HOME AND ABROAD.

The Wilton Troupe is migrating this way. J. R. Burke, a mechanic of Ashland, had an arm severely cut the other day.

Ed. D. Crandall, formerly of Ashland, has commenced the study of law at San Jose, Cal. Lake county, Oregon, is nearly as large as Massachusetts, Connecticut and Rhode Island.

The Times, having the largest circulation, is the best advertising medium in Southern Oregon. March came in with lionish airs and kept the lick up pretty well. The lamb part did not come in.

The Plute Indians have resumed business among the unprotected cattle men in the Malheur country. Grass has grown wonderfully during the past few weeks. Some days it seemed as if a person could see it grow.

It was not Gen. Wm. T. Sherman who, with his wife, died at Newport, R. I., recently, but Gen. Thos. W. Sherman.

An attempt is being made in New York City to repeat the Sluice or N. Y. "Advocate" swindle. Greenbackers should be on their guard against it.

Judge Gallis of Douglas county has decided that parties having county taxes must pay taxes on them in the same manner as rates are paid on notes, etc.

There is an improvement noticeable in the last week's issue of the Ashland "Times," viz: It can be read. We congratulate the proprietors upon this innovation.

Put away the little stirrer. Genial Spring has come at last! Soon you'll need the linen duster. You discarded all so fast.

It is thought Lake county will accept the compromise offered by the Oregon and California Land Company in regard to the alleged illegal assessment of their land.

Dealers in drugs, medicines, sheep-dips, paints, oils, etc., should not fail to give Hodge, Davis & Co., of Portland, the leading wholesale druggists of the northwest coast, a trial. Their goods are the best and their prices reasonable.

The Ashland "Times" says that W. C. Myer and others have sold from Jackson county up to date forty-five Percheron colts, for which they received \$13,317, an average price of about \$296. They were all sired by White Prince, which horse has not made a season here for five years, and the sales exceed those from any other horse in Oregon.

Colts are mostly sold when under two years old and many were sent away as soon as weaned. They went to California, Eastern Oregon, Washington Territory and Idaho.

FARM AND HOUSEHOLD.

DEEP AND SHALLOW PLOWING.—Few subjects attract more attention and give rise to more discussion and want of agreement than that of the depth of plowing. Many do not consider the important fact that deep or shallow plowing depends upon the nature of the soil.

The truth is, there are many soils in which if one plow deep he may find great profit in doing so; but, on the other hand, there are thousands and thousands of acres of land where it is sheer madness to plow deep. On flat clay land, where water cannot drain rapidly away, and where the lack of drainage is the bane of the cultivator, it is found by experience that a shallow but rich surface soil is much better than a deeply stirred one.

And the reason is obvious. If water be an injury, and it cannot get into the soil by reason of the hardness of the subsoil, the rain will pass over the surface to the open ditches, which always have to be made in a flat country. If we loosen such soil deeply we only harbor more of our liquid enemy, and this counterbalances what otherwise might be a good thing in a deep soil. Besides these, there are other considerations. If the surface soil be poor, and we turn this down into a still poorer subsoil, we bury what little good there might have been in the surface soil far below the reach of the roots.

A little learning is undoubtedly a dangerous thing in farming. The more is the department of industry wherein circumstances alter cases more than in this. While deep plowing is an excellent thing when circumstances suit, there are innumerable cases when it is wise to go the other way.

SOME PRACTICAL REMARKS.—A girl who is never allowed to sew, all of whose clothes are made for her and put on her until she is ten, twelve, fifteen or eighteen years of age, says, "The Lady's Journal," is spoiled. The mother has spoiled her by doing everything for her. The true idea of self-restraint is to let the child venture. A child's mistakes are often better than no mistakes, because when a child makes a mistake and has to correct them, it is then on the way toward knowing some thing. A child that is waked up every morning, and never wakes itself up; is dressed, and never makes mistakes in dressing itself; and is washed, and never makes mistakes about being clean; and is fed, and never has anything to do with its food; and is watched, and never watches itself; and is cared for, and kept all day from doing wrong—such a child might be as tall as a candle, perfectly straight, and staid, and comely, and unvital, and good for nothing but to be burned up.

A SOAK FOR SEED CORN.—A correspondent of an exchange has tried soaking seed corn in a solution of chloride of lime, and says of it: "By soaking seed corn for seven hours in a very strong decoction of chloride of lime, corn can be forced sooner to maturity than if it were sown than it will mature otherwise; besides, he thinks, it renders the seeds almost proof against the depredations of gophers. The lime warms up the germ of the seed, and sends it up quickly, giving it two or three weeks the start of corn planted in the ordinary way, thereby insuring against the frost at the close of the season."

SMALL FARMS.—Model small farms, instead of large ones, may well engage the attention of agricultural societies and departments of moral reformers, and also of political economists. Over-extension of our national domain is a major factor in the "slugg farm" mania which is depleting the vigor of our national life. With approximately the same number of people as either France or Germany, we have many times as much territory as both of them combined.—N. Y. Farmers' Club.

