don't be in a hurry to get rich," shrieks the man who goes around tacking up little guide boards pointing out the road to prosperity. Well, we ain't. Any time within five years will do.

"Well, I swan, Billy," said an old farmer to an undersized nephew who was visiting him, "when you take off that 'ere plug hat and spit two or three times there ain't much left of you, is th'?"

If ever the millennium reaches this country, it will be the day when the congressman who can hardly spell his own name stops making a fool of himself by prefixing Hon. to it upon every occasion.

The people of Washington Territory propose to hold a Constitutional Convention and demand admission into the Union as a State. The name of Columbia is suggested for the new State—when admitted.

An anti-coolie Hibernal, on being told of the famine in China, relative to which it was stated that babies were there being sold by the pound, made the characteristic remark, "Bedad, we would be glad to sell them here by the ton."

The distance of the earth from the sun, as given by the reduction of the contact observations of the transit of Venus by the British expeditions, is 93,000,000 miles. The photographic observations are yet to be discussed; but this result is somewhat larger than was expected.

Madam Resfell, the noted abortionist of New York, who had made an immense fortune in the assignment house business in that city, living in grand style, but who was out on bail awaiting trial for her crimes, went crazy a few days ago and committed suicide in her bath room by cutting her throat with a carving knife. Money alone does not always secure happiness.

A plan of heating a multitude of houses by steam from a common boiler has been tried for months in Lockport, New York, and newspaper report says the result is a complete success. The steam was carried more than a mile in iron pipes, covered with non-conducting material, and more than fifty houses were thus protected against the cold. It is claimed that steam can be delivered at a distance of 20 miles with a pressure of 50 pounds to the square inch and that pressure would drive machinery and have heat enough for cooking or washing. We presume that the production and transportation of heat will, in a few years, become a separate occupation, and will furnish opportunities for the investment of much capital.

An official report in a Russian military paper states that the czar's trophies in the war with Turkey were 27 pasha and 145,000 men—of who 15 pashas and 117,000 men were taken in Europe—over 42,000 horses, 1,298 guns, 20,000 tents, 180,000 rifles of various makes, 200,000 yataghans belonging to the irregular cavalry, 13,000 silver mounted daggers and sabers used by the Cossacks, and large stores of gunpowder and over 500,000 cartridges.

Washington, April 11.—Secretary Sherman was before the committee on banking and currency, on invitation, and in the course of his statement claimed that after resumption of specie payment he will have authority to reissue \$300,000,000 of United States notes, under authority of the existing law of 1873, contained in the revised statutes, relative to the reissue of United States notes received for taxes.

Two twin brothers—Granville and Green Thompson—wealthy stock raisers of Pine Flat, California, were killed together in their own house a few days ago by being shot through the window. The deed is supposed to have been done by a man named See, from Eugene City, Oregon, whose brother was some years since killed by the Thompsons in a land quarrel.

Capt. McGregor, of Camp Harney, and J. Catlow, of Wind river, Grant county, will run a race between their thoroughbreds, in July, for \$5,000 a side.

Eighty-three pictures belonging to Milton Latham were sold in New York for \$101,325.

THE belles and beaux of the best society in St. Louis have set a good example by the formation of a club called the "cooking club," composed of ladies and gentlemen who will give a series of parties at the different homes of the lady members. Each lady who attends will bring some refreshments cooked by herself. The ladies invite their own gentlemen escorts, and the latter will not be allowed, under penalty of being expelled, to furnish carriages.

A man picked up a purse in the street, and advertised the fact: In ten days he was visited by sixty-one men, women, boys and girls, all claiming to have the lost money. The sum was but \$11; but of each visitor who called the finder asked, "So you lost \$50 did you?" Nine-tenths of the applicants promptly replied, "Yes, sir." "Ah," said he, "yours was another purse."

THE FINE

THOROUGHBREDS,

SCAMPERDOWN and BOSTON!

WILL BE KEPT AT THE STABLES OF W. Manning & Montgomery, in Jacksonville, Oregon, the ensuing season, beginning April 1st and ending July 1, 1878. They will serve mares for thirty-five dollars, for the season, payable at the close thereof, in cash, note, or such produce as may be agreed upon. Mares proving not to be with foal (without fault of the owner) can be bred the following season Free of Charge for the services of the horse.

Descriptions and Pedigrees.

SCAMPERDOWN is a beautiful dark bay, 16 hands high, six years old this spring, and as to form and appearance is unequalled in the State. He was bred by Theo. Withers, of California, and was sired by Norfolk, (see Norfolk's pedigree). His first dam is "Nettie W." by "Belmont," second dam "Lady Davis" by "Red Bill." (See Stud Book). The same ancestry gives "Lady Davis" as the dam of "Bismarck," "Bismarck" by "Sea Gull," and he by "Imperial Expedition" third dam by "Herbrand," etc. We deem it unnecessary to give a more extended pedigree in this instance, but we can assure you that for those who doubt, his grand sire was "Lexington" on the sire's side, and on his dam's side "Old Boston," two of the greatest and noblest horses America has ever been honored with.

We invite the attention of breeders to the unequalled coats of "Scamperdown" for size, action, looks and general make-up for all uses. For Mares and Breeding.