CLINGING DRESSERS are going slowly but surely out of fashion; tied back dresses have entirely become things of the past. They have recently earned a bad name, from the fact that investigation has proved that many of the women draped at the wreck of the Princess Alice owed their utter inability to help themselves, or to sustain themselves when help was given them, to the fact of their being encumbered with tight-clinging skirts, which helped them drown.

TO CLEAN WHITE OSTRICH FEATHERS.—Take four ozs. white soap, cut fine, and dissolve in four pints of rather hot water. Convert the solution into a lather; put in the feathers; rub carefully with the hand for about five minutes. After this, wash in clean water, as hot as the hand can bear. Shake till dry.

IN making arrangements for labor for the coming year bear in mind that the best hands are the cheapest, all things considered. We may reasonably inquire if a poor hand is not dear at any price.

MOLASSES PIE.—One cup and a half of molasses, half cup of good vinegar, one egg, two tablespoons of flour; flavor with lemon extract. This makes two pies.

A SOFT, firm, velvety skin is nearly always found on a good cow, and a thick, hard hide on a poor one.

TO REMOVE IRON RUST.—Use lemon juice and salt. Several applications may be required.

INK spots in books may be removed by a solution of oxalic acid in water.

GENERAL NOTES AND NEWS.

SEVENTY-EIGHT years ago the first trading vessel visited Oregon.

THERE is a prospect of war between Chili and Bolivia, with probably Peru to assist Bolivia.

The next annual session of the National Grange will be held at Canandaigua, N. Y., on Nov. 19th.

It is said that the Greenbackers are preparing for introduction into Congress a most wonderful financial scheme.

SITTING BULL and his 2,000 warriors, well armed and equipped, are again showing an ugly and insubordinate disposition.

At a House Democratic caucus the sentiment prevailed to transact no other business than the passage of the appropriation bills.

J. M. SIGLIN, of the Coos Bay News, is said to have been robbed of \$300; but we don't believe it. Editors never possess that much.

EVERY county in Eastern Oregon has one or more well organized militia companies under command of Brig. Gen. Turner.

THERE is hardly a band of sheep in Wasco county, according to Seth Morgan of Butte creek, which is not afflicted with the scab.

In the great walking match at New York recently, Rowell, the man who came from England for the purpose of contesting, won by about 50 miles.

THE Democrats are resolved upon passing a law that no troops shall be kept nearer election polls than two miles, except in certain stated cases.

GEORGE ELGIN picked up one nugget that weighed \$21 on his gold mining claim on Sixes river, Curry county, and is doing well, as are others.

MRS. G. Webster, of Marshfield, was the first lady to vote in Coos county under the new law permitting woman property holders to vote at school elections.

THE Portland Bee says that a recent steamer arrival brought to that city a man, his wife and eighteen children, who propose to make Oregon their future home.

ANOTHER prisoner has been received at the penitentiary, making a total of 167. His name was Jack Williams, and he has seven years in which to reprove for forgery in Albany.

ABOUT three Democrats have been elected delegates to the Louisiana Constitutional Convention to every Republican, and still we hear no blood-curdling stories of bulldozing.

THE elegant Chimman that regularly appears in Harper's Weekly bears about as much resemblance to the average coolie as a fiery Arabian charger does to a broken-down army mule.

THERE are said to be some irregularities in the passenger business at Ouna, discriminating against Oregon. To prevent imposition upon the traveling public passengers for Oregon via the U. P. Railroad should be warned.

THE New Idria Quicksilver Mining Company of Oakland is negotiating with Thomas Grisdale for 20,000 work with which to construct a furnace. Work has commenced on the mine in a very strong decoction of chloride of lime, corn can be forced sooner to maturity than if it were sown than it will mature otherwise; besides, he thinks, it renders the seeds almost proof against the depredations of gophers. The lime warms up the germ of the seed, and sends it up quickly, giving it two or three weeks the start of corn planted in the ordinary way, thereby insuring against the frost at the close of the season."

MR. GROVER on March 25th introduced a bill directing the Secretary of War to detail three army officers as commissioners to ascertain and report to Congress, at its next session, the expenses and loss incurred by the State of Oregon and the Territories of Washington and Idaho in defending themselves from Indians during the years of 1877 and 1878.

THE NORTHERN PACIFIC RAILROAD.—The following dispatches were received at Portland last week by J. C. Ainsworth, and were published in the Oregonian. They tell their own tale and need no explanation:

To Capt. J. C. Ainsworth: The board of directors of the Northern Pacific Railroad Company has ordered to-day twenty-five hundred tons of rails to be purchased and shipped to Esteru Washington Territory.

C. B. WRIGHT, Pres. NEW YORK, March 20th. To J. C. Ainsworth: The board has ordered immediate purchase of twenty-five hundred tons of iron or steel rails, to commence building eastward from the head of navigation on the Columbia river. I expect the work begun on the Pacific side as well as on this, not to stop until the entire road is completed.

FRED'K BILLINGS, said a Detroit lawyer, the other day, as he put the five-dollar bill away in his vest pocket. "Well," began the client, "suppose a man lying next door wants to put a barn right up against my house?" "He can't do it, sir. Can't do any such thing," replied the lawyer. "But I want to put my barn right up against his line," remarked the client. "Oh—ah—yes!" replied the lawyer, "go right ahead and put your barn there. All the law in the case is on your side."
